ARTICLES

-   **Health Services Use by Children in the Welfare System Who Died by Suicide** 41
- Using data from multiple child-serving agencies, we examine characteristics and health service use patterns of youth suicide decedents with child welfare system involvement.
- Donna A. Ruch, Danielle L. Steelesmith, Lynn A. Warner, Jeffrey A. Bridge, John V. Campo, Cynthia A. Fontanella*
-  **Current Prescription Opioid Misuse and Suicide Risk Behaviors Among High School Students** 44
- In this study, we investigate whether the association between youth POM and suicide outcomes differs by recency of POM (none, past, or current misuse).
- Natalie J. Wilkins, Heather Clayton, Christopher M. Jones, Melissa Brown*
-   **Sociodemographic Factors and Outcomes by Intent of Firearm Injury** 45
- In this study, we explore differences in sociodemographic factors and pediatric firearm injury outcomes by injury intent in a nationally representative ED sample.
- Shilpa J. Patel, Gia M. Badolato, Kavita Parikh, Sabah F. Iqbal, Monika K. Goyal*
- Perceived Access to Handguns Among Colorado High School Students** 46
- A fifth of high school students, and an even higher proportion of those with mental health concerns, say they have easy access to a handgun.
- Ashley Brooks-Russell, Ming Ma, Sarah Brummett, Erin Kelly, Marian Betz*
-  **Pediatric Emergency Department Visits at US Children's Hospitals During the COVID-19 Pandemic** 47
- Using administrative data, we describe the epidemiology of pediatric ED visits and resource use at 27 US children's hospitals during the COVID-19 pandemic.
- Amy M. DeLaroche, Jonathan Rodean, Paul L. Aronson, Eric W. Fleegler, Todd A. Florin, Monika Goyal, Alexander W. Hirsch, Shobhit Jain, Aaron E. Kornblith, Marion R. Sills, Jordee M. Wells, Mark I. Neuman*

ARTICLES (continued)

-   **Incidence and Secondary Transmission of SARS-CoV-2 Infections in Schools** 48
- In the first 9 weeks of in-person instruction in North Carolina schools, we found extremely limited within-school secondary transmission of SARS-CoV-2, determined by contact tracing.
- Kanecia O. Zimmerman, Ibukunoluwa C. Akinboyo, M. Alan Brookhart, Angeliqne E. Boutzoukas, Kathleen A. McGann, Michael J. Smith, Gabriela Maradiaga Panayotti, Sarah C. Armstrong, Helen Bristow, Donna Parker, Sabrina Zadrozny, David J. Weber, Daniel K. Benjamin Jr, for the ABC Science Collaborative*
-  **Symptomatic SARS-CoV-2 Transmission in Youth and Staff Attending Day Camps** 49
- During peak regional COVID-19 incidence, extremely low symptomatic SARS-CoV-2 attack and transmission rates were observed across 54 day camps in North Carolina.
- Emily M. D'Agostino, Sarah C. Armstrong, Lisa Humphreys, Stacey Coffman, Gordon Sinclair, Sallie R. Permar, Ibukunoluwa C. Akinboyo*
-  **SARS-CoV-2 Transmission Dynamics in a Sleep-Away Camp** 50
- We present a cohort study of attendees at a youth sleep-away camp with a COVID-19 outbreak and highlight transmission dynamics of SARS-CoV-2 in youth congregate settings.
- Christine M. Szablewski, Karen T. Chang, Clinton J. McDaniel, Victoria T. Chu, Anna R. Yousaf, Noah G. Schwartz, Marie Brown, Kathryn Winglee, Prabasaj Paul, Zhaohui Cui, Rachel B. Slayton, Suxiang Tong, Yan Li, Anna Uehara, Jing Zhang, Sarah M. Sharkey, Hannah L. Kirking, Jacqueline E. Tate, Emilio Dirlikov, Alicia M. Fry, Aron J. Hall, Dale A. Rose, Julie Villanueva, Cherie Drenzek, Rebekah J. Stewart, Tatiana M. Lanzieri, Camp Outbreak Field Investigation Team*
-   **Societal Costs of a Measles Outbreak** 51
- We estimate the economic burden of a measles outbreak from a societal perspective, including public health response costs, direct medical costs, and productivity losses.
- Jamison Pike, Alan Melnick, Paul A. Gastañaduy, Meagan Kay, Jeff Harbison, Andrew J. Leidner, Samantha Rice, Kennly Asato, Linda Schwartz, Chas DeBolt*
-   **Evaluation of an Emergency Department High-risk Bruising Screening Protocol** 54
- This is a retrospective records review in which we describe the results of implementing an ED screening process for bruising that is high-risk for physical abuse.
- Caitlin E. Crumm, Emily C. B. Brown, Siobhan Thomas-Smith, Daniel T. Y. Yu, James B. Metz, Kenneth W. Feldman*
-   **Factors Associated With Age of Presentation to Gender-Affirming Medical Care** 55
- Using qualitative interviews and a derivative quantitative questionnaire, we identify an association between family environment and age of presentation to GAMC.
- Julia C. Sorbara, Hazel L. Ngo, Mark R. Palmert*
-  **Dating Violence and Peer Victimization Among Male, Female, Transgender, and Gender-Expansive Youth** 58
- Transgender and gender-expansive adolescents experienced significantly higher levels of dating violence and peer victimization compared with youth who identified as male or female.
- Rachel C. Garthe, Amandeep Kaur, Agnes Rieger, Allyson M. Blackburn, Shongha Kim, Jacob Goffnett*
-    **Exposure to Suicidal Behavior and Social Support Among Sexual- and Gender-Minority Youth** 59
- In this study, we explore relationships between exposure to suicidal behavior and depressed mood in the context of perceived social support for SGM youth.
- Kimberly J. Mitchell, Victoria Banyard, Kimberly L. Goodman, Ida F. Strøm, Michele L. Ybarra*
-  **Thrombosis Risk in Transgender Adolescents Receiving Gender-Affirming Hormone Therapy** 60
- In this study, we examined the thrombosis risk associated with GAHT in an exclusively adolescent and young adult transgender population.
- Eric S. Mullins, Rebecca Geer, Megan Metcalf, Jeanne Piccola, Adam Lane, Lee Ann E. Conard, Tanya L. Kowalczyk Mullins*

