ARTICLES

-  **Child Maltreatment and Mortality in Young Adults** 26
- Using linked administrative data, we explore how CM impacts the risk of dying during late adolescence and/or young adulthood and the main contributors to excess deaths.
- Leonie Segal, Jason M. Armfield, Emmanuel S. Gnanamanickam, David B. Preen, Derek S. Brown, James Doidge, Ha Nguyen*
-   **Early Physical Abuse and Adult Outcomes** 29
- Unreported physical abuse in a community sample recruited in early childhood has long-term detrimental effects on education and economic stability, health, and criminal convictions into adulthood.
- Jennifer E. Lansford, Jennifer Godwin, Robert J. McMahon, Max Crowley, Gregory S. Pettit, John E. Bates, John D. Coie, Kenneth A. Dodge*
- COVID-19 Transmission in US Child Care Programs** 30
- In this case-controlled study of child care providers, we are the first to report COVID-19 transmission risk in US child care programs.
- Walter S. Gilliam, Amy A. Malik, Mehr Shafiq, Madeline Klotz, Chin Reyes, John Eric Humphries, Thomas Murray, Jad A. Elharake, David Wilkinson, Saad B. Omer*
-   **Symptoms and Transmission of SARS-CoV-2 Among Children — Utah and Wisconsin, March–May 2020** 33
- In this study, we describe a cohort of children exposed to SARS-CoV-2 in the household and their resulting infection rates, transmission patterns, and symptom profiles.
- Rebecca L. Laws, Rebecca J. Chancey, Elizabeth M. Rabold, Victoria T. Chu, Nathaniel M. Lewis, Mark Fajans, Hannah E. Reses, Lindsey M. Duca, Patrick Dawson, Erin E. Conners, Radhika Gharpure, Sherry Yin, Sean Buono, Mary Pomeroy, Anna R. Yousaf, Daniel Owusu, Ashutosh Wadhwa, Eric Pevzner, Katherine A. Battey, Henry Njuguna, Victoria L. Fields, Phillip Salvatore, Michelle O'Hegarty, Jeni Vuong, Christopher J. Gregory, Michelle Banks, Jared Rispens, Elizabeth Dietrich, Perrine Marcenac, Almea Matanock, Ian Pray, Ryan Westergaard, Trivikram Dasu, Sanjib Bhattacharyya, Ann Christiansen, Lindsey Page, Angela Dunn, Robyn Atkinson-Dunn, Kim Christensen, Tair Kiphibane, Sarah Willardson, Garrett Fox, Dongni Ye, Scott A. Nabity, Alison Binder, Brandi D. Freeman, Sandra Lester, Lisa Mills, Natalie Thornburg, Aron J. Hall, Alicia M. Fry, Jacqueline E. Tate, Cuc H. Tran, Hannah L. Kirking*

ARTICLES (continued)

