### ARTICLES

-  **Underinsurance Among Children in the United States** 32  
 • We analyze the NSCH 2016–2019 data sets to describe recent trends in underinsurance and its relationship with health complexity and insurance type.  
*Justin Yu, James M. Perrin, Thomas Hagerman, Amy J. Houtrow*
-  **Spatial Clustering of Vaccine Exemptions on the Risk of a Measles Outbreak** 33  
 • Measles outbreak potential before and after the elimination of non-medical vaccination exemptions is evaluated by a spatially realistic simulation of all children in California.  
*Ashley Gromis, Ka-Yuet Liu*
-  **Risk Factors for Severe COVID-19 in Children** 37  
 • This investigation presents population-based rates and identifies underlying medical conditions associated with an increased risk of severe disease outcomes among hospitalized children with laboratory-confirmed SARS-CoV-2 infection.  
*Rebecca C. Woodruff, Angela P. Campbell, Christopher A. Taylor, Shua J. Chai, Breanna Kawasaki, James Meek, Evan J. Anderson, Andy Weigel, Maya L. Monroe, Libby Reeg, Erica Bye, Daniel M. Sosin, Alison Muse, Nancy M. Bennett, Laurie M. Billing, Melissa Sutton, H. Keipp Talbot, Keegan McCaffrey, Huong Pham, Kadam Patel, Michael Whitaker, Meredith McMorro, Fiona Havers, COVID-NET Surveillance Team*
-   **Birth Hospital Length of Stay and Rehospitalization During COVID-19** 38  
 • Using multisite electronic health record data, this study reports differences in infant birth hospitalization LOS and rehospitalization between the COVID-19 and prepandemic eras.  
*Sara C. Handley, Kieran Gallagher, Amy Breden, Eric Lindgren, Justin Y. Lo, Moeun Son, Daria Murosko, Kevin Dysart, Scott A. Lorch, Jay Greenspan, Jennifer F. Culhane, Heather H. Burris*
-   **Frequency and Consequences of Routine Temperature Measurement at Well-Child Visits** 39  
 • In this retrospective cohort study, we use EMR data to determine the scope and impact of routine temperature measurement at well-child visits.  
*Rebecca Dang, Anisha I. Patel, Julia Marlow, Yingjie Weng, Marie E. Wang, Alan R. Schroeder*

### ARTICLES (continued)

-  **A Coaching Model to Promote Economic Mobility and Child Developmental Outcomes** 42  
 • A state-run program coaching parents of preschoolers to strengthen executive function to promote economic mobility may have improved child developmental outcomes.  
*Charles J. Homer, Ashley Winning, Kevin Cummings*
-  **Shared Reading and Risk of Social-Emotional Problems** 45  
 • In this study we identify a possible link between caregiver-reported social-emotional concerns among young children and the frequency of shared reading.  
*Keith J. Martin, Andrew F. Beck, Yingying Xu, Gregory A. Szumlas, John S. Hutton, Clare C. Crosh, Kristen A. Copeland*
-  **Gestational Age, Parent Education, and Education in Adulthood** 46  
 • Using the nationwide Nordic registers in 4 countries this study uncovers the interplay between gestational age and parental education on educational attainment at 25 years.  
*Josephine Funck Bilsteen, Suvi Alenius, Magne Bråthen, Klaus Børch, Claus Thorn Ekstrøm, Eero Kajantie, Mariam Lashkariani, Markku Nurhonen, Kari Risnes, Sven Sandin, Kjetil A. van der Wel, Dieter Wolke, Anne-Marie Nybo Andersen*
-   **A Prediction Model for Pediatric Radiographic Pneumonia** 47  
 • In this prospective cohort study, we derive a prediction model for pediatric radiographic pneumonia.  
*Sriram Ramgopal, Lilliam Ambroggio, Douglas Lorenz, Samir S. Shah, Richard M. Ruddy, Todd A. Florin*
-   **Pediatric Medication Noninitiation in Spain** 48  
 • Through linkage of prescription and dispensing databases, this study captures prevalence and explanatory factors of medication noninitiation in the pediatric population.  
*Cristina Carbonell-Duacastella, Maria Rubio-Valera, Sílvia Marqués-Ercilla, Maria Teresa Peñarrubia-María, Montserrat Gil-Girbau, Victoria Garcia-Cardenas, Maria Isabel Pasarín, Elizabeth Parody-Rúa, Ignacio Aznar-Lou*
-   **Enteropathogen Changes After Rotavirus Vaccine Scale-up** 49  
 • Sapovirus emerges as and norovirus remains a significant severe pediatric diarrhea contributor in this large, hospital-based, case-control study in a pathogen-diverse, LMIC setting after successful rotavirus vaccination.  
*Sarah-Blythe Ballard, David Requena, Holger Mayta, Gerardo J. Sanchez, Maria G. Oyola-Lozada, Fabiola D. Colquechagua Aliaga, Lilia Cabrera, Macarena D. Vittet Mondoneda, Carmen Taquiri, CAPT Drake H. Tilley, CDR Mark P. Simons, Rina A. Meza, Caryn Bern, Mayuko Saito, Dante A. Figueroa-Quintanilla, Robert H. Gilman*
-  **Bloodstream Infections in Children With Sickle Cell Disease: 2010–2019** 50  
 • In this study, through review of a comprehensive health care use database, we determine the incidence of BSI and causative microorganisms in children with SCD.  
*Marianne E. Yee, Kristina W. Lai, Nitya Bakshi, Joanna K. Grossman, Preeti Jaggi, Alexander Mallis, Yun F. Wang, Robert C. Jerris, Peter A. Lane, Inci Yildirim*
-   **Traumatic Head Injury and the Diagnosis of Abuse: A Cluster Analysis** 51  
 • Cluster analyses reveal subpopulations among young children with neurotrauma. Injuries associated with abuse, abuse confessions, historical inconsistencies, and physician-diagnosed abuse predominate in 1 cluster.  
*Stephen C. Boos, Ming Wang, Wouter A. Karst, Kent P. Hymel, Pediatric Brain Injury Research Network (PediBIRN) Investigators*
-   **Trends in Health Care Use and Spending for Young Children With Neurologic Impairment** 55  
 • For children with NI enrolled in Medicaid, our study examined health care use and spending trends during their first 5 years of life.  
*Nathaniel D. Bayer, Matthew Hall, Yue Li, James A. Feinstein, Joanna Thomson, Jay G. Berry*

