

CONTENTS

- S205 SECTION ON ALLERGY AND IMMUNOLOGY
 S206 ABOUT THIS SYNOPSIS BOOK
 S207 A SYNOPSIS OF THE SYNOPSES, 2017–2018

ALLERGY*Risk Factors, Prevention, and the Hygiene Hypothesis*

- S209 Prenatal Intake of Vitamins and Allergic Outcomes in the Offspring: A Systematic Review and Meta-analysis
 S209 Prebiotics for the Prevention of Allergies: A Systematic Review and Meta-analysis of Randomized Controlled Trials
 S210 Maternal Intake of Sugar During Pregnancy and Childhood Respiratory and Atopic Outcomes
 S211 Effect of an Intervention to Promote Breastfeeding on Asthma, Lung Function, and Atopic Eczema at Age 16 Years, Follow-up of the PROBIT Randomized Trial
 S211 Prospective Cohort Study of Breastfeeding and the Risk of Childhood Asthma
 S212 Infant Feeding Patterns and Eczema in Children in the First 6 Years of Life
 S213 Early Probiotic Supplementation for Eczema and Asthma Prevention: A Randomized Controlled Trial
 S213 Influence of Antibiotic Use in Early Childhood on Asthma and Allergic Diseases at Age 5
 S214 Skin Prick Tests and Specific IgE in 10-Year-Old Children: Agreement and Association With Allergic Diseases
 S215 Predicting the Atopic March: Results From the Canadian Healthy Infant Longitudinal Development Study
 S215 Early-Life Sensitization to Hen's Egg Predicts Asthma and Rhinoconjunctivitis at 14 Years of Age
 S216 Influence of Intrinsic and Lifestyle Factors on the Development of IgE Sensitization
 S217 *Staphylococcus aureus* Enterotoxin Sensitization Is Associated With Allergic Poly-sensitization and Allergic Multimorbidity in Adolescents

Environmental Exposures and Tobacco Smoke

- S218 Cockroach Allergen Exposure and Plasma Cytokines Among Children in a Tropical Environment
 S218 Mouse Sensitization and Exposure Are Associated With Asthma Severity in Urban Children
 S219 Tobacco Control Laws and Pediatric Asthma
 S219 Perceptions of Nontraditional Tobacco Products Between Asthmatic and Non-asthmatic College Students

Anaphylaxis

- S220 Anaphylaxis in the Pediatric Emergency Department: Analysis of 133 Cases After an Allergy Workup
- S221 Food-Induced Anaphylaxis in Infants and Children
- S221 Improving Anaphylaxis Care: The Impact of a Clinical Pathway
- S222 Further Evaluations of Factors That May Predict Biphasic Reactions in Emergency Department Anaphylaxis Patients
- S223 Aspirin Is an Enhancing Factor for Food-Dependent Exercise-Induced Anaphylaxis in Children

Drug Allergy

- S224 Allergy Testing in Children With Low-Risk Penicillin Allergy Symptoms
- S224 Antibiotic Use After Removal of Penicillin Allergy Label
- S225 Prospective Assessment of Diagnostic Tests for Pediatric Penicillin Allergy, From Clinical History to Challenge Tests

Allergic Rhinitis

- S226 Association of Leptin With Disease Severity and Inflammation Indicators in Chinese Obese Children With Allergic Rhinitis
- S226 Efficacy of Buffered Hypertonic Saline Nasal Irrigation for Nasal Symptoms in Children With Seasonal Allergic Rhinitis: A Randomized Controlled Trial

Atopic Dermatitis

- S227 Identification of Atopic Dermatitis Subgroups in Children From 2 Longitudinal Birth Cohorts
- S228 Phenotypes of Atopic Dermatitis Depending on the Timing of Onset and Progression in Childhood
- S228 Reduced Th22 Cell Proportion and Prevention of Atopic Dermatitis in Infants Following Maternal Probiotic Supplementation
- S229 *Staphylococcus aureus* and *Staphylococcus epidermidis* Strain Diversity Underlying Pediatric Atopic Dermatitis
- S230 Long-term Safety of Crisaborole Ointment 2% in Children and Adults With Mild-to-Moderate Atopic Dermatitis