-  **Invasive Bacterial Infections in Afebrile Infants Diagnosed With Acute Otitis Media** 38
 • Invasive bacterial infections and adverse events are uncommon in afebrile infants with clinician-diagnosed acute otitis media.
Son H. McLaren, Andrea T. Cruz, Kenneth Yen, Matthew J. Lipshaw, Kelly R. Bergmann, Rakesh D. Mistry, Colleen K. Gutman, Fahd A. Ahmad, Christopher M. Pruitt, Graham C. Thompson, Matthew D. Steimle, Xian Zhao, Abigail M. Schuh, Amy D. Thompson, Holly R. Hanson, Stacey L. Ulrich, James A. Meltzer, Jennifer Dunnick, Suzanne M. Schmidt, Lise E. Nigrovic, Muhammad Waseem, Roberto Velasco, Samina Ali, Danielle L. Cullen, Borja Gomez, Ron L. Kaplan, Kajal Khanna, Jonathan Strutt, Paul L. Aronson, Ankita Taneja, David C. Sheridan, Carol C. Chen, Amanda L. Bogie, Aijin Wang, Peter S. Dayan, on Behalf of the Pediatric Emergency Medicine Collaborative Research Committee
-  **Suspected Nonfatal Drug-Related Overdoses Among Youth in the US: 2016–2019** 41
 • Youth nonfatal overdoses from stimulants are on the rise in the United States from 2016 to 2019, whereas heroin overdoses among youth have fallen.
Douglas R. Roehler, Emily O. Olsen, Desiree Mustaquim, Alana M. Vivolo-Kantor
-   **Three-Year Outcomes After Brief Treatment of Substance Use and Mood Symptoms** 45
 • Providing SBIRT in primary care for adolescents with co-occurring substance use and mood symptoms may reduce ED use and improve depression and substance use outcomes.
Sujaya Parthasarathy, Andrea H. Kline-Simon, Ashley Jones, Lauren Hartman, Katrina Saba, Constance Weisner, Stacy Sterling
-  **Identification of Prenatal Opioid Exposure Within Health Administrative Databases** 46
 • In this study, we explore comprehensive methods to identify POE in health administrative data and describe the impact of different methods on estimation.
Andi Camden, Joel G. Ray, Teresa To, Tara Gomes, Li Bai, Astrid Guttman
-   **Site-Level Variation in the Characteristics and Care of Infants With Neonatal Opioid Withdrawal** 47
 • Substantial site-to-site variation exists in the characteristics and care of infants with NOWS; consideration of this is essential to optimize care for this vulnerable population.
Leslie W. Young, Zhuopei Hu, Robert D. Annett, Abhik Das, Janell F. Fuller, Rosemary D. Higgins, Barry M. Lester, Stephanie L. Merhar, Alan E. Simon, Songthip Ounpraseuth, P. Brian Smith, Margaret M. Crawford, Andrew M. Atz, Lesley E. Cottrell, Adam J. Czysnski, Sarah Newman, David A. Paul, Pablo J. Sánchez, Erin O. Semmens, M. Cody Smith, Christine B. Turley, Bonny L. Whalen, Brenda B. Poindexter, Jessica N. Snowden, Lori A. Devlin, Eunice Kennedy Shriver National Institute Of Child Health And Human Development Neonatal Research Network And The Nih Environmental Influences On Child Health Outcomes (ECHO) Program Institutional Development Awards States Pediatric Clinical Trials Network
-  **Evaluating Definitions for Neonatal Abstinence Syndrome** 50
 • NAS is increasing in incidence, but there is no gold standard definition used across clinical care and public health settings.
Kathleen M. Doherty, Theresa A. Scott, Anna Morad, Travis Crook, Elizabeth McNeer, Kim S. Lovell, James C. Gay, Stephen W. Patrick
-  **Sensor-Based Electronic Monitoring for Asthma: A Randomized Controlled Trial** 51
 • In this 12-month randomized controlled trial, we examine the effectiveness of a sensor-based mobile asthma platform in improving medication adherence and asthma outcomes among a diverse pediatric sample.
Ruchi S. Gupta, Jamie L. Fierstein, Kathy L. Boon, Madeleine K. Kanaley, Alexandria Bozen, Kristin Kan, Deneen Vojta, Christopher M. Warren
-  **Validation of the Developmental Check-In Tool for Low-Literacy Autism Screening** 55
 • In this study, we examine the ability of a primarily pictorial autism screening tool to identify ASD risk among underserved young children in the general population.
Jill F. Harris, Caroline N. Coffield, Yvette M. Janvier, David Mandell, Zuleyha Gidav

ARTICLES (continued)

