### ARTICLES

#### **Quantitative SARS-CoV-2 Serology in Children With Multisystem Inflammatory Syndrome (MIS-C)** 50

• Children with MIS-C had high antibody titers to the SARS-CoV-2 spike protein RBD, which correlated with live-virus neutralization, systemic inflammation, and clinical outcomes.

*Christina A. Rostad, Ann Chahroudi, Grace Mantus, Stacey A. Lapp, Meghan Teherani, Lisa Macoy, Keiko M. Tarquinio, Rajit K. Basu, Carol Kao, W. Matthew Linam, Matthew G. Zimmerman, Pei-Yong Shi, Vineet D. Menachery, Matthew E. Oster, Srilatha Edupuganti, Evan J. Anderson, Mehul S. Suthar, Jens Wrämmert, Preeti Jaggi*

#### **MIS-C and Cardiac Conduction Abnormalities** 55

• We report a series of pediatric patients with a novel finding of first-degree AVB associated with MIS-C.

*Nak Hyun Choi, Michael Fremed, Thomas Starc, Rachel Weller, Eva Cheung, Anne Ferris, Eric S. Silver, Leonardo Liberman*

#### **COVID-19 and Parent Intention to Vaccinate Their Children Against Influenza** 56

• We evaluated if the COVID-19 pandemic influences parents' intentions to have their children receive the 2020–2021 seasonal influenza vaccination.

*Rebecca L. Sokol, Anna H. Grummon*

#### **Parental Vaccine Hesitancy and Childhood Influenza Vaccination** 57

• This study quantified parental vaccine hesitancy in the United States and examined the association with sociodemographics and childhood influenza vaccination coverage.

*Tammy A. Santibanez, Kimberly H. Nguyen, Stacie M. Greby, Allison Fisher, Paul Scanlon, Achal Bhatt, Anup Srivastav, James A. Singleton*

#### **Smoking Intention and Progression From E-Cigarette Use to Cigarette Smoking** 58

• Among adolescents who do not intend to smoke cigarettes in the future, using e-cigarettes is associated with a higher risk of cigarette smoking.

*Olusegun Owotomo, Haley Stritzel, Sean Esteban McCabe, Carol J. Boyd, Julie Maslowsky*

### ARTICLES (continued)

-   **Statewide Asthma Learning Collaborative Participation and Asthma-Related Emergency Department Use** 59
- In this study, we examine the impact of an asthma QI collaborative on asthma-related ED rates, applying a new pediatric asthma measure to all-payer data.
- Valerie S. Harder, Judith S. Shaw, Charles E. McCulloch, Lindsay Kill, Keith J. Robinson, Michelle T. Shepard, Michael D. Cabana, Naomi S. Bardach*
-   **Well-Child Care Attendance and Risk of Asthma Exacerbations** 60
- Using 6 years of longitudinal electronic health data, in this study, we measure the extent that poor WCC adherence can be used to predict future asthma exacerbations.
- Jason E. Lang, Monica Tang, Congwen Zhao, Jillian Hurst, Angie Wu, Benjamin A. Goldstein*
-   **Financial Interventions to Increase Vaccine Coverage** 61
- Applying time series modeling to vaccination coverage data in Australian states, this study explores the impact of state and federal mandatory vaccination policies.
- Katie Attwell, Rebecca Seth, Frank Beard, Alexandra Hendry, David Lawrence*
-    **Cost-effectiveness of Interventions to Increase HPV Vaccine Uptake** 64
- Using a simulation model of HPV, we find 3 interventions to increase HPV vaccination are a high-value use of state funding over 50 years.
- Jennifer C. Spencer, Noel T. Brewer, Justin G. Trogon, Morris Weinberger, Tamera Coyne-Beasley, Stephanie B. Wheeler*
- Abusive Head Trauma in Day Care Centers** 65
- Almost all (99%) of the hundreds of AHT cases occurred in private homes; day care centers were rarely the usual child care arrangement in this cohort.
- Caroline Rey-Salmon, Paul de Boissieu, Jean-Paul Tégas, Catherine Adamsbaum*
-    **Group Sessions or Home Visits for Early Childhood Development in India: A Cluster RCT** 66
- We compare the effectiveness of an early childhood development intervention delivered through individual home visits or mother-child group sessions in a cluster randomized control trial.
- Sally Grantham-McGregor, Akanksha Adya, Orazio Attanasio, Britta Augsburg, Jere Behrman, Bet Caeyers, Monimalika Day, Pamela Jervis, Reema Kochar, Prerna Makkar, Costas Meghir, Angus Phimister, Marta Rubio-Codina, KarishmaVats*
-   **Kindergarten Readiness, Later Health, and Social Costs** 71
- In the current study, we examine how indicators of kindergarten school readiness forecast long-term achievement and health by the end of high school.
- Caroline Fitzpatrick, Elroy Boers, Linda S. Pagani*
-  **Sexual Experiences of Young Transgender Persons During and After Gender-Affirmative Treatment** 72
- This study on the sexual development of transgender youth during and after GAT reveals an increase in sexual and romantic experiences.
- Sara L. Bungener, Annelou L. C. de Vries, Arne Popma, Thomas D. Steensma*
-  **Randomized Controlled Trial of High-Flow Nasal Cannula in Preterm Infants After Extubation** 76
- HFNC revealed a significantly higher rate of treatment failure than NCPAP or NIPPV after extubation in preterm infants born <34 weeks' gestation.
- Atsushi Uchiyama, Kaoru Okazaki, Masatoshi Kondo, Shuntaro Oka, Yukiko Motojima, Fumihiko Namba, Nobuhiko Nagano, Kayo Yoshikawa, Kazunori Kayama, Akira Kobayashi, Yoshiki Soeno, Osamu Numata, Hideyo Suenaga, Ken Imai, Hidehiko Maruyama, Hideshi Fujinaga, Hiroyuki Furuya, Yushi Ito, Non-Invasive Procedure for Premature Neonates (NIPPV) Study Group*
-   **Follow-up Blood Cultures in Children With *Staphylococcus aureus* Bacteremia** 77
- In this study, we examine the number of FUBCs needed to demonstrate clearance of SAB in children.
- Caitlin Cardenas-Comfort, Sheldon L. Kaplan, Jesus G. Vallejo, J. Chase McNeil*

