ARTICLES

-   **Non-HDL Cholesterol Levels in Childhood and Carotid Intima-Media Thickness in Adulthood** 17
- We examined if childhood non-HDL-C status predicts high common carotid artery IMT in adulthood.
- Markus Juonala, Feitong Wu, Alan Sinaiko, Jessica G. Woo, Elaine M. Urbina, David Jacobs, Julia Steinberger, Ronald Prineas, Juha Koskinen, Matthew A. Sabin, David P. Burgner, Trudy L. Burns, Lydia Bazzano, Alison Venn, Jorma S. A. Viikari, Nina Hutri-Kähönen, Stephen R. Daniels, Terence Dwyer, Olli T. Raitakari, Costan G. Magnussen*
-  **Dietary Fats and Atherosclerosis From Childhood to Adulthood** 21
- We examined whether success in achieving the main target of an infancy-onset dietary intervention based on dietary fat distribution was associated with subclinical markers of atherosclerosis.
- Tomi T. Laitinen, Joel Nuotio, Suvi P. Rovio, Harri Niinikoski, Markus Juonala, Costan G. Magnussen, Eero Jokinen, Hanna Lagström, Antti Jula, Jorma S. A. Viikari, Tapani Rönnemaa, Olli Simell, Olli T. Raitakari, Katja Pakkala*
-   **Antibiotic Use and Outcomes in Children in the Emergency Department With Suspected Pneumonia** 22
- In this propensity score-matched study of children with suspected pneumonia discharged from the ED, antibiotics were not associated with improved outcomes after discharge.
- Matthew J. Lipshaw, Michelle Eckerle, Todd A. Florin, Eric J. Grotty, Jessi Lipscomb, Judd Jacobs, Mantosh S. Rattan, Richard M. Ruddy, Samir S. Shah, Lilliam Ambroggio*
-   **Performance of the Modified Boston and Philadelphia Criteria for Invasive Bacterial Infections** 23
- In a multicenter study of infants 29 to 60 days old, the Boston and Philadelphia criteria misclassified a substantial number of infants with IBIs.
- Todd W. Lyons, Aris C. Garro, Andrea T. Cruz, Stephen B. Freedman, Pamela J. Okada, Prashant Mahajan, Fran Balamuth, Amy D. Thompson, Dina M. Kulik, Neil G. Uspal, Joseph L. Arms, Lise E. Nigrovic, for the Herpes Simplex Virus Study Group of the Pediatric Emergency Medicine Collaborative Research Committee (PEM CRC)*

contents

ARTICLES (continued)

-  **Costs and Use for Children With Medical Complexity in a Care Management Program** 24
 • In this multicenter study of the implementation of a care management program for CMC, a reduction in spending and use was demonstrated.
David A. Bergman, David Keller, Dennis Z. Kuo, Carlos Lerner, Mona Mansour, Christopher Stille, Troy Richardson, Jonathan Rodean, Mark Hudak
-   **Continuous Albuterol With Benzalkonium in Children Hospitalized With Severe Asthma** 28
 • BAC is a functional antagonist of albuterol associated with delayed recovery from asthma exacerbations. Only preservative-free albuterol formulations should be used for continuous nebulization.
Matthew C. Pertzborn, Sreekala Prabhakaran, Mutasim Abu-Hasan, Dawn Baker, Samuel Wu, Yue Wu, Leslie Hendeles
-  **HIV Testing Among Adolescents With Acute Sexually Transmitted Infections** 31
 • In this study, we demonstrate that only 55% of adolescent STI episodes are tested for HIV and identify significant patient and health care factors associated with HIV testing.
Danielle Petsis, Jungwon Min, Yuan-Shung V. Huang, Aletha Y. Akers, Sarah Wood
-  **Transgender Youth Experiences and Perspectives Related to HIV Preventive Services** 32
 • This online focus group study captures transgender youth experiences and perspectives related to HIV preventive support and services.
Holly B. Fontenot, Sean R. Cahill, Timothy Wang, Sophia Geffen, Bradley P. White, Sari Reisner, Kerith Conron, Christopher R. Harper, Michelle M. Johns, Sabrina A. Avripas, Stuart Michaels, Richard Dunville
-  **Body Dissatisfaction and Mental Health Outcomes of Youth on Gender-Affirming Hormone Therapy** 33
 • This study examines changes in youth body dissatisfaction and mental health after gender-affirming hormone therapy and explores the impact of demographic and treatment variables.
Laura E. Kuper, Sunita Stewart, Stephanie Preston, May Lau, Ximena Lopez
-   **Perioperative Transfusions and Venous Thromboembolism** 34
 • In this prospective registry study of >480 000 children, we propose an association between perioperative RBC transfusions and postoperative VTE in children, infants, and neonates.
Ruchika Goel, Cassandra D. Josephson, Eshan U. Patel, Molly R. Petersen, Sarah Makhani, Steven M. Frank, Paul M. Ness, Evan M. Bloch, Eric A. Gehrie, Parvez M. Lokhandwala, Marianne M. Nellis, Oliver Karam, Beth H. Shaz, Ravi M. Patel, Aaron A. R. Tobian
-  **The Infantile Hemangioma Referral Score: A Validated Tool for Physicians** 38
 • We present the IHReS, an easy-to-use, validated, and reliable referral instrument for primary physicians to ensure that patients with IH receive timely optimal care.
Christine Léauté-Labrèze, Eulalia Baselga Torres, Lisa Weibel, Laurence M. Boon, Maya El Hachem, Catharina van der Vleuten, Jochen Roessler, Agneta Troilius Rubin
-  **Efficacy of Melatonin in Children With Postconcussive Symptoms: A Randomized Clinical Trial** 39
 • Melatonin has promising neuroprotective properties. This clinical trial investigated the use of melatonin for the treatment of PPCS after mTBI.
Karen M. Barlow, Brian L. Brooks, Michael J. Esser, Adam Kirton, Angelo Mikrogianakis, Roger L. Zemek, Frank P. MacMaster, Alberto Nettel-Aguirre, Keith Owen Yeates, Valerie Kirk, James S. Hutchison, Susan Crawford, Brenda Turley, Candice Cameron, Michael D. Hill, Tina Samuel, Jeffrey Buchhalter, Lawrence Richer, Robert Platt, Roslyn Boyd, Deborah Dewey
- Predicting School-Aged Cognitive Impairment in Children Born Very Preterm** 40
 • Prediction of long-term cognitive impairment in children born VPT is best when follow-up extends to age 6. Consideration of family-social circumstances further improves prediction.
Carmina Erdei, Nicola C. Austin, Sara Cherkerzian, Alyssa R. Morris, Lianne J. Woodward

