ARTICLES

Adolescent E-Cigarette, Hookah, and Conventional Cigarette Use and Subsequent Marijuana Use

19

- We sought to determine whether the well-established comorbidity between combustible cigarette smoking and subsequent marijuana use in adolescence translates to e-cigarette and hookah use.

Janet Audrain-McGovern, Matthew D. Stone, Jessica Barrington-Trimis, Jennifer B. Unger, Adam M. Leventhal

Marijuana Use by Breastfeeding Mothers and Cannabinoid Concentrations in Breast Milk

20

- With this study, we quantified levels of cannabinoids Δ^9 -THC, 11-OH-THC, cannabidiol, and cannabinol in 54 milk samples provided by breastfeeding mothers who reported recent marijuana use.

Kerri A. Bertrand, Nathan J. Hanan, Gordon Honerkamp-Smith, Brookie M. Best, Christina D. Chambers

Adolescent Tobacco Smoke Exposure, Respiratory Symptoms, and Emergency Department Use

23

- We examined the association between TSE and related respiratory symptoms and ED and/or UC use among nonsmoking adolescents without asthma diagnoses.

Ashley L. Merianos, Roman A. Jandarov, E. Melinda Mahabee-Gittens

Negative Chest Radiography and Risk of Pneumonia

24

- In this prospective study, we examine the ability of using the CXR to exclude pneumonia in children.

Susan C. Lipsett, Michael G. Monuteaux, Richard G. Bachur, Nicole Finn, Mark I. Neuman