### ARTICLES (continued)

-  **Behavior Change, Egg Consumption, and Child Nutrition: A Cluster Randomized Controlled Trial** 78  
 • Findings from a trial in Burkina Faso reveal that behavior change interventions can increase egg consumption and improve child nutrition outcomes in resource-poor settings.  
*Sarah L. McKune, Heather Stark, Amanda C. Sapp, Yang Yang, Crystal M. Slanzi, Emily V. Moore, Anteneh Omer, Aissata Wereme N'Diaye*
-  **Behavior Problems During Early Childhood in Children With Prenatal Methamphetamine Exposure** 79  
 • This study investigated behavior effects of prenatal methamphetamine exposure on children aged 3, 5, and 7.5.  
*Elaine K. Chu, Lynne M. Smith, Chris Derauf, Elana Newman, Charles R. Neal, Amelia M. Arria, Marilyn A. Huestis, Sheri A. DellaGrotta, Mary B. Roberts, Lynne M. Dansereau, Barry M. Lester*
-  **Incidence of Nonalcoholic Fatty Liver Disease in Children: 2009–2018** 80  
 • Across a health maintenance organization, NAFLD increased in incidence and was associated with high rates of type 2 diabetes, hypertension, and dyslipidemia.  
*Amandeep K. Sahota, Warren L. Shapiro, Kimberly P. Newton, Steven T. Kim, Joanie Chung, Jeffrey B. Schwimmer*
-  **Simulation Education for Preterm Infant Delivery Room Management at Community Hospitals** 81  
 • Using simulation education, in this study, we evaluate community hospital providers' change in knowledge and performance on preterm infant DR management.  
*Alana L. Barbato, Elizabeth A. Wetzel, Wenfang Li, Na Bo, Lisa Mayer, Bobbi J. Byrne*
-    **Pharmacogenetics to Predict Adverse Events Associated With Antidepressants** 82  
 • This retrospective cohort study reveals discordant findings to adult pharmacogenetic guidelines for sertraline, escitalopram, and citalopram and *CYP2C19* necessitating further investigation before application to pediatrics.  
*Katelyn M. Rossow, Ida T. Aka, Angela C. Maxwell-Horn, Dan M. Roden, Sara L. Van Driest*
-  **The Effectiveness of Working Memory Training for Children With Low Working Memory** 83  
 • In this study, we examined whether response to Cogmed Working Memory Training differed according to child IQ, ADHD symptoms, emotional and behavioral symptoms, special health care needs, and sex.  
*Megan Spencer-Smith, Jon Quach, Fiona Mensah, Gehan Roberts, Susan Gathercole, Melissa Wake, Peter J. Anderson*
- "It's My Job to Love Him": Parenting Adolescents and Young Adults With Advanced Cancer** 84  
 • In this study, we describe perspectives on the challenges, worries, and sources of strength endorsed by parents of AYAs with advanced cancer.  
*Jori F. Bogetz, Amy Trowbridge, Jenny Kingsley, Mallory Taylor, Abby R. Rosenberg, Krysta S. Barton*
-  **COVID-19 in 17 Italian Pediatric Emergency Departments** 85  
 • We described the variability of presentation of 170 Italian children and their differences with the previously reported cohorts.  
*Niccolò Parri, Matteo Lenge, Barbara Cantoni, Alberto Arrighini, Marta Romanengo, Antonio Urbino, Liviana Da Dalt, Lucio Verdoni, Roberta Giaccherio, Marcello Lanari, Anna Maria Musolino, Paolo Biban, Giovanna La Fauci, Chiara Pilotto, Danilo Buonsenso, Massimo Chiossi, Rino Agostiniani, Anna Plebani, Stefania Zampogna, Maria Antonietta Barbieri, Salvatore De Masi, Carlo Agostoni, Stefano Masi, on Behalf of the Confidence Research Group*
-  **Pediatrician Electronic Health Record Time Use for Outpatient Encounters** 86  
 • In this study, we use EHR log data to measure the amount of time providers in pediatric subspecialties spend using their EHRs for each encounter.  
*J. Marc Overhage, Kevin B. Johnson*

