-    **Hospital Quality of Care and Racial and Ethnic Disparities in Unexpected Newborn Complications** 37
- In this article, we examine the extent of racial and ethnic disparities and interrogate the role of hospital quality in neonatal morbidity among otherwise healthy, low-risk births.
- Kimberly B. Glazer, Jennifer Zeitlin, Natalia N. Egorova, Teresa Janevic, Amy Balbierz, Paul L. Hebert, Elizabeth A. Howell*
-   **Preterm or Early Term Birth and Risk of Autism** 41
- In this study, we determine associations between preterm or early term birth and autism risk, sex-specific differences, and potential causality in a cohort of >4 million persons.
- Casey Crump, Jan Sundquist, Kristina Sundquist*
- Infant Deaths From Medical Causes After a Maltreatment Report** 44
- In this study, we used linked California birth, death, and child protection records to examine the relationship between maltreatment allegations and risk of medical death during infancy.
- Janet U. Schneiderman, John Prindle, Emily Putnam-Hornstein*
-  **A System-Wide Hospital Child Maltreatment Patient Safety Program** 47
- By applying an approach commonly used in hospital safety programs, this research demonstrates the benefits of a child maltreatment patient safety program.
- Jennifer Hansen, Amy Terreros, Ashley Sherman, Andrew Donaldson, James Anderst*
-   **Telemedicine for Children With Medical Complexity: A Randomized Clinical Trial** 50
- We investigate the benefits of adding telemedicine to CC to augment care in the home for children with medical complexity.
