ARTICLES

-   **Childhood Gun Access, Adult Suicidality, and Crime** 14
- Using a 20+ year prospective, representative study, this study tests prospective associations between childhood gun access and adult criminality and suicidality.
- William E. Copeland, Elizabeth J. Gifford, Michele M. Easter, Lilly Shanahan, Marvin S. Swartz, Jeffrey W. Swanson*
- Acute Respiratory Illnesses in Children in the SARS-CoV-2 Pandemic: Prospective Multicenter Study** 17
- In this prospective, multicenter surveillance study, we evaluate the frequency of ARI in children before and during the COVID-19 pandemic within 7 cities in the United States.
- Zaid Haddadin, Jennifer E. Schuster, Andrew J. Spieker, Herdi Rahman, Anna Blozinski, Laura Stewart, Angela P. Campbell, Joana Y. Lively, Marian G. Michaels, John V. Williams, Julie A. Boom, Leila C. Sahni, Mary Staat, Monica McNeal, Rangaraj Selvarangan, Christopher J. Harrison, Geoffrey A. Weinberg, Peter G. Szilagyi, Janet A. Englund, Eileen J. Klein, Aaron T. Curns, Brian Rha, Gayle E. Langley, Aron J. Hall, Manish M. Patel, Natasha B. Halasa*
-  **Longitudinal Outcomes for Multisystem Inflammatory Syndrome in Children** 18
- We provide results from an interdisciplinary follow-up program, giving insight into the long-term impact of the hyperinflammatory process associated with MIS-C.
- Kanwal M. Farooqi, Angela Chan, Rachel J. Weller, Junhui Mi, Pengfei Jiang, Elizabeth Abrahams, Anne Ferris, Usha S. Krishnan, Nikhil Pasumarti, Sanghee Suh, Ameer M. Shah, Michael P. DiLorenzo, Philip Zachariah, Joshua D. Milner, Erika B. Rosenzweig, Mark Gorelik, Brett R. Anderson; On behalf of the Columbia University Interdisciplinary MIS-C Follow-up Program and the CUIMC Pediatric/Adult Congenital Heart Research Collaborative*
-  **Sexual and Reproductive Health Discussions During Preventive Visits** 19
- In this article, we examine the prevalence of discussions between primary care providers and adolescents about specific SRH topics during preventive visits.
- Renee E. Sieving, Annie-Laurie McRee, Christopher Mehus, Janna R. Gewirtz O'Brien, Shuo Wang, Pooja Brar, Marina Catalozzi, Julie Gorzkowski, Stephanie Grilo, Kristen Kaseeska, John Santelli, Riley J. Steiner, Jonathan D. Klein*

ARTICLES (continued)