contents

ARTICLES (continued)

-  **Mental Health Outcomes Among Homeless, Runaway, and Stably Housed Youth** 41
 • This study compares the mental health of youth who have experienced homelessness and run away, demonstrating the unique emotional health needs of these populations.
Janna R. Gewirtz O'Brien, Laurel D. Edinburgh, Andrew J. Barnes, Annie-Laurie McRee
-   **Breastfeeding Initiation, Duration, and Supplementation Among Mexican-Origin Women in Texas** 42
 • In this study, we find differences in breastfeeding initiation and duration by acculturation despite similar breastfeeding intentions and universally high prevalence of early supplementation with formula.
Michelle A. Eilers, C. Emily Hendrick, Rafael Pérez-Escamilla, Daniel A. Powers, Joseph E. Potter
-  **Validation of a Prediction Rule for Mortality in Congenital Diaphragmatic Hernia** 46
 • We validated the postnatal prediction rule for severity of CDH in the European population and modified it with incorporation of a prenatal variable.
Suzan C. M. Cochijs-den Otter, Özge Erdem, Joost van Rosmalen, Thomas Schaible, Nina C. J. Peters, Titia E. Cohen-Overbeek, Irma Capolupo, Carolin J. Falk, Arno F. J. van Heijst, Regina Schäffelder, Mary E. Brindle, Dick Tibboel
-  **Trends in Pediatricians' Developmental Screening: 2002–2016** 47
 • Through national surveys of pediatricians, this study describes trends in reported developmental screening and referral practices from 2002 to 2016.
Paul H. Lipkin, Michelle M. Macias, Briella Baer Chen, Daniel Coury, Elizabeth A. Gottschlich, Susan L. Hyman, Blake Sisk, Audrey Wolfe, Susan E. Levy
-   **Trends in Regionalization of Emergency Care for Common Pediatric Conditions** 51
 • Through analysis of the NEDS database, we characterize trends in regionalization of care for common low-risk pediatric emergency conditions.
Anna M. Cushing, Emily Bucholz, Kenneth A. Michelson
-   **Trends in Pediatric Malpractice Claims 1987–2015: Results From the Periodic Survey of Fellows** 55
 • Employing results from the Periodic Survey of Fellows, this study examines physician factors and trends related to malpractice claims over the past 30 years.
Steven A. Bondi, Suk-fong S. Tang, Robin L. Altman, Jonathan M. Fanaroff, William M. McDonnell, John W. Rusher
-   **Pediatric Orphan Drug Indications: 2010–2018** 56
 • One-third (136) of FDA-approved orphan indications between 2010 and 2018 were pediatric. Most pediatric orphan indications expanded use of existing drugs; 20 received breakthrough designation.
Lauren Kimmel, Rena M. Conti, Anna Volerman, Kao-Ping Chua

COMMENTARIES

-  **Promoting Ideal Cardiovascular Health Through the Life Span** 18
S. Sonia Arteaga, Matthew W. Gillman

ADVOCACY CASE STUDY

-  **Preventing Asthma Emergencies in Schools** 10
Amy O'Rourke, Amy Zimmerman, Hayley Platt, Andrea A. Pappalardo

REVIEW ARTICLES

-  **Antiemetics in Children With Acute Gastroenteritis: A Meta-analysis** 57
• In this systematic review and NMA, we summarize the evidence supporting the use of ondansetron for achieving cessation of vomiting and reducing hospitalizations.

