ARTICLES

-  **Deaths in Children and Adolescents Associated With COVID-19 and MIS-C in the United States** 33
- We report the clinical characteristics and hospital course of persons <21 years of age with SARS-CoV-2-associated deaths in the United States during February to July 2020.
- David W. McCormick, LaTonia Clay Richardson, Paul R. Young, Laura J. Viens, Carolyn V. Gould, Anne Kimball, Talia Pindyck, Hannah G. Rosenblum, David A. Siegel, Quan M. Vu, Ken Komatsu, Heather Venkat, John J. Openshaw, Breanna Kawasaki, Alan J. Siniscalchi, Megan Gumke, Andrea Leapley, Melissa Tobin-D'Angelo, Judy Kauerauf, Heather Reid, Kelly White, Farah S. Ahmed, Gillian Richardson, Julie Hand, Kim Kirkey, Linnea Larson, Paul Byers, Ali Garcia, Mojisola Oja, Ariela Zamcheck, Maura K. Lash, Ellen H. Lee, Kathleen H. Reilly, Erica Wilson, Sietske de Fijter, Ozair H. Naqvi, Laurel Harduar-Morano, Anna-Kathryn Burch, Adele Lewis, Jonathan Kolsin, Stephen J. Pont, Bree Barbeau, Danae Bixler, Sarah Reagan-Steiner, Emilia H. Koumans, on behalf of the Pediatric Mortality Investigation Team*
-  **SARS-CoV-2 Antibodies in Breast Milk After Vaccination** 34
- The COVID-19 vaccine in breastfeeding mothers yields passive antibody transfer and could be a protective measure against the disease in children of any age.
- Dolores Sabina Romero Ramírez, María Magdalena Lara Pérez, Mercedes Carretero Pérez, María Isis Suárez Hernández, Saúl Martín Pulido, Lorena Pera Villacampa, Ana María Fernández Vilar, Mónica Rivero Falero, Paloma González Carretero, Beatriz Reyes Millán, Sabine Roper, Miguel Ángel García Bello*
-  **COVID-19 Vaccination–Associated Myocarditis in Adolescents** 35
- A large multicenter study affords us insight into characteristics, early outcomes, and myocardial injury noted on state-of-the-art CMR imaging in children with myocarditis after COVID-19 vaccination.
- Supriya S. Jain, Jeremy M. Steele, Brian Fonseca, Sihong Huang, Sanket Shah, Shiraz A. Maskatia, Sujatha Buddha, Nilanjana Misra, Preeti Ramachandran, Lasya Gaur, Parham Eshtehardi, Shafkat Anwar, Neeru Kaushik, Frank Han, Nita Ray Chaudhuri, Lars Grosse-Wortmann*
- COVID-19 Vaccine Uptake Among US Child Care Providers** 36
- In this article we describe the results of a national survey of child care providers to determine the overall COVID-19 vaccine uptake and the gaps in vaccine coverage.
- Kavin M. Patel, Amyn A. Malik, Aiden Lee, Madeline Klotz, John Eric Humphries, Thomas Murray, David Wilkinson, Mehr Shafiq, Inci Yildirim, Jad A. Elharake, Rachel Diaz, Chin Reyes, Saad B. Omer, FIDSA, Walter S. Gilliam*

contents

ARTICLES (continued)