- NIH** **Disparities in Childhood Abuse Between Transgender and Cisgender Adolescents** 22
- Psychosocial experiences underlying elevated rates of mental health problems among TGAs remain underexamined, and we examine childhood abuse disparities between TGAs and CGAs.
- Brian C. Thoma, Taylor L. Rezeppa, Sophia Choukas-Bradley, Rachel H. Salk, Michael P. Marshal*
- U** **A Waitlist Intervention for Transgender Young People and Psychosocial Outcomes** 25
- This study suggests that a single-session waitlist intervention results in improvements in transgender young people's mental health, family functioning, and quality of life.
- Sarah Dahlgren Allen, Michelle A. Tollit, Rosalind McDougall, Donna Eade, Monsurul Hoq, Ken C. Pang*
- NIH** **Quality of Care in US NICUs by Race and Ethnicity** 26
- Across and within NICUs in the United States, quality of care of important process and outcome measures varied by race and ethnicity.
- Erika M. Edwards, Lucy T. Greenberg, Jochen Profit, David Draper, Daniel Helkey, Jeffrey D. Horbar*
- NIH** **Gestational Age at Term and Educational Outcomes at Age Nine** 30
- Among term infants, GA was associated with improved teacher-reported math, science, and language skills at age 9.
- Amanda Hedges, Hope Corman, Kelly Noonan, Nancy E. Reichman*
- A National Mental Health Profile of Parents of Children With Medical Complexity** 34
- In this study, using the NSCH, we compared the mental health of parents of CMC with that of parents of noncomplex children.
- Nathaniel D. Bayer, Hongyue Wang, Justin A. Yu, Dennis Z. Kuo, Jill S. Halterman, Yue Li*
- U** **Maternal and Paternal Depression Symptoms During NICU Stay and Transition Home** 35
- Measuring mothers' and fathers' depressive symptoms from the NICU to home, we examine differences and similarities in scores and probability across the transition home.
- Craig F. Garfield, Young S. Lee, Liam Warner-Shifflett, Rebecca Christie, Kathryn L. Jackson, Emily Miller*
- U** **Cost-Effectiveness of Nasal CPAP Versus High Flow for Newborn Infants in Special-Care Nurseries** 38
- In this economic evaluation alongside a randomized control trial, we compared the cost-effectiveness of 2 common noninvasive therapies for newborns cared for in nontertiary special care nurseries.
- Li Huang, Brett J. Manley, Gaston R. B. Arnolda, Louise S. Owen, Ian M. R. Wright, Jann P. Foster, Peter G. Davis, Adam G. Buckmaster, Kim M. Dalziel*
- U** **Sleep and Behavior 24 Months After Early Tonsillectomy for Mild OSA: An RCT** 42
- Whether randomly assigned to early or routine surgery, after the entire cohort of preschool-aged children underwent AT for OSA, we found improved memory, behavior, and sleep.
- Karen A. Waters, Jasneek Chawla, Margaret-Anne Harris, Helen Heussler, Alan T. Cheng, Robert J. Black*
- U** **Oral Health Among Children and Youth With Special Health Care Needs** 46
- Using national data, in this study, we examine CYSHCNs oral health status and use of specific POH services.
- Lydie A. Lebrun-Harris, María Teresa Canto, Pamella Vodicka, Marie Y. Mann, Sara B. Kinsman*
- U** **Early Use of Bronchodilators and Outcomes in Bronchiolitis** 49
- This large study of infants presenting to the ED with bronchiolitis describes trends in and associations between bronchodilators and outcomes, including hospital admissions.
- Kristen H. Shanahan, Michael C. Monuteaux, Joshua Nagler, Richard G. Bachur*
- U** **Improving Care Management in Attention-Deficit/Hyperactivity Disorder: An RCT** 50
- In this randomized controlled trial among children with ADHD, we examined differences in outcomes using care management plus a patient portal versus a portal alone.
- James P. Guevara, Thomas J. Power, Katherine Bevans, Lisa Snitzer, Siobhan Leavy, Denise Stewart, Caroline Broomfield, Salima Shah, Robert Grundmeier, Jeremy J. Michel, Steven Berkowitz, Nathan J. Blum, Matthew Bryan, Heather Griffis, Alexander G. Fiks*

ARTICLES (continued)