-  **Predicting Urinary Tract Infections With Interval Likelihood Ratios** 58
 • We report ILR calculations of all possible urinalysis component values for estimating the probability of UTI in children <2 years of age.
Tian Liang, Silvia Schibeci Oraa, Naomi Rebollo Rodríguez, Tanvi Bagade, Jennifer Chao, Richard Sinert
-   **Three-Year Follow-up of 2-Dose Versus 3-Dose HPV Vaccine** 61
 • In this study, we report the durability of anti-HPV antibody responses to 2-dose regimens of the 9vHPV vaccine in girls and boys through 3 years after the first dose.
Jacob Bornstein, Surita Roux, Lone Kjeld Petersen, Li-Min Huang, Simon R. Dobson, Punnee Pitisuttithum, Javier Diez-Domingo, Andrea Schilling, Hany Ariffin, Richard Tytus, Richard Rupp, Shelly Senders, Eli Engel, Daron Ferris, Yae-Jean Kim, Young Tae Kim, Zafer Kurugol, Oliver Bautista, Katrina M. Nolan, Sandhya Sankaranarayanan, Alfred Saah, Alain Luxembourg
-  **A Survivor-Derived Approach to Addressing Trafficking in the Pediatric ED** 62
 • In this qualitative study, we use video elicitation to consult survivors of child trafficking for their perspectives on how PEM clinicians should ask patients about trafficking.
Carmelle Wallace, Yvette Schein, Gina Carabelli, Heta Patel, Needhi Mehta, Nadia Dowshen, Nancy Kassam-Adams, Kenneth Ginsburg, Cynthia Mollen
-  **Improving Toddlers' Healthy Eating Habits and Self-regulation: A Randomized Controlled Trial** 63
 • Recipe 4 Success, which is conducted within Early Head Start home visits, promotes critical protective factors related to overweight and obesity.
Robert L. Nix, Lori A. Francis, Mark E. Feinberg, Sukhdeep Gill, Damon E. Jones, Michelle L. Hostetler, Cynthia A. Stifter
-   **Diarrheal Deaths After the Introduction of Rotavirus Vaccination in 4 Countries** 64
 • In this study, we use death data to estimate the impact of RV in 4 Latin American countries; The rotavirus vaccine is effective to reduce diarrhea deaths.
Angel Paternina-Cacedo, Umesh Parashar, Christian García-Calavaro, Lucia Helena de Oliveira, Nelson Alvis-Guzman, Fernando De la Hoz-Restrepo
- A Child Development Fund Program, Emotional Development, and Poverty Reduction** 65
 • In the study, we demonstrate the effects of the government-led CDF program on the development of children in poverty and poverty reduction.
Ko Ling Chan, Camilla Kin-ming Lo, Lu Yu, Frederick K. Ho, Elsie Yan, Patrick Ip
- Enteral Vitamin A for Reducing Severity of Bronchopulmonary Dysplasia: A Randomized Trial** 66
 • In this RCT, we investigate the efficacy of enteral water-soluble vitamin A supplementation for reducing the severity of BPD in extremely preterm infants.
Abhijeet A. Rakshasbhuvarkar, Karen Simmer, Sanjay K. Patole, Benjamin Stoecklin, Elizabeth A. Nathan, Michael W. Clarke, J. Jane Pillow
-  **Vitamin D for Growth and Rickets in Stunted Children: A Randomized Trial** 67
 • We explore the effect of vitamin D supplementation on growth and rickets in highly stunted inner-city Afghan children insufficient in vitamin D and calcium.
Francesca L. Crowe, M. Zulf Mughal, Zabihullah Maroof, Jacqueline Berry, Musa Kaleem, Sravya Abburu, Gijs Walraven, Mohammad I. Masher, Daniel Chandramohan, Semira Manaseki-Holland
- Prediction of In-Hospital Mortality After 24 hours in Very Low Birth Weight Infants** 68
 • Using our newly developed formula, we accurately predicted in-hospital mortality in VLBW infants from the KNN using perinatal variables obtained soon after birth.
Hye Won Park, Seo Young Park, Ellen Ai-Rhan Kim

ARTICLES (continued)