-  **Pediatric Fatalities Associated With Over-the-Counter Cough and Cold Medications** 37
 • We provide an analysis of fatalities in children <12 years old associated with oral exposure to CCMs.
Laurie Seidel Halmo, George Sam Wang, Kate M. Reynolds, Heather Delva-Clark, Malin Rapp-Olsson, William Banner, G. Randall Bond, Ralph E. Kauffman, Robert B. Palmer, Ian M. Paul, Jody L. Green, Richard C. Dart
-   **Corticosteroids for Acute Orbital Cellulitis** 41
 • In this retrospective, registry-based study of children hospitalized with orbital cellulitis, we measured the relationship between corticosteroid exposure and hospital LOS.
Maria Anna Leszczynska, Anthony Alexander Sochet, Anh Thy H. Nguyen, Jazmine Mateus, John Michael Morrison
-   **Corticosteroids in the Treatment of Pediatric Retropharyngeal and Parapharyngeal Abscesses** 42
 • In this study, we examine the association between systemic corticosteroid use and the need for surgical drainage in hospitalized children with retropharyngeal or PPA.
Pratichi K. Goenka, Matthew Hall, Samir S. Shah, Todd A. Florin, Nicole Leone, Sridaran Narayanan, Stacey Ishman, Peter Gill, Sheila Liewehr, Nancy Palumbo, Stacy McGeechan, Marcos Mestre, Kavita Parikh
-  **Addressing Myths and Vaccine Hesitancy: A Randomized Trial** 46
 • In this online experiment in parents of young children, repeating myths when debunking vaccination misinformation does not appear to be inferior to other strategies.
Maryke S. Steffens, Adam G. Dunn, Mathew D. Marques, Margie Danchin, Holly O. Witteman, Julie Leask
- Trends in Management of Simple Febrile Seizures at US Children's Hospitals** 47
 • In this study, we explore changes in the management of SFS in the ED before and after the publication of the 2011 AAP clinical practice guideline.
Vidya R. Raghavan, John J. Porter, Mark I. Neuman, Todd W. Lyons
- Explanatory Diagnoses Following Hospitalization for a Brief Resolved Unexplained Event** 48
 • In this study, we examine the rate of explanatory diagnosis after hospitalization for a BRUE and the contribution of testing, consults, and observed events.
Risa Bochner, Joel S. Tieder, Erin Sullivan, Matt Hall, Allayne Stephans, Manoj K Mittal, Nidhi Singh, Atima Delaney, Beth Harper, Nirav Shastri, Daniela Hochreiter, Mark I. Neuman, BRIEF RESOLVED UNEXPLAINED EVENT RESEARCH AND QUALITY IMPROVEMENT NETWORK
-   **Update on Phototherapy and Childhood Cancer in a Northern California Cohort** 49
 • In this study, we reassessed the association between newborn phototherapy and childhood cancer and sought to confirm a late increase in solid tumors reported from Quebec.
Jean C. Digitale, Mi-Ok Kim, Michael W. Kuzniewicz, Thomas B. Newman
-  **Transgender Youth Referred to Clinics for Gender-Affirming Medical Care in Canada** 50
 • With prospective data collection across 10 Canadian medical clinics, this study presents baseline data describing transgender gender affirmation patients <16 years of age.
Greta R. Bauer, Danièle Pacaud, Robert Couch, Daniel L. Metzger, Lorraine Gale, Sandra Gotovac, Arati Mokashi, Stephen Feder, Joe Raiche, Kathy Nixon Speechley, Julia Temple Newhook, Shuvo Ghosh, Annie Pullen Sansfaçon, Françoise Susset, Margaret L. Lawson, for the Trans Youth CAN! Research Team
-  **State Spending on Public Benefit Programs and Child Maltreatment** 51
 • Through linkage of state expenditure and Child Protective Services databases, we examine the potential and cost-effectiveness for benefit programs to prevent child maltreatment.
Henry T. Puls, Matthew Hall, James D. Anderst, Tami Gurley, James Perrin, Paul J. Chung
-    **Constraint-Induced Movement Therapy for Cerebral Palsy: A Randomized Trial** 52
 • With the CHAMP factorial RCT, we provide findings to inform clinical recommendations for CIMT and UCT to treat HCP.
Sharon Landesman Ramey, Stephanie C. DeLuca, Richard D. Stevenson, Mark Conaway, Amy R. Darragh, Warren Lo, CHAMP

ARTICLES (continued)

