ARTICLES

Early Acid Suppression Therapy Exposure and Fracture in Young Children 10

- PPI use in infancy, alone or with H₂RAs, is associated with fracture after 1 year of age.

Laura Malchodi, Kari Wagner, Apryl Susi, Gregory Gorman, Elizabeth Hisle-Gorman

Acellular Pertussis Vaccine Effectiveness Over Time 13

- Compared with children fully DTaP vaccinated, unvaccinated and undervaccinated children were at a greater risk of pertussis. However, most pertussis cases occurred among age-appropriately vaccinated children.

Ousseny Zerbo, Joan Bartlett, Kristin Goddard, Bruce Fireman, Edwin Lewis, Nicola P. Klein

Incidence of Herpes Zoster Among Children: 2003–2014 17

- Using data from 6 health care organizations, we examined herpes zoster (HZ) incidence among children in the varicella vaccine era (2003–2014).

Sheila Weinmann, Allison L. Naleway, Padma Koppolu, Roger Baxter, Edward A. Belongia, Simon J. Hambidge, Stephanie A. Irving, Michael L. Jackson, Nicola P. Klein, Bruno Lewin, Elizabeth Liles, Mona Marin, Ning Smith, Eric Weintraub, Colleen Chun

Implementing Evidence-Based Strategies to Improve HPV Vaccine Delivery 20

- The experience of a large, not-for-profit health care system suggests that local adaptation may be effective in engaging physicians in HPV vaccine-related QI efforts.

Melissa B. Gilkey, Michael J. Parks, Marjorie A. Margolis, Annie-Laurie McRee, Jason V. Terk

ARTICLES (continued)

-    **Mental Health Problems and Initiation of E-cigarette and Combustible Cigarette Use** 23
- Data from a nationally representative sample of youth were used to explore associations between mental health problems and initiation of e-cigarette and combustible cigarette use.
- Kira E. Riehm, Andrea S. Young, Kenneth A. Feder, Noa Krawczyk, Kayla N. Tormohlen, Lauren R. Pacek, Ramin Mojtabai, Rosa M. Crum*
-    **A Prediction Model to Identify Febrile Infants ≤60 Days at Low Risk of Invasive Bacterial Infection** 24
- In this multicenter case-control study, we derive and internally validate a highly sensitive score that identifies non-ill-appearing febrile infants at low probability of bacteremia and/or bacterial meningitis.
- Paul L. Aronson, Veronika Shabanova, Eugene D. Shapiro, Marie E. Wang, Lise E. Nigrovic, Christopher M. Pruitt, Adrienne G. DePorre, Rianna C. Leazer, Sanyukta Desai, Laura F. Sartori, Richard D. Marble, Sahar N. Rooholamini, Russell J. McCulloh, Christopher Woll, Fran Balamuth, Elizabeth R. Alpern, Samir S. Shah, Derek J. Williams, Whitney L. Browning, Nipam Shah, Mark I. Neuman, for the Febrile Young Infant Research Collaborative*
-    **Prevalence, Risk Factors, and Outcomes of Bacteremic Pneumonia in Children** 28
- Using systematic, prospective blood culture collection in children admitted with CAP, this study identifies risk factors and characterizes outcomes associated with bacteremia.
- Cristin Q. Fritz, Kathryn M. Edwards, Wesley H. Self, Carlos G. Grijalva, Yuwei Zhu, Sandra R. Arnold, Jonathan A. McCullers, Krow Ampofo, Andrew T. Pavia, Richard G. Wunderink, Evan J. Anderson, Anna M. Bramley, Seema Jain, Derek J. Williams*
- Infant Deaths in Sitting Devices** 29
- This study uses a nationwide data set to compare risk factors for sleep-related infant deaths occurring in sitting devices and in nonsitting devices.
- Peter Liaw, Rachel Y. Moon, Autumn Han, Jeffrey D. Colvin*
- Safety Interventions and Liquid Laundry Detergent Packet Exposures** 30
- Liquid laundry detergent packet exposures among children <6 years of age have decreased modestly since 2015, whereas exposures among older children and adults have continued to increase.
- Christopher E. Gaw, Henry A. Spiller, Marcel J. Casavant, Thitphalak Chounthirath, Gary A. Smith*

