

Supplemental Information

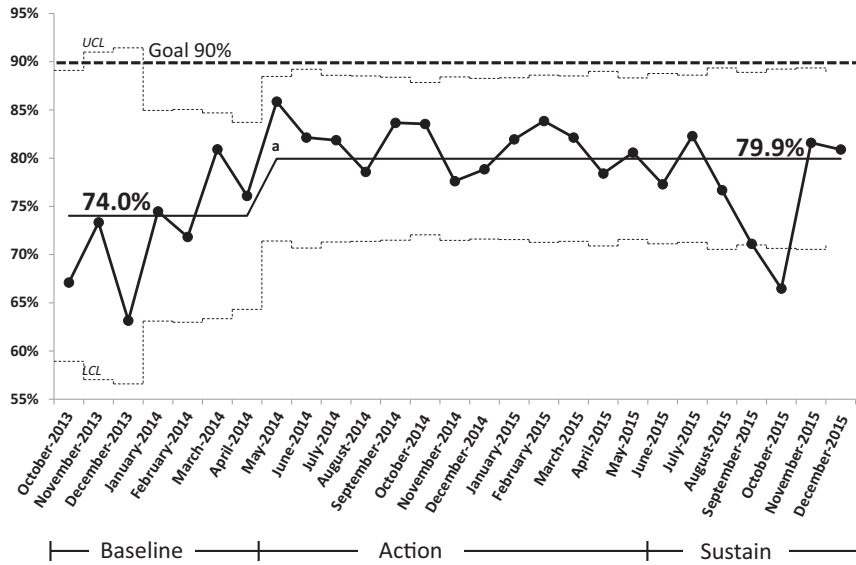

SUPPLEMENTAL FIGURE 5

STEPP IN project CPR. Available online as a separate supplemental file.

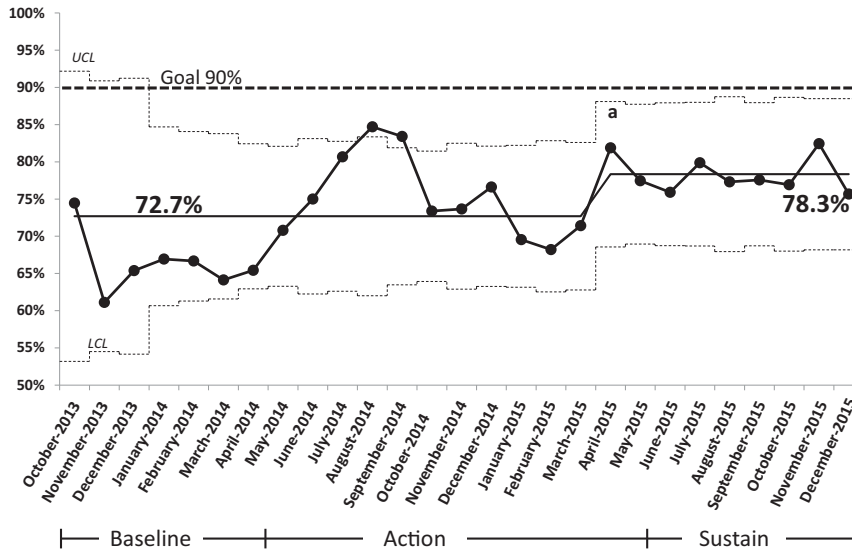

SUPPLEMENTAL FIGURE 6

Handoff process satisfaction. LCL, lower control limit; UCL, upper control limit.

SUPPLEMENTAL FIGURE 7

Use of handoff tool. SPC chart for the process measure of percentage of use of a handoff tool. Dotted lines represent control limits. One special cause signals an increase in use of handoff tool from baseline. ^a Represents the first point for a special cause signal. LCL, lower control limit; UCL, upper control limit.

SUPPLEMENTAL FIGURE 8

Required staff present at handoff. SPC chart for the process measure of percentage of required staff present at handoff. Dotted lines represent control limits. One special cause signals an increase in required staff present at handoff. ^a Represents the first point for a special cause signal. LCL, lower control limit; UCL, upper control limit.