- U Exercise Intervention for Academic Achievement Among Children: A Randomized Controlled Trial** 56
 • Through a population-based cluster RCT, this study revealed that a school-based exercise intervention improved school-aged children's academic achievement in Mongolia.
Kenji Takehara, Ganchimeg Togoobaatar, Akihito Kikuchi, Gundegmaa Lkhagvasuren, Altantsetseg Lkhagvasuren, Ai Aoki, Takemune Fukuie, Bat-Erdene Shagdar, Kazuya Suwabe, Masashi Mikami, Rintaro Mori, Hideaki Soya
- U Child Development in Low- and Middle-Income Countries** 57
 • Nationally representative data from 159 959 children in 51 LMICs document the role of national-level indicators in individual children's mental and socioemotional development.
Marc H. Bornstein, W. Andrew Rothenberg, Jennifer E. Lansford, Robert H. Bradley, Kirby Deater-Deckard, Andrea Bizzeo, Gianluca Esposito
- NIH U Conjoint Developmental Trajectories of Adolescent E-cigarette and Combustible Cigarette Use** 58
 • In this study, by measuring e-cigarette and combustible cigarette use across high school, we identified 4 uptake trajectories and the characteristics of adolescents who made up these trajectories.
Janet Audrain-McGovern, Daniel Rodriguez, Stephen Pianin, Shannon Testa
- NIH A Dating Violence Prevention Program for Middle School Youth: A Cluster Randomized Trial** 59
 • In a cluster RCT, students in the intervention schools were significantly less likely to report perpetrating physical ARA.
Jeff R. Temple, Elizabeth Baumler, Leila Wood, Melanie Thiel, Melissa Peskin, Elizabeth Torres
- U Variation of Patent Ductus Arteriosus Treatment in Very Low Birth Weight Infants** 60
 • PDA treatment rates in US VLBW infants vary widely by NICU and are associated with hospital capability and geography despite a largely uniform patient population.
K. Elisabeth Runte, Jonathan N. Flyer, Erika M. Edwards, Roger F. Soll, Jeffrey D. Horbar, Scott B. Yeager
- U Achieving Entrustable Professional Activities During Fellowship** 61
 • In a survey, US program directors report that they would graduate fellows who do not meet the level of entrustment expected of practicing subspecialists.
Pnina G. Weiss, Alan Schwartz, Carol L. Carraccio, Bruce E. Herman, David A. Turner, Tandy Aye, Jill J. Fussell, Jennifer Kesselheim, John D. Mahan, Kathleen A. McGann, Angela Myers, Diane E.J. Stafford, Patricia R. Chess, Megan L. Curran, Christiane E. L. Dammann, Pamela High, Deborah C. Hsu, Sarah Pitts, Cary Sauer, Shubhika Srivastava, Richard B. Mink,

QUALITY REPORTS

Cross-Sector Approach Expands Screening and Addresses Health-Related Social Needs in Primary Care 76

• DULCE, an evidence-based intervention, can be spread by using QI to improve health care quality, systems integration, and outcomes of families with infants.

MaryCatherine Arbour, Baraka Floyd, Samantha Morton, Patsy Hampton, Jennifer Murphy Sims, Stephanie Doyle, Sidney Atwood, Robert Sege

NIH U An Intervention to Improve Chlamydia and Gonorrhea Testing Among Adolescents in Primary Care 77

• This study evaluates the effectiveness of a universal chlamydia and gonorrhea testing intervention in improving adolescent testing rates in general pediatric and family medicine settings.

Margaret M. Tomcho, Yingbo Lou, Sonja C. O'Leary, Deborah J. Rinehart, Tara Thomas-Gale, Claudia M. Douglas, Florence J. Wu, Lara Penny, Steven G. Federico, Holly M. Frost

U Interconception Care and Safe Sleep: Adapting the IMPLICIT Toolkit for Pediatrics 78

• Pediatricians implement ICC and safe sleep screening during pediatric visits. FRAME can be used to systematically record adaptations to existing interventions.

Emily Scott, Kara Casavan, Nancy Swigonski

U Reducing Benzodiazepine Exposure by Instituting a Guideline for Dexmedetomidine Usage in the NICU 79

• After implementation of a quality improvement framework that included standardized usage of dexmedetomidine, we observed a reduction in midazolam exposure among NICU patients requiring sedation.

Sarah U. Morton, Michelle Labrecque, Mark Moline, Anne Hansen, Kristen Leeman

contents

DIAGNOSTIC DILEMMAS

Scalp Nodules and Facial Droop in an Infant

- An infant presents with enlarging scalp nodules and subsequently develops a facial droop; laboratory studies, imaging, and skin biopsy specimens reveal the final diagnosis.

Christopher E. Gaw, Christina S. Turn, Susan R. Rheingold, Leslie Castelo-Soccio, Jaclyn Tencer, Anjali S. Gans, Richard J. Scarfone