ARTICLES (continued)

- Hydroxyurea Use for Sickle Cell Disease Among Medicaid-Enrolled Children** 31
- This population-based study of children with SCD assesses trends in hydroxyurea use and associated changes in ED visits and hospitalizations.
- David C. Brousseau, Troy Richardson, Matt Hall, Angela M. Ellison, Samir S. Shah, Jean L. Raphael, David G. Bundy, Staci Arnold*
-    **Patterns of Electrolyte Testing at Children's Hospitals for Common Inpatient Diagnoses** 32
- A retrospective cohort study revealed wide variation in electrolyte testing rates across hospitals, with strong hospital-level correlation across diagnoses.
- Michael J. Tchou, Matt Hall, Samir S. Shah, David P. Johnson, Alan R. Schroeder, James W. Antoon, Marquita C. Genies, Ricardo Quinonez, Christopher W. Miller, Snehal P. Shah, Patrick W. Brady, for the Pediatric Research in Inpatient Settings (PRIS) Network*
-    **Cervical Spine Injury Risk Factors in Children With Blunt Trauma** 35
- In this multicenter, prospective observational study of 4091 children who experienced blunt trauma, we identified 14 risk factors for CSI.
- Julie C. Leonard, Lorin R. Browne, Fahd A. Ahmad, Hamilton Schwartz, Michael Wallendorf, Jeffrey R. Leonard, E. Brooke Lerner, Nathan Kuppermann*
- Palivizumab and Long-term Outcomes in Cystic Fibrosis** 38
- In this study, we explore palivizumab's potential benefits related to longer-term outcomes (lung function at age 7, first acquisition of *Pseudomonas*, and hospitalizations) in children with CF.
- Aliza K. Fink, Gavin Graff, Carrie L. Byington, Deena R. Loeffler, Margaret Rosenfeld, Lisa Saiman*
-   **A 2017 US Reference for Singleton Birth Weight Percentiles Using Obstetric Estimates of Gestation** 41
- This study provides an updated birth weight reference by using a more reliable GA estimate and reflects the current sociodemographic composition of the United States.
- Izzuddin M. Aris, Ken P. Kleinman, Mandy B. Belfort, Anjali Kaimal, Emily Oken*
-  **A Simpler Prediction Rule for Rebound Hyperbilirubinemia** 42
- We turned our previous 3-variable clinical prediction rule for rebound hyperbilirubinemia into a simpler 2-variable rule with similarly excellent discrimination.
- Pearl W. Chang, Thomas B. Newman*

ARTICLES (continued)