ARTICLES (continued)

-   **Survival of Ventilated Extremely Premature Neonates With Severe Intraventricular Hemorrhage** 61
 • In this retrospective cohort study, we assessed whether the diagnosis of severe IVH was independently associated with all-cause in-hospital mortality among mechanically ventilated extremely premature neonates.
Kortany E. McCauley, Elise C. Carey, Amy L. Weaver, Kristin C. Mara, Reese H. Clark, William A. Carey, Christopher A. Collura
-  **Uncertainty at the Limits of Viability: A Qualitative Study of Antenatal Consultations** 64
Bethany D. Kaemingk, Katherine Carroll, Megan J. Thorvilson, Karen S. Schaepe, Christopher A. Collura
-   **Family and Child Risk Factors for Early-Life RSV Illness** 65
 • Through the linkage of province-wide health and social administrative databases, in this study, we investigated novel risk factors for severe, early-life RSV-related illness, including maternal social vulnerabilities.
Tiffany Fitzpatrick, J. Dayre McNally, Thérèse A. Stukel, Hong Lu, David Fisman, Jeffrey C. Kwong, Astrid Guttman
-  **Higher-Calorie Refeeding in Anorexia Nervosa: 1-Year Outcomes From a Randomized Controlled Trial** 69
 • In this RCT, we report 1-year outcomes of clinical remission, weight restoration, and medical rehospitalization of HCR in hospitalized adolescents with AN.
Neville H. Golden, Jing Cheng, Cynthia J. Kapphahn, Sara M. Buckelew, Vanessa I. Machen, Anna Kreiter, Erin C. Accurso, Sally H. Adams, Daniel Le Grange, Anna-Barbara Moscicki, Allyson F. Sy, Leslie Wilson, Andrea K. Garber
-  **Community Health Workers in Home Visits and Asthma Outcomes** 72
 • In this study, we discuss the benefits of using CHWs in asthma home visiting by comparing 2 asthma home-visiting program models.
Kyra Shreeve, Elizabeth R. Woods, Susan J. Sommer, Margarita Lorenzi, Kathy Monteiro, Shari Nethersole, Urmi Bhaumik
-  **Changes in Family Poverty Status and Child Health** 73
 • In this study, we capture the impact of poverty at birth, cumulative poverty, and transition into and out of poverty on child weight status, asthma, and HRQoL.
Junwen Yang-Huang, Amy van Grieken, Yueyue You, Vincent W. V. Jaddoe, Eric A. Steegers, Liesbeth Duijts, Mirte Boelens, Wilma Jansen, Hein Raat
-   **Equivalence Curves for Healthy Lifestyle Choices** 74
 • In this population-based cohort of 1179 children 11 to 12 years of age, equivalent benefits to adiposity and HRQoL were associated with different changes (trade-offs) in activities.
Emily Ng, Melissa Wake, Timothy Olds, Kate Lycett, Ben Edwards, Ha Le, Dorothea Dumuid
-  **Observation Status Stays With Low Resource Use Within Children's Hospitals** 78
 • Observation stays with LRU may include encounters that could be safely managed without hospitalization; describing these stays may allow for targeted intervention.
David C. Synhorst, Matthew Hall, Jessica L. Bettenhausen, Jessica L. Markham, Michelle L. Macy, James C. Gay, Rustin Morse
-   **Mortality in South African Children and Adolescents Routinely Treated for Tuberculosis** 79
 • TB causes significant mortality in children and adolescents, with the highest risks seen in the youngest children, during early adolescence, and among female patients in later adolescence.
Muhammad Osman, Karen du Preez, James A. Seddon, Mareli M. Claassens, Rory Dunbar, Sicelo S. Dlamini, Alex Welte, Pren Naidoo, Anneke C. Hesseling

