ARTICLES

-  **Suicide Risk in Adolescents During the COVID-19 Pandemic** 19
 • During the pandemic's early months, rates of suicidal ideation among adolescent patients rose. Rates of screening and of positive screens were lower in telehealth visits.
John D. Lantos, Hung-Wen Yeh, Fajar Raza, Mark Connelly, Kathy Goggin, Shayla A. Sullivan
-  **COVID-19 and Antibiotic Prescribing in Pediatric Primary Care** 20
 • There was a large, sustained reduction in antibiotic prescribing during the COVID-19 pandemic in pediatric primary care, driven by a decrease in RTIs.
Lauren Dutcher, Yun Li, Giyoung Lee, Robert Grundmeier, Keith W. Hamilton, Jeffrey S. Gerber, for the CDC Prevention Epicenters Program
-   **Human Milk SARS-CoV-2 Antibodies up to 6 Months After Vaccination** 21
 • This longitudinal study aimed to assess the presence, isotype profiles, neutralizing capacity, and resistance to pasteurization of anti-SARS-CoV-2 antibodies in human milk post-vaccination.
Stephanie E. Perez, Luis Diego Luna Centeno, Wesley A. Cheng, Carolyn Jennifer Marentes Ruiz, Yesun Lee, Zion Congrave-Wilson, Rebecca L. Powell, Lisa Stellwagen, Pia S. Pannaraj
-  **RSV Epidemiology in Australia Before and During COVID-19** 22
 • COVID-19 public health measures altered respiratory syncytial virus (RSV) epidemiology. We examined age-stratified trends in RSV-related disease in Australian children in 2020 compared with previous years.
Gemma L. Saravanos, Nan Hu, Nusrat Homaira, David J. Muscatello, Adam Jaffe, Adam W. Bartlett, Nicholas J. Wood, William Rawlinson, Alison Kesson, Raghu Lingam, Philip N. Britton
-   **Delivery Characteristics and the Risk of Early-Onset Neonatal Sepsis** 23
 • Pre-specified criteria for determining reduced risk of EOS were associated with a low incidence of EOS but without a proportionate reduction in antibiotic exposure.
Dustin D. Flannery, Sagori Mukhopadhyay, Knashawn H. Morales, Miren B. Dhudasia, Molly Passarella, Jeffrey S. Gerber, Karen M. Puopolo
-   **Trends in Survival for Pediatric Transplantation** 26
 • Through use of the OTPN database, this study provides a new, more comprehensive perspective on progress in pediatric transplant outcomes.
Brian Hickner, Adrish Anand, Elizabeth L. Godfrey, Jordan Dunson, Ross M. Reul Jr, Ronald Cotton, Nhu Thao Nguyen Galvan, Christine O'Mahony, John A. Goss, Abbas Rana

ARTICLES *(continued)*

-  **Home Health Care Utilization in Children With Medicaid** 29
 • One in four children receiving home health care do not have chronic conditions; three-fourths of spending is for technology-assisted children. Non-nursing providers deliver care for all children.
Sarah A. Sobotka, David E. Hall, Cary Thurm, James Gay, Jay G. Berry
- Advance Care Planning Preferences for Adolescents With Cardiac Disease** 30
 • We describe and compare the ACP preferences of adolescents with heart disease and their caregivers.
Katherine Hansen, Lindsay A Edwards, Kifle Yohannes, Roger Luong, Amy Lin, Jin Long, Bonnie Halpern-Felsher, Harvey Cohen, Beth D. Kaufman
-  **Vaccine Administration in Children's Hospitals** 31
 • We conducted a retrospective cohort study of children hospitalized at US children's hospitals to examine vaccine administration during hospitalization using the PHIS.
Mersine A. Bryan, Annika M. Hofstetter, Douglas J. Opel, Tamara D. Simon
-  **Short-term Music Therapy for Families With Preterm Infants: A Randomized Trial** 32
 • This music therapy approach for premature infants and their caregivers had no effect on mother-infant bonding and parental mental health compared to standard care.
Tora Söderström Gaden, Claire Ghetti, Ingrid Kvestad, Lucja Bieleninik, Andreas Størksen Stordal, Jörg Assmus, Shmuel Arnon, Cochavit Elefant, Shulamit Epstein, Mark Ettenberger, Marcela Lichtensztein, Merethe Wolf Lindvall, Julie Mangersnes, Catharina Janner Røed, Bente Johanne Vederhus, Christian Gold,
-  **Caregiver Perspectives on Underutilization of WIC: A Qualitative Study** 33
 • Via 37 semi-structured interviews, this study explored the factors current and past WIC caregivers identify in relation to decisions around enrollment and benefits redemption.
Cristina M. Gago, Jhordan O. Wynne, Maggie J. Moore, Alejandra Cantu-Aldana, Kelsey Vercammen, Laura Y. Zatz, Kelley May, Tina Andrade, Terri Mendoza, Sarah L. Stone, Josiemer Mattei, Kirsten K. Davison, Eric B. Rimm, Rachel Colchamiro, Erica L. Kenney