## contents

### QUALITY REPORTS *(continued)*

- U Practice Facilitation Improves Adolescent Reproductive Health Preventive Services in Primary Care** 77
- Using practice facilitation in pediatric practices working with a large accountable care organization built QI capacity and improved delivery of adolescent reproductive health services.
- Elise Berlan, Olivia Valenti, William Long, Christina Toth, Angela Abenaim, Heather Maciejewski, Charitha Gowda*
- U An Initiative to Reduce Insulin-Related Adverse Drug Events in a Children's Hospital** 78
- Through standardization and automation, insulin error rates were reduced and insulin timeliness was improved in a pediatric hospital; the insulin error rate reduction was sustainable.
- Sarah A. Lawson, Lindsey N. Hornung, Michelle Lawrence, Christine L. Schuler, Joshua D. Courter, Christy Miller*
- Resolving Pediatric Preventive Care Gaps Through Hospital Inreach** 79
- In this study, we demonstrate the ability to address preventive care gaps on admitted children using QI methodologies.
- John F. Morehous, Cynthia White, William B. Brinkman, Dominick J. DeBlasio, Allison Reyner, Julie Kleiman, Srikant B. Iyer*

### DIAGNOSTIC DILEMMAS

- From Telemedicine to the ICU—Fever and Rash in a 9-Year-Old Girl** 80
- This case follows the progression of a persistent febrile illness in a 9-year-old girl from initial virtual visit through diagnosis in the ICU.
- Salvador Maffei, Marietta De Guzman, Ryan Rochat, Jennifer Tran, Sarah Risen, Andrea Dean, Nana Coleman*

### CASE REPORTS—Online only at [www.pediatrics.org](http://www.pediatrics.org)

- Is Acute Solid Food Aversion a Proxy for COVID-19–Related Olfactory and Gustatory Dysfunction?**
- We present 2 cases of children <2 years old with acute solid food aversion likely as a manifestation of COVID-19–related OGD.
- Fann-Hsuan Tseng, Sylvia H. Yeh, Kevin Basiago, Wendy Miyares, Kenneth M. Zangwill*
- Recognition and Management of Nonaccidental Esophageal Perforation**
- In this case report, we describe the presentation and management of a 5-week-old girl with an inflicted esophageal perforation.
- Ryan Bishop, Rishabh Sethia, Charles Elmaraghy, Meredith Lind, Jennifer Tscholl, Prashant Malhotra*
- A Novel Surgical Treatment of Pediatric Fulminant *Clostridium difficile* Colitis**
- We report the first pediatric case of the use of diverting loop ileostomy and colonic lavage to treat fulminant *Clostridium difficile* colitis.
- Ryan M. Hanson, Amy J. Wagner*
- Challenges and Potential in Targeted Muscle Reinnervation in Pediatric Amputees**
- TMR prevents amputation-related pain and allows for myoprosthesis use in adults; applying this exciting procedure in pediatric patients with amputation carries special challenges.
- Brian Vial, Margaret Lieb, Haley Pysick, Patrick Hettinger, Lynn Rusy, Gwendolyn Hoben*
- Omenn Syndrome due to *RAG1* Mutation Presenting With Nonimmune Hydrops Fetalis in Two Siblings**
- Two siblings with NIHF and homozygous *RAG1* mutation are reported, and clinical and diagnostic workup of OS and NIHF is discussed.
- Lara Valeri, Licia Lugli, Lorenzo Iughetti, Annarosa Soresina, Silvia Giliani, Fulvio Porta, Alberto Berardi*