### QUALITY REPORTS—[www.pediatrics.org](http://www.pediatrics.org)

#### **A Quality Improvement Intervention to Reduce Postoperative Opiate Use in Neonates**

48

- Through a NICU provider postoperative pain education seminar and standing IV acetaminophen, we reduced postoperative opioid use by 98% in neonates undergoing gastrointestinal surgery.

*David F. Grabski, Rick D. Vavolizza, Sarah Lepore, Daniel Levin, Sara K. Rasmussen, Jonathan R. Swanson, Eugene D. McGahren, Jeffrey W. Gander*

#### **Quality Improvement Incorporating a Feedback Loop for Accurate Medication Reconciliation**

49

- A successful pediatric inpatient QI project reduced the medication reconciliation error rate by redesigning the process to include closed-loop communication with home caregivers.

*Christiana M. Russ, Susan Stone, Jennifer Treseler, Julie Vincuilla, Lindsay Partin, Elyse Jones, Esther Chu, Denise Currier, Daniel P. Kelly*

### CASE REPORTS—Online only at [www.pediatrics.org](http://www.pediatrics.org)

#### **An Uninfected Preterm Newborn Inadvertently Fed SARS-CoV-2–Positive Breast Milk**

- An uninfected preterm newborn inadvertently fed SARS-CoV-2–positive breast milk is reported. Breastfeeding recommendations during SARS-CoV-2 pandemic are discussed.

*Licia Lugli, Luca Bedetti, Laura Lucaccioni, William Gennari, Chiara Leone, Gina Ancora, Alberto Berardi*

#### **Knee Joint Swelling at Presentation: A Case of Pediatric Crohn Disease With a TNFAIP3 Mutation**

- Pediatric patients with CD induced by a TNFAIP3 mutation (had knee joint swelling at presentation).

*Dongmei Zou, Shaoming Zhou, Huanhuan Wang, Jing Gou, Shaohua Wang*

#### **New Treatment Option for Capillary Lymphangioma: Bleomycin-Based Electrochemotherapy of an Infant**

- Microcystic and combined lymphangiomas are a real challenge to treat; on the basis of our results, electrosclerotherapy should be considered as a feasible alternative treatment option.

*Szandra Dalmády, Zsannett Csoma, Zsuzsanna Besenyi, Krisztina Bottyán, Judit Oláh, Lajos Kemény, Erika Kis*

#### **Severe Lymphatic Disorder Resolved With MEK Inhibition in a Patient With Noonan Syndrome With SOS1 Mutation**

- In this study, we demonstrate that MEK inhibition is a potential new and effective treatment of severe lymphatic abnormalities in patients with NS.

*Yoav Dori, Chris Smith, Erin Pinto, Kristen Snyder, Michael E. March, Hakon Hakonarson, Jean Belasco*