-   **Pediatric Ambulatory Central Line–Associated Bloodstream Infections** 69
 • In a multicenter study investigating all patient diagnoses groups, pediatric ambulatory CLABSIs occur at an appreciable incidence density and have modifiable risk factors and associated morbidity.
Michael L. Rinke, Moonseong Heo, Lisa Saiman, David G. Bundy, Rebecca E. Rosenberg, Patricia DeLaMora, Barbara Rabin, Philip Zachariah, Parsa Mirhaji, William J. H. Ford, Oghale Obaro-Best, Michael Drasher, Elizabeth Klein, Alexandre Peshansky, Suzette O. Oyeku
-   **Under-5 Mortality in Central America: 1990–2016** 70
 • Using data from the GBD 2016, we examined the status of U5MRs in Central America from 1990 to 2016.
Franz Castro, Adriana Benavides Lara, Ana Garcés, Ilais Moreno-Velásquez, Chris Odell, Wilton Pérez, Eduardo Ortiz-Panozo
-  **Provider Specialty and Receipt of Metabolic Monitoring for Children Taking Antipsychotics** 71
 • We study provider specialty and attribution as a factor in the receipt of recommended metabolic monitoring in children receiving antipsychotic medications using Medicaid claims data from 2 states.
Elizabeth Shenkman, Lindsay Thompson, Regina Bussing, Christopher B. Forrest, Jennifer Woodard, Yijun Sun, Jasmine Mack, Kamila B. Mistry, Matthew J. Gurka
-   **Scholarly Activity During Pediatric Fellowship** 72
 • In this national survey of pediatric FPDs, we assess resources for and barriers to effective fellow scholarly activity training and factors associated with high productivity.
Erika L. Abramson, Pnina Weiss, Monique Naifeh, Michelle D. Stevenson, Jennifer G. Duncan, Jennifer A. Rama, Elizabeth Mauer, Linda M. Gerber, Su-Ting T. Li

REVIEW ARTICLES

-  **Effects of Probiotics in Preterm Infants: A Network Meta-analysis** 75
 • Probiotics have proven to be effective in promoting premature infants' health, but the optimal usage is unknown.

Cheng Chi, Cheng Li, Nicholas Buys, Wenjun Wang, Chenghong Yin, Jing Sun

-  **Adverse Childhood Experiences and Justice System Contact: A Systematic Review** 78
 • With this meta-analysis, we aim to synthesize epidemiological evidence for the association between ACEs and later justice system contact.

Gloria Huei-Jong Graf, Stanford Chihuri, Melanie Blow, Guohua Li

-  **Machine Learning for Child and Adolescent Health: A Systematic Review** 79
 • ML has been used for diagnosis, prognosis, or management within pediatric and adolescent medicine since the last 3 decades, predominantly in UMICs.

Zahra Hoodbhoy, Sarah Masroor Jeelani, Abeer Aziz, Muhammad Ibrahim Habib, Bilal Iqbal, Waqaas Akmal, Khan Siddiqui, Babar Hasan, Mariska Leeflang, Jai K. Das

-  **Sustained Lung Inflation During Neonatal Resuscitation at Birth: A Meta-analysis** 80
 • In this meta-analysis, we investigated the effects of initiating IPPV with SI(s) >1 second among newborn infants who present with ineffective respirations or bradycardia at birth.

Vishal S. Kapadia, Berndt Urlesberger, Amuchou Soraisham, Helen G. Liley, Georg M. Schmölzer, Yacov Rabi, Jonathan Wyllie, Myra H. Wyckoff, on behalf of the International Liaison Committee on Resuscitation Neonatal Life Support Task Force

STATE-OF-THE-ART REVIEW ARTICLE

- Effects of Peer Victimization on Child and Adolescent Physical Health** 81
 • This article reviews recent studies examining the effects of peer victimization on youth physical health, provides recommendations for future research, and discusses implications for practitioners.

Hannah L. Schacter

SPECIAL ARTICLES

- Racism as a Root Cause Approach: A New Framework** 82
 • The RRC approach will equip antiracist advocates with the knowledge and strategies needed to cultivate meaningful and lasting change.