FOOD ALLERGY

Ige-Mediated Food Allergy

- S230 Association Between Caesarean Delivery and Isolated Doses of Formula Feeding in Cow Milk Allergy
- S231 Maternal IgG Immune Complexes Induce Food Allergen-Specific Tolerance in Offspring
- S232 A Prospective Microbiome-Wide Association Study of Food Sensitization and Food Allergy in Early Childhood
- S233 Fecal Microbiome and Food Allergy in Pediatric Atopic Dermatitis: A Cross-sectional Pilot Study
- S233 LEAPing Through the Looking Glass: Secondary Analysis of the Effect of Skin Test Size and Age of Introduction on Peanut Tolerance After Early Peanut Introduction
- S234 Allergen Specificity of Early Peanut Consumption and Effect on Development of Allergic Disease in the Learning Early About Peanut Allergy Study Cohort
- S234 Reduced Risk of Peanut Sensitization Following Exposure Through Breastfeeding and Early Peanut Introduction

- S235 Prevalence and Longitudinal Trends of Food Allergy During Childhood and Adolescence: Results of the Isle of Wight Birth Cohort Study
- S236 Peanut Allergy: An Epidemiologic Analysis of a Large Database
- S236 Multicenter Prevalence of Anaphylaxis in Clinic-Based Oral Food Challenges
- S237 Cross-reactivity in Fish Allergy: A Double-blind, Placebo-Controlled Food Challenge Trial
- S237 Conjunctival Provocation Test in Diagnosis of Peanut Allergy in Children
- S238 Food-Induced Anaphylaxis to a Known Food Allergen in Children Often Occurs Despite Adult Supervision
- S239 School Nurse Perspectives on School Policies for Food Allergy and Anaphylaxis
- S239 Food Allergy and Anxiety and Depression Among Ethnic Minority Children and Their Caregivers
- S240 Preliminary Psychometric Analyses and Clinical Performance of a Caregiver Self-efficacy Scale for Food Allergy Self-management
- S240 Quantitative Assessment of the Safety Benefits Associated With Increasing Clinical Peanut Thresholds Through Immunotherapy
- S241 Effect of Varying Doses of Epicutaneous Immunotherapy Versus Placebo on Reaction to Peanut Protein Exposure Among Patients With Peanut Sensitivity: A Randomized Clinical Trial
- S242 Efficacy and Safety of AR101 in Oral Immunotherapy for Peanut Allergy: Results of ARC001, a Randomized, Double-Blind, Placebo-Controlled Phase 2 Clinical Trial
- S242 Changes in Patient Quality of Life During Oral Immunotherapy for Food Allergy

Non-IgE Mediated Food Allergy

- S243 Food Protein-Induced Enterocolitis Syndrome in Australia: A Population-Based Study, 2012-2014
- S244 Systemic Innate Immune Activation in Food Protein-Induced Enterocolitis Syndrome
- S244 Trends in Provider Management of Patients With Food Protein-Induced Enterocolitis Syndrome
- S245 Allergic Proctocolitis Is a Risk Factor for Functional Gastrointestinal Disorders in Children
- S246 Effects of Allergen Sensitization on Response to Therapy in Children With Eosinophilic Esophagitis
- S246 Using Serum IgE Antibodies to Predict Esophageal Eosinophilia in Children
- S247 Retrospective Comparison of Fluticasone Propionate and Oral Viscous Budesonide in Children With Eosinophilic Esophagitis

ASTHMA

Risk Factors

- S248 Beta-2 Receptor Agonist Exposure in the Uterus Associated With Subsequent Risk of Childhood Asthma
- S248 Fetal and Infant Growth Patterns and Risk of Lower Lung Function and Asthma
- S249 Perinatal Factors and the Development of Childhood Asthma
- S250 Breastfeeding, Maternal Asthma and Wheezing in the First Year of Life: A Longitudinal Birth Cohort Study
- S250 Effect of Vitamin D Supplementation on Recurrent Wheezing in Black Infants Who Were Born Preterm: The D-Wheeze Randomized Clinical Trial
- S251 Prednisolone for the First Rhinovirus-Induced Wheezing and 4-Year Asthma Risk: A Randomized Trial

