

Supplemental Information

SUPPLEMENT PCC MODEL TRAINING LIST OF RESOURCES AND LINKS

AAP Section on Hospice and Palliative Medicine: materials available to members of the AAP at <https://www.aap.org/en-us/about-the-aap/Sections/Section-on-Hospice-and-Palliative-Medicine/Pages/SOHPM.aspx>.

Additionally, there is a LISTSERV run through this section. Click on the link below and scroll down to the bottom to add your e-mail to the LISTSERV: <https://www.aap.org/en-us/about-the-aap/Sections/Section-on-Hospice-and-Palliative-Medicine/Pages/About-Us.aspx>.

Education in Palliative and End-of-Life Care Pediatrics curriculum: comprehensive curriculum and train-the-trainer course. Access to 23 online modules and a 1.5-day in-person educational session. After completing of the course, you have access to all materials used for teaching PC and EOL at <https://www.bioethics.northwestern.edu/programs/epec/curricula/pediatrics.html>.

Courageous Parents Network: an interactive Web site developed by a parent of a child with serious illness that died that is open access. The Web site contains video vignettes on a range of topics, from decision-making around spinal fusion surgery or tracheostomy placement to bereavement support for parents. Both parent-facing and provider-

facing platforms exist at <https://courageousparentsnetwork.org/>.

American Academy of Hospice and Palliative Medicine and Hospice and Palliative Nurses Association: these Web sites contain links to educational materials and leadership training courses at <http://aahpm.org/> and <https://advancingexpertcare.org/>.

End-of-Life Care Education Consortium: a comprehensive educational curriculum for nurses regarding care of patients at the EOL. Designed and developed by 20 PPC experts with ≥ 3 national train-the-trainer PPC courses offered across the United States each year, with access to all educational materials at <https://www.aacnursing.org/ELNEC/About/ELNEC-Curricula>

Pediatric Pain Master Class: a week-long intensive course on assessment and management of pain in pediatric patients available at <http://nonneedlesspain.org/ppmc/>.

VitalTalk: communication training. Example videos, modules, and talking maps as well as courses to improve your own communication skills and teach others at <https://www.vitaltalk.org/>.

Palliative Care Research Cooperative Group: a network of PC researchers, core facilities, and resources that can facilitate multi-institutional trials. Information is available at <https://palliativecareresearch.org/>.

Center to Advance Palliative Care: provides tools, training, technical assistance and metrics to sustain PC and includes a curriculum for continuing medical education credits for member organizations. More information is available at <https://www.capc.org/>.

There is also the additional Improving Palliative Care in the ICU initiative at <https://www.capc.org/ipal/ipal-icu/>.

Stanford Palliative Care Training Portal: an open access Web-based training portal with modules, resources, and training materials in PC and EOL care. More information is available at <https://palliative.stanford.edu/>.

Social Work Hospice and Palliative Care Network: contains professional resources, policy updates, and new and emerging education and research best practices in palliative and hospice care with membership open to social workers and other professionals in hospice and PC fields. More information is available at <https://www.swhpn.org/>.

American Society of Pediatric Hematology/Oncology Palliative Care Special Interest Group: this Web site makes resources available for policies, procedures, and education as well as establishing research priorities and networks. More information is available at <http://aspho.org/membership/special-interest-groups/palliative-care>.