Zea Malawa, Jenna Gaarde, Solaire Spellman

- Life Course Health Development in Pediatric Practice** 83
 Edward L. Schor
 • Adapting the concept of LCHD into pediatric preventive care and public health practice is discussed.

-  **Development of a Quality Improvement Learning Collaborative to Improve Pediatric Sepsis Outcomes** 84
 • The CHA IPSO QI learning collaborative of 56 pediatric hospitals created tools and a framework to improve pediatric sepsis care.

QUALITY REPORTS—www.pediatrics.org

-  **Increasing Physician Reporting of Diagnostic Learning Opportunities** 93
- In this QI initiative, we increased physician reporting of suspected diagnostic errors in hospitalized children, facilitating further learning and improvement.
- Trisha L. Marshall, Anna J. Ipsaro, Matthew Le, Courtney Sump, Heather Darrell, Kathleen G. Mapes, Julianne Bick, Sarah A. Ferris, Benjamin S. Bolser, Jeffrey M. Simmons, Philip A. Hagedorn, Patrick W. Brady*
-  **A Quality Improvement Initiative to Improve Postdischarge Antimicrobial Adherence** 94
- Using quality improvement methodology, we aim to increase antimicrobial adherence and caregiver satisfaction via creation of a discharge prescription delivery program.
- Sheena Gupta, Brittany Winckler, Michelle A. Lopez, Marco Costilla, Jennifer McCarthy, Jeffrey Wagner, Amanda Broderick, Katherine French, Brittany Le, Huay-ying Lo*

DIAGNOSTIC DILEMMAS

- A 16-Year-Old Boy With Cough and Fever in the Era of COVID-19** 95
- In this diagnostic dilemma, we describe how COVID-19 considerations impacted the care of a hospitalized patient, including how availability bias influenced his diagnostic process.
- Kelsey R. Anderson, Natalie Villafranco, Lindsay Hatzenbuehler Cameron, Erica K. Schallert, Ashley Joshi-Patel, Amy Arrington, Andrea Dean*

CASE REPORTS—Online only at www.pediatrics.org

- A Curious Case of Croup: Laryngotracheitis Caused by COVID-19**
- A case report of a 14-month-old boy diagnosed with croup caused by COVID-19 is described.
- Claire E. Pitstick, Katherine M. Rodriguez, Ashley C. Smith, Haley K. Herman, James F. Hays, Colleen B. Nash*
- A Gut Feeling: Abdominal Symptoms as an Initial Presentation of EVALI**
- In this article, we discuss the evaluation and management of an adolescent diagnosed with EVALI who initially presented with primarily recurrent GI symptoms and periodic fevers.
- Christel Wekon-Kemeni, Prathipa Santhanam, Pallav Halani, Lauren Bradford, Ceila E. Loughlin*
- Severe Benzodiazepine Use Disorder in a 16-Year-Old Adolescent: A Rapid and Safe Inpatient Taper**
- Because benzodiazepine use disorder and benzodiazepine withdrawal are important health hazards among youth, we present in this case report an effective inpatient tapering protocol for adolescents with benzodiazepine dependence.
- Camille Fournier, Olivier Jamoulle, Alexandre Chadi, Nicholas Chadi*
- Coronary Artery Aneurysms as a Feature of Granulomatosis With Polyangiitis**
- We report the first known case of a child with GPA with associated giant bilateral fusiform CAAs.
- Chavi Rehani, Jennifer S. Nelson*
-  **Rare Genetic Variants in Immune Genes and Neonatal Herpes Simplex Viral Infections**
- In this case series, we report exome sequencing in 10 patients with neonatal HSV to test the hypothesis that immune genetic variants predispose infants to HSV infection.
- Lauren Cummings, Megan Tucker, Margaret Gibson, Angela Myers, Tomi Pastinen, Jeffrey Johnston, Emily Farrow, Venkatesh Sampath*