- S252 Wheezing and Infantile Colic Are Associated With Neonatal Antibiotic Treatment
- S253 PGD2/DP2 Receptor Activation Promotes Severe Viral Bronchiolitis by Suppressing IFN- λ Production
- S253 Early-Life Home Environment and Risk of Asthma Among Inner-city Children
- S254 Presence of Atopy Increases the Risk of Asthma Relapse
- S255 Parents' Childhood Socioeconomic Circumstances Are Associated With Their Children's Asthma Outcomes
- S255 Differences Between Preschoolers With Asthma and Allergies in Urban and Rural Environments
- S256 Increased Risk of Asthma in Overweight Children Born Large for Gestational Age
- S257 Overweight in Childhood and Adolescence: Does It Lead to Airway Hyperresponsiveness in Adulthood?

Diagnosis and Management

- S258 Chronic Cough Postacute Respiratory Illness in Children: A Cohort Study
- S258 Preventing Severe Asthma Exacerbations in Children: A Randomized Trial of Mite-Impermeable Bedcovers
- S259 Association of an Asthma Improvement Collaborative With Health Care Utilization in Medicaid-Insured Pediatric Patients in an Urban Community
- S259 Effectiveness of Evidence-Based Asthma Interventions
- S260 Effect of the School-Based Telemedicine Enhanced Asthma Management (SB-TEAM) Program on Asthma Morbidity
- S261 Electronic Monitoring of Adherence to Inhaled Corticosteroids: An Essential Tool in Identifying Severe Asthma in Children
- S261 Asthma Exacerbations and Triggers in Children in TENOR: Impact on Quality of Life
- S262 Fluid Balance Is Associated With Clinical Outcomes and Extravascular Lung Water in Children With Acute Asthma Exacerbation
- S262 Positive Expiratory Pressure for the Treatment of Acute Asthma Exacerbations: A Randomized Controlled Trial
- S263 Does Nebulized Hypertonic Saline Shorten Hospitalization in Young Children With Acute Viral Wheezing?
- S263 Does Asthma Affect School Performance in Adolescents? Results From the Swedish Population-Based Birth Cohort BAMSE
- S264 Association Between Attention-Deficit/Hyperactivity Disorder and Asthma Among Adults: A Case-Control Study

Medical Therapies

- S265 Quintupling Inhaled Glucocorticoids to Prevent Childhood Asthma Exacerbations
- S265 Comparative Effectiveness of Step-up Therapies in Children With Asthma Prescribed Inhaled Corticosteroids: A Historical Cohort Study
- S266 Association of Inhaled Corticosteroids and Long-Acting β -Agonists as Controller and Quick Relief Therapy With Exacerbations and Symptom Control in Persistent Asthma: A Systematic Review and Meta-analysis
- S267 Association of Inhaled Corticosteroids and Long-Acting Muscarinic Antagonists With Asthma Control in Patients With Uncontrolled, Persistent Asthma: A Systematic Review and Meta-analysis
- S268 Inhaled Combined Budesonide-Formoterol as Needed in Mild Asthma As Needed Budesonide-Formoterol Versus Maintenance Budesonide in Mild Asthma

- S268 **Effects of Omalizumab on Rhinovirus Infections, Illnesses and Exacerbations of Asthma**
- S269 **Impact of Omalizumab in Children From a Middle-Income Country With Severe Therapy-Resistant Asthma: A Real Life Study**
- S270 **Dupilumab Efficacy and Safety in Moderate-to-Severe Uncontrolled Asthma**
Efficacy and Safety of Dupilumab in Glucocorticoid-Dependent Severe Asthma
- S270 **Rapid Versus Maintenance Vitamin D Supplementation in Deficient Children With Asthma to Prevent Exacerbations**
- S271 **Oral Corticosteroid Exposure and Adverse Effects in Asthmatic Patients**
- S271 **Association Between Inhaled Corticosteroid Use and Bone Fracture in Children With Asthma**

IMMUNOLOGY

- S272 **Burden of Poor Health Conditions and Quality of Life in 656 Children With Primary Immunodeficiency**
- S273 **Retrospective Review of Immunocompromised Children Undergoing Skin Biopsy for Suspected Invasive Infection: Analysis of Factors Predictive of Invasive Mold**
- S273 **Safety and Immunogenicity of a Recombinant Influenza Vaccine: A Randomized Trial**

doi: 10.1542/peds.2018-2420