ARTICLES (continued)

-  **Verbal Autopsies for Out-of-Hospital Infant Deaths in Zambia** 82
 • In this analysis of VAs of infants who died in the community, we identify barriers and delays in care contributing to infant mortality in Zambia.
Rotem Lapidot, Anna Larson Williams, William B. MacLeod, Magdalene Mwale, Ronke Olowajesiku, Andrew Enslin, Lawrence Mwananyanda, Gertrud Munanjala, Charles Chimoga, Benard Ngoma, Donald L. Thea, Christopher John Gill
-   **Fine Particles in Wildfire Smoke and Pediatric Respiratory Health in California** 86
 • We find that wildfire-specific PM_{2.5} are ~10 times more harmful on children's respiratory health than ambient PM_{2.5} (eg, traffic).
Rosana Aguilera, Thomas Corringham, Alexander Gershunov, Sydney Leibel, Tarik Benmarhnia
-    **Relational, Emotional, and Pragmatic Attributes of Ethics Consultations at a Children's Hospital** 87
 • Drawing on a 6-year case series of 245 ethics consultations, in this study we describe relational, emotional, and pragmatic contextual attributes of these consultations.
Pamela G. Nathanson, Jennifer K. Walter, Donna D. McKlinton, Chris Feudtner
-  **Alternative Etiologies of Liver Disease in Children With Suspected NAFLD** 88
 • In this study, we investigate the presence of alternative causes of liver disease in a cohort of children with overweight and obesity undergoing a workup for suspected NAFLD.
Toshifumi Yodoshi, Sarah Orkin, Ana Catalina Arce-Clachar, Kristin Bramlage, Stavra A. Xanthakos, Pamela L. Valentino, Marialena Mouzaki
-  **Lung Ultrasound Score Progress in Neonatal Respiratory Distress Syndrome** 89
 • In preterm infants, the LUS trajectory is gestational age dependent, significantly correlates with the oxygenation status, and predicts BPD.
Francesco Raimondi, Fiorella Migliaro, Iuri Corsini, Fabio Meneghin, Pasquale Dolce, Luca Pierrri, Alessandro Perri, Salvatore Aversa, Stefano Nobile, Silvia Lama, Silvia Varano, Marilena Savoia, Sara Gatto, Valentina Leonardi, Letizia Capasso, Virgilio Paolo Carnielli, Fabio Mosca, Carlo Dani, Giovanni Vento, Gianluca Lista
-  **Pleuropulmonary Blastoma in Pediatric Lung Lesions** 90
 • In a multi-institutional cohort study of lung lesions with no history of antenatal detection, malignant pathology was detected in nearly 10% of cases.
Shaun M. Kunisaki, Dave R. Lal, Jacqueline M. Saito, Mary E. Fallat, Shawn D. St. Peter, Zachary D. Fox, Amer Heider, Sherwin S. Chan, Kevin P. Boyd, R. Cartland Burns, Katherine J. Deans, Samir K. Gadepalli, Ronald B. Hirsch, Rashmi Kabre, Matthew P. Landman, Charles M. Leys, Grace Z. Mak, Peter C. Minneci, Tiffany N. Wright, Michael A. Helmuth, on Behalf of the Midwest Pediatric Surgery Consortium
- Machine Learning for Accurate Intraoperative Pediatric Middle Ear Effusion Diagnosis** 91
 • We trained a machine-learning model with ground-truth intraoperative data to accurately predict the presence or absence of a middle ear effusion in pediatric patients.
Matthew G. Crowson, Christopher J. Hartnick, Gillian R. Diercks, Thomas Q. Gallagher, Mary S. Fracchia, Jennifer Settler, Michael S. Cohen
-  **Differences in Lifetime Earning Potential for Pediatric Subspecialists** 94
 • An analysis of the financial returns of fellowship training in pediatrics.
Eva Catenaccio, Jonathan M. Rochlin, Harold K. Simon
- ### COMMENTARIES
-  **The Urgent Need to Recognize and Reduce Risk of Suicide for Children in the Welfare System** 42
Lisa M. Horowitz, Geoffrey Kahn, Holly C. Wilcox