Laura F. Niño-Serna, Jorge Acosta-Reyes, Areti-Angeliki Veroniki, Ivan D. Florez

-  **Efficacy and Effectiveness of the PCV-10 and PCV-13 Vaccines Against Invasive Pneumococcal Disease** 58
• Two PCVs are licensed for prevention of pneumococcal disease. Uncertainty about the effectiveness against AOM and serotype 19A invasive disease in children ≥ 5 years remains.
Melissa Berman-Rosa, Shauna O'Donnell, Mackenzie Barker, Caroline Quach

DIAGNOSTIC DILEMMAS

- Weakness, Anemia, and Neutropenia in a 9-Year-Old Girl With Influenza** 59
• A previously healthy 9-year-old girl presents with typical influenza but develops lower-extremity weakness and an inability to walk.
Adam Cohen, Funmilola S. Owolabi, Cicely P. Dowdell-Smith, Jason Laufman, Ionela Iacobas, Lanessa Bass, Dana Foradori

contents

STATE-OF-THE-ART REVIEW ARTICLE

-  **Evidence-Based Updates on the First Week of Exclusive Breastfeeding Among Infants ≥ 35 Weeks** 65
- Novel insights into the health impacts of exclusive breastfeeding provide compelling evidence to support its establishment while also identifying medical indications for supplementation.
- Lori Feldman-Winter, Ann Kellams, Sigal Peter-Wohl, Julie Scott Taylor, Kimberly G. Lee, Mary J. Terrell, Lawrence Noble, Angela R. Maynor, Joan Younger Meek, Alison M. Stuebe*

ETHICS ROUNDS

- Can a Parent Refuse the Brain Death Examination?** 66
- We explore parental refusal of testing for DNC and the limits of parental request for potentially inappropriate medical care.
- Brittany M. Lee, Amy Trowbridge, Macallagh McEvoy, Aaron Wightman, Stephanie A. Kraft, Jonna D. Clark*

QUALITY REPORTS—www.pediatrics.org

- Improving Antibiotic Prescribing for Pediatric Urinary Tract Infections in Outpatient Settings** 72
- A multicomponent educational and process-improvement intervention was associated with increased use of narrow-spectrum antibiotics for children and adolescents with uncomplicated UTIs.
- Matthew F. Daley, Sharisse M. Arnold Rehring, Karen A. Glenn, Liza M. Reifler, John F. Steiner*
-  **STEPP IN: Working Together to Keep Infants Warm in the Perioperative Period** 73
- In a 19-center QI collaborative, strategies were identified to prevent postoperative hypothermia in children's hospital NICUs.
- Beverly S. Brozanski, Anthony J. Piazza, John Chuo, Girija Natarajan, Theresa R. Grover, Joan R. Smith, Teresa Mingrone, Richard E. McClead, Rao Rakesh, Natalie Rintoul, Judy Guidash, Bobby Bellflower, Margaret Holston, Troy Richardson, Eugenia K. Pallotto*

CASE REPORTS—www.pediatrics.org

- Eosinophilic Pneumonia and Lymphadenopathy Associated With Vaping and Tetrahydrocannabinol Use**
- An adolescent girl with a history of vaping and tetrahydrocannabinol use presents with recurrent pneumonia and persistent radiologic findings; eosinophilic pneumonia with lymphadenopathy was diagnosed and treated.
- Eric S. Mull, Guliz Erdem, Kathleen Nicol, Brent Adler, Richard Shell*
- Anaerobic Necrotizing Pneumonia: Another Potential Life-threatening Complication of Vaping?**
- An adolescent developed *Fusobacterium* pneumonia without pharyngitis or septic jugular thrombophlebitis; was vaping to blame?
- Hassan El Chebib, Kiah McArthur, Michelle Gorbonosov, Joseph B. Domachowski*
- Chronic Thrombocytopenia as the Initial Manifestation of *STIM1*-Related Disorders**
- In this case report, we describe a novel presentation of a *STIM1* pathogenic variant, presenting initially as immune-mediated thrombocytopenia.
- Anjali Sura, Joseph Jacher, Erin Neil, Kathryn McFadden, Kelly Walkovich, Mark Hannibal*
