---

AAP members have the opportunity to review and share comments on resolutions to be presented during the upcoming AAP Leadership Conference, a combination of the Annual Leadership Forum and the District Meetings, to be held Aug. 4-7.

An important aim of the Leadership Conference is to incorporate diverse perspectives in the discussion and debate of leading pediatric issues. Member comments are important to the AAP leadership and representatives of their district, chapter, committee, council, and section who will attend the conference and vote on resolutions.

Comments on resolutions will be shared with members of the reference committees and also posted online by Monday, Aug. 1. Keep in mind that the report shared with Leadership Conference attendees and resolution authors will include the member's name, district and comments. Members should focus their comments on the content of the resolution itself. Submitted comments will be reviewed before public posting. The comments contained in the report are for members only and should not be shared outside of the AAP.

Members can share their comments at <https://resolutions.aap.org> through Friday, July 22 (login required).
