ARTICLES

Prevalence of Obesity and Severe Obesity in US Children, 1999–2016

14

- This is a secondary data analysis of a nationally representative sample of US youth in which we report on current obesity prevalence trends through 2016.

Asheley Cockrell Skinner, Sophie N. Ravanbakht, Joseph A. Skelton, Eliana M. Perrin, Sarah C. Armstrong

Characteristics of Children 2 to 5 Years of Age With Severe Obesity

17

- In this analysis of nationally representative data, we characterize sociodemographic, dietary intake, and screen time habits of preschool-aged children with SO compared with their peers.

June M. Tester, Thao-Ly T. Phan, Jared M. Tucker, Cindy W. Leung, Meredith L. Dreyer Gillette, Brooke R. Sweeney, Shelley Kirk, Alexis Tindall, Susan E. Olivo-Marston, Ihuoma U. Eneli

National and State Trends in Sudden Unexpected Infant Death: 1990–2015

18

- This study examines trends in SUID and SUID subtypes nationally and by state from 1990 to 2015.

Alexa B. Erck Lambert, Sharyn E. Parks, Carrie K. Shapiro-Mendoza

The print edition of *Pediatrics* contains abstracts of original research and full text of policies of the American Academy of Pediatrics. Full text of original research and all other journal article types can be found online at www.pediatrics.org.

ARTICLES (continued)

-   **Firearm Storage in Homes With Children With Self-Harm Risk Factors** 23
- In this study, we use 2015 survey data to estimate firearm ownership and storage practices in households containing children with self-harm risk factors versus those without self-harm risk factors.
- John Scott, Deborah Azrael, Matthew Miller*
-   **Antibiotic Prophylaxis for Children With Sickle Cell Anemia** 26
- Are children with SCA adequately protected against IPD?
- Sarah L. Reeves, Alison C. Tribble, Brian Madden, Gary L. Freed, Kevin J. Dombkowski*
-  **Cerebrospinal Fluid Reference Values for Young Infants Undergoing Lumbar Puncture** 27
- Using a large, multicenter cohort of infants ≤ 60 days old, we define age-specific CSF parameter reference values.
- Joanna Thomson, Heidi Sucharew, Andrea T. Cruz, Lise E. Nigrovic, Stephen B. Freedman, Aris C. Garro, Fran Balamuth, Rakesh D. Mistry, Joseph L. Arms, Paul T. Ishimine, Dina M. Kulik, Mark I. Neuman, Samir S. Shah, for the Pediatric Emergency Medicine Collaborative Research Committee (PEM CRC) HSV Study Group*
-   **Health and Care Utilization of Transgender and Gender Nonconforming Youth: A Population-Based Study** 28
- This is the first large, population-based study in which health concerns and care utilization are examined between TGNC versus cisgender adolescents and across gender expressions among TGNC adolescents.
- G. Nicole Rider, Barbara J. McMorris, Amy L. Gower, Eli Coleman, Marla E. Eisenberg*
-  **Inhaled Nitric Oxide in Extremely Premature Neonates With Respiratory Distress Syndrome** 31
- In this retrospective cohort study, we assessed whether prescription of iNO during the first week of life improved survival among extremely premature neonates.
- William A. Carey, Amy L. Weaver, Kristin C. Mara, Reese H. Clark*
- A Workforce Survey on Developmental-Behavioral Pediatrics** 34
- The aging and increasingly female DBP workforce is at risk of burnout because of long wait lists, increased patient complexity, and high levels of nonreimbursed care.
- Carolyn Bridgemohan, Nerissa S. Bauer, Britt A. Nielsen, Anne DeBattista, Holly S. Ruch-Ross, Linda B. Paul, Nancy Roizen*

ARTICLES (continued)

-  **Cost-Effectiveness of Supplemental Donor Milk Versus Formula for Very Low Birth Weight Infants** 39
- In this RCT, cost-effectiveness of supplemental DHM versus PTF for VLBW infants was evaluated from birth to 18 months' CA from a societal perspective.
- Susan Trang, John A. F. Zupancic, Sharon Unger, Alex Kiss, Nicole Bando, Sabrina Wong, Sharyn Gibbins, Deborah L. O'Connor; on behalf of the GTA DoMINO Feeding Group*
- Left Axis Deviation in Children Without Previously Known Heart Disease** 40
- Children with incidentally discovered electrocardiographic evidence of LAD and key, identifiable risk factors should be screened for the presence of HD.
- Andrew E. Schneider, Bryan C. Cannon, Jonathan N. Johnson, Michael J. Ackerman, Philip L. Wackel*
- Epilepsy in Children After Pandemic Influenza Vaccination** 41
- Through linkage of Norwegian registries, this study investigated the risk of epilepsy in children in a period of up to 5 years after pandemic influenza vaccination.
- Siri E. Håberg, Kari M. Aaberg, Pål Surén, Lill Trogstad, Sara Ghaderi, Camilla Stoltenberg, Per Magnus, Inger Johanne Bakken*
-  **Nutrient Intake in the First Two Weeks of Life and Brain Growth in Preterm Neonates** 42
- In this preterm cohort study, we investigate the relationship between early macronutrient intake and brain macro- and microstructural growth, the influence of neonatal morbidity, and subsequent neurodevelopment.
- Juliane Schneider, Céline J. Fischer Fumeaux, Emma G. Duerden, Ting Guo, Justin Foong, Myriam Bickle Graz, Patric Hagmann, M. Mallar Chakravarty, Petra S. Hüppi, Lydie Beauport, Anita C. Truttmann, Steven P. Miller*
-  **Variation in Anthropometric Status and Growth Failure in Low- and Middle-Income Countries** 43
- This is a global study designed to help understand differences in the distribution of child anthropometric status and growth failure W_{pop} and B_{pop} .
- Iván Mejía-Guevara, Daniel J. Corsi, Jessica M. Perkins, Rockli Kim, S. V. Subramanian*

ARTICLES (continued)

-   **Disparities in Outcomes and Resource Use After Hospitalization for Cardiac Surgery by Neighborhood Income** 44
- Linking administrative and US Census Bureau data, we examined associations between community-level income, mortality, length of stay, and costs for a resource-intensive cohort and general pediatric population.
- Brett R. Anderson, Evan S. Fieldston, Jane W. Newburger, Emile A. Bacha, Sherry A. Glied*
-   **Infant Hospitalizations and Mortality After Maternal Vaccination** 45
- Using the VSD, we conducted a case-control study to evaluate the safety of maternal influenza and Tdap vaccination in infants 0 to 6 months old.
- Lakshmi Sukumaran, Natalie L. McCarthy, Elyse O. Kharbanda, Gabriela Vazquez-Benitez, Heather S. Lipkind, Lisa Jackson, Nicola P. Klein, Allison L. Naleway, David L. McClure, Rulin C. Hechter, Alison T. Kawai, Jason M. Glanz, Eric S. Weintraub*
-  **Child Health Outcomes After Presumptive Infection Treatment in Pregnant Women: A Randomized Trial** 46
- The reduced prevalence of neonatal stunting of children whose mothers received presumptive infection treatment during pregnancy is sustained and reflected in childhood growth and development.
- Lotta Hallamaa, Yin Bun Cheung, Kenneth Maleta, Mari Luntamo, Ulla Ashorn, Melissa Gladstone, Teija Kulmala, Charles Mangani, Per Ashorn*