-   **Physical Activity and Trajectories of Cardiovascular Health Indicators During Early Childhood** 43
- This prospective cohort study examines the longitudinal effects of physical activity on cardiovascular fitness, arterial stiffness, and blood pressure over 3 years during early childhood.
- Nicole A. Proudfoot, Sara King-Dowling, John Cairney, Steven R. Bray, Maureen J. MacDonald, Brian W. Timmons*
-  **Mental Illness Among Youth With Chronic Physical Conditions** 44
- This nationally representative cohort study examines the risk of mental health diagnosis among youth with CPCs and explores the mediating role of activity limitations.
- John S. Adams, Alyna T. Chien, Lauren E. Wisk*
- Adolescent Connectedness and Adult Health Outcomes** 45
- Using the National Longitudinal Study of Adolescent to Adult Health, we document long-term protective associations between family and school connectedness and multiple health outcomes.
- Riley J. Steiner, Ganna Sheremenko, Catherine Lesesne, Patricia J. Dittus, Renee E. Sieving, Kathleen A. Ethier*
-   **Factors Associated With Management of Pediatric Ovarian Neoplasms** 46
- Through retrospective review of >800 patients, we describe the current approach to ovarian masses, both benign and malignant, in the pediatric patient.
- Amy E. Lawrence, Dani O. Gonzalez, Mary E. Fallat, Jennifer H. Aldrink, Geri D. Hewitt, S. Paige Hertweck, Amanda Onwuka, Christina Bence, Robert C. Burns, Patrick A. Dillon, Peter F. Ehrlich, Jason D. Fraser, Julia E. Grabowski, Ronald B. Hirschl, Rashmi Kabre, Jonathan E. Kohler, Dave R. Lal, Matthew P. Landman, Charles M. Leys, Grace Z. Mak, Thomas T. Sato, Madeline Scannell, Joseph A. Sujka, Peter C. Minneci, Katherine J. Deans*
-  **Neurologic Outcome After Prematurity: Perspectives of Parents and Clinicians** 47
- This qualitative descriptive study illustrates that parents and clinicians discuss and weigh prognostic information differently from each other as they consider choices for premature infants.
- Monica E. Lemmon, Hanna Huffstetler, Mary Carol Barks, Christine Kirby, Madelaine Katz, Peter A. Ubel, Sharron L. Docherty, Debra Brandon*
-  **Social Robots for Hospitalized Children** 48
- SRs offer unique opportunities to extend emotionally responsive care among limited human resources. We explore feasibility and acceptability of integrating SR technology into pediatric health care.
- Deirdre E. Logan, Cynthia Breazeal, Matthew S. Goodwin, Sooyeon Jeong, Brianna O'Connell, Duncan Smith-Freedman, James Heathers, Peter Weinstock*

STATE-OF-THE-ART REVIEW ARTICLE

Continuous Noninvasive Carbon Dioxide Monitoring in Neonates: From Theory to Standard of Care 55

- We review the different noninvasive CO₂ monitoring alternatives, their advantages and disadvantages, and the available data supporting their use as a standard of care in NICUs.

Ori Hochwald, Liron Borenstein-Levin, Gil Dinur, Huda Jubran, Shlomit Ben-David, Amir Kugelman

SPECIAL ARTICLES

Spread of Measles in Europe and Implications for US Travelers 56

- The record number of measles cases in the WHO European Region puts both international travelers and nontraveling US residents at risk for measles.

Kristina M. Angelo, Paul A. Gastañaduy, Allison T. Walker, Manisha Patel, Susan Reef, C. Virginia Lee, Jeffrey Nemhauser

Firearm Injuries and Children: Position Statement of the American Pediatric Surgical Association 57

- The increase in firearm injuries affects all pediatric care providers. The APSA recommends improved trauma care, research, prevention, and policy to address this public health problem.

John K. Petty, Marion C.W. Henry, Michael L. Nance, Henri R. Ford, APSA Board of Governors

ETHICS ROUNDS

Allowing Adolescents to Weigh Benefits and Burdens of High-stakes Therapies 58

- In this case study, we discuss the ethical considerations when there is discordance between an adolescent close to attaining age of majority and the parent currently responsible for medical decision-making in a high-risk medical setting.

Kriti Puri, Janet Malek, Caridad Maylin de la Uz, John Lantos, Antonio Gabriel Cabrera, Ernest Frugé

QUALITY REPORTS—www.pediatrics.org

Five-Year Outcomes of Behavioral Health Integration in Pediatric Primary Care 63

- In this study, we describe the 5-year outcomes of BH integration in a large pediatric primary care network in patient experience, cost, and provider satisfaction domains.

Heather J. Walter, Louis Vernacchio, Emily K. Trudell, Jonas Bromberg, Ellen Goodman, Jessica Barton, Gregory J. Young, David R. DeMaso, Glenn Focht