REVIEW ARTICLES

 **Culturally Sensitive Interventions in Pediatric Primary Care Settings: A Systematic Review** 34
• In this review, we summarize the design, feasibility, acceptability, and impact on health outcomes of culturally sensitive interventions developed for the pediatric primary care setting.
William Okoniewski, Mangai Sundaram, Diego Chaves-Gnecco, Katie McAnany, John D. Cowden, Maya Ragavan

 **Screening for Adverse Childhood Experiences in Children: A Systematic Review** 37
• A systematic review on whether screening for ACEs leads to better outcomes for children.
Sarah Loveday, Teresa Hall, Leanne Constable, Kate Paton, Lena Sanci, Sharon Goldfeld, Harriet Hiscock

 **Short Intravenous Antibiotic Courses for Urinary Infections in Young Infants: A Systematic Review** 40
• This systematic review summarizes the evidence for the safety of short intravenous antibiotic treatment for urinary tract infections in young infants aged ≤ 90 days.
Samar Hikmat, Jolie Lawrence, Amanda Gwee

 **Novel Screening and Monitoring Techniques for Deformational Plagiocephaly: A Systematic Review** 41
• This article summarizes the current state of diagnostic modalities for infant craniofacial deformities and highlights capable diagnostic tools available currently to pediatricians.
Ayden Watt, Dino Zammit, James Lee, Mirko Gilardino

STATE-OF-THE-ART REVIEW ARTICLE

 **Remote Monitoring of Patient- and Family-Generated Health Data in Pediatrics** 42
• In this article, we provide an overview of remote monitoring of pediatric PGHD and family-generated health data, including its current uses, future opportunities, and implementation resources.
Carolyn Foster, Dana Schinasi, Kristin Kan, Michelle Macy, Derek Wheeler, Allison Curfman

SPECIAL ARTICLES

-  **An Entrustable Professional Activity Addressing Racism and Pediatric Health Inequities** 43
- We describe the development, content, and practical applications of an entrustable professional activity that addresses racism and pediatric health inequities.

Ndidi I. Unaka, Ariel Winn, Adiaha Spinks-Franklin, Patricia Poitevien, Franklin Trimm, Brenda J. Nuncio Lujano, David A. Turner

-  **2021 Update on Pediatric Overuse** 44
- This update on pediatric medical overuse identifies and provides concise summaries of 10 impactful articles related to pediatric medical overuse from the years 2019 to 2020.

Nathan M. Money, Alan R. Schroeder, Ricardo A. Quinonez, Timmy Ho, Jennifer R. Marin, Elizabeth R. Wolf, Daniel J. Morgan, Sanket S. Dhruva, Eric R. Coon

ETHICS ROUNDS

- Off-Label Prescription of COVID-19 Vaccines in Children: Clinical, Ethical, and Legal Issues** 45
- The commentators analyze the clinical, ethical, and legal issues in off-label prescribing of the COVID-19 vaccine to children.

Jennifer E. deSante-Bertkau, Timothy K. Knilans, Govind Persad, Patricia J. Zettler, Holly Fernandez Lynch, Armand H. Matheny Antommara

QUALITY REPORTS

- Mississippi CHAMPS: Decreasing Racial Inequities in Breastfeeding** 53
- Mississippi CHAMPS addressed racial inequities in breastfeeding by implementing hospital-based practice changes in accordance with the BFHI and by parallel community work.

Laura Burnham, Rebecca Knapp, Kimarie Bugg, Nathan Nickel, Paige Beliveau, Lori Feldman-Winter, Anne Merewood

-  **Reducing Unnecessary Respiratory Viral Testing to Promote High-Value Care** 54
- Viral respiratory tests are frequently performed, yet the results often do not impact management. Reducing unnecessary testing promotes best practices and improves value in pediatric care.

Olivia Ostrow, Deena Savlov, Susan E. Richardson, Jeremy N. Friedman

-   **Safely Reducing Hospitalizations for Anaphylaxis in Children Through an Evidence-Based Guideline** 55
- Through QI methods, this intervention helped safely reduce the number of hospitalizations for pediatric anaphylaxis.

Lukas K. Gaffney, John Porter, Megan Gerling, Lynda C. Schneider, Anne M. Stack, Dhara Shah, Kenneth A. Michelson

-   **A Quality Improvement Bundle to Improve Outcomes in Extremely Preterm Infants in the First Week** 56
- A quality improvement bundle improved severe ICH and early mortality outcomes in extremely preterm infants.

Colm P. Travers, Samuel Gentle, Amelia E. Freeman, Kim Nichols, Vivek V. Shukla, Donna Purvis, Kalsang Dolma, Lindy Winter, Namasivayam Ambalavanan, Waldemar A. Carlo, Charitharth V. Lal

CASE REPORTS—Online only at www.pediatrics.org

Postpartum Mother-to-Child Transmission of HIV in a Breastfeeding Infant

- This article is an examination of MTCT of HIV through breastfeeding in a mother who seroconverted postnatally.

Carol-Ann Swain, Suzanne Kaufman, Wilson Miranda, Lisa Haskin, Monica M. Parker, Dipal Shah, Charles Gonzalez