-  **NIH Patient Portal Reminders for Pediatric Influenza Vaccinations: A Randomized Clinical Trial** 53
- A randomized clinical trial of patient portal reminders revealed no significant increases in the rates of first influenza vaccination and large increases in second vaccine rates.
- Carlos Lerner, Christina Albertin, Alejandra Casillas, O. Kenrik Duru, Michael K. Ong, Sitaram Vangala, Sharon Humiston, Sharon Evans, Michael Sloyan, Craig R. Fox, Jonathan E. Bogard, Sarah Friedman, Peter G. Szilagyi*
- NIH Protective Factors Against Vaping and Other Tobacco Use** 57
- In this cross-sectional analysis of school-based surveys, we demonstrate significant inverse associations between protective factors and multiple forms of tobacco use, including vaping, among adolescents.
- Nicholas Szoko, Maya I. Ragavan, Susheel K. Khetarpal, Kar-Hai Chu, Alison J. Culyba*
- Adolescent Use of and Susceptibility to Heated Tobacco Products** 58
- In this population-based study of adolescents' interest in HTPs, we raise the alarm that these new products may attract youth like e-cigarettes did.
- Shuwen Li, Katherine Braden, Yue-Lin Zhuang, Shu-Hong Zhu*
-  **NIH Hemoglobin A1c Patterns of Youth With Type 1 Diabetes 10 Years Post Diagnosis From 3 Continents** 59
- Identification of 5 distinct HbA1c patterns from time of T1D onset in youth from 3 international registries may allow for the intensification of services.
- Jennifer L. Sherr, Anke Schwandt, Helen Phelan, Mark A. Clements, Reinhard W. Holl, Paul Z. Benitez-Aguirre, Kellee M. Miller, Joachim Woelfle, Thomas Dover, David M. Maahs, Elke Fröhlich-Reiterer, Maria E. Craig*
-   **NIH Twelve-Month Outcomes of the First 1000 Days Program on Infant Weight Status** 63
- A systems-level intervention with individualized health coaching in the first 1000 days was associated with reduced infant overweight and increased receipt of maternal postpartum care.
- Elsie M. Taveras, Meghan E. Perkins, Alexy Arauz Boudreau, Tiffany Blake-Lamb, Sarah Matathia, Milton Kotelchuck, Mandy Luo, Sarah N. Price, Brianna Roche, Erika R. Cheng*
-   **Prenatal and Infancy Home Visiting in Germany: 7-Year Outcomes of a Randomized Trial** 64
- In this study, we analyze a follow-up of an RCT examining a home visiting program for disadvantaged families in a western European welfare state.
- Sören Kliem, Malte Sandner*
- NIH Timing of Supplemental Nutrition Assistance Program Benefits and Families' Home Food Environments** 65
- In this study, we examine whether timing of SNAP benefit disbursements is associated with variation in the home food environment among families with school-aged children.
- Susan You, Rosemary Ansah, Alexa Mullins, Sara B. Johnson, Jamie Perin, Sarah Flessa, Rachel L.J. Thornton*
-  **The Child Opportunity Index 2.0 and Hospitalizations for Ambulatory Care Sensitive Conditions** 66
- Neighborhoods with lower opportunity, as defined by the COI 2.0, have higher rates of potentially avoidable pediatric hospitalizations.
- Molly K. Krager, Henry T. Puls, Jessica L. Bettenhausen, Matt Hall, Cary Thurm, Laura M. Plencner, Jessica L. Markham, Clemens Noelke, Andrew F. Beck*
- Oral Vancomycin as Secondary Prophylaxis for *Clostridioides difficile* Infection** 69
- In this retrospective study, we assessed the utility of OVP in pediatric patients with a history of CDI who received subsequent antibiotic exposure.
- Hongkai Bao, Jennifer Lighter, Yanina Dubrovskaya, Cristian Merchan, Justin Siegfried, John Papadopoulos, Shin-Pung Jen*

ARTICLES (continued)

- NIH** **U** **Prescription Drug Dispensing to US Children During the COVID-19 Pandemic** 70
- Prescription dispensing to children declined by one-quarter in April to December 2020 compared with April to December 2019; declines were greater for infection-related than chronic disease–related drug classes.
- Kao-Ping Chua, Anna Volerman, Rena M. Conti*
- Core Outcome Sets for Medium-Chain Acyl-CoA Dehydrogenase Deficiency and Phenylketonuria** 71
- To reduce large variability in outcome measurement and reporting in future studies, pediatric COSs, for MCAD deficiency and for PKU, were developed.
- Michael Pugliese, Kylie Tingley, Andrea Chow, Nicole Pallone, Maureen Smith, Pranesh Chakraborty, Michael T. Geraghty, Julie Irwin, John J. Mitchell, Sylvia Stockler, Stuart G. Nicholls, Martin Offringa, Alvi Rahman, Laure A. Tessier, Nancy J. Butcher, Ryan Iverson, Monica Lamoureux, Tammy J.
