### ARTICLES

-   **Initiation of Opioid Prescription and Risk of Suicidal Behavior Among Youth and Young Adults** 11
- Using nationwide Swedish data, this study examined the association between initiation of opioid analgesic prescription and risk of suicidal behavior among youth and young adults.
- Kimberly L. Fine, Martin E. Rickert, Lauren M. O'Reilly, Ayesha C. Sujjan, Katja Boersma, Zheng Chang, Johan Franck, Paul Lichtenstein, Henrik Larsson, Brian M. D'Onofrio, Patrick D. Quinn*
-  **Household Transmission and Clinical Features of SARS-CoV-2 Infections** 12
- Through systematic follow-up of household contacts, this study examines secondary infection risk and symptoms among children and adults of all ages.
- Huong Q. McLean, Carlos G. Grijalva, Kayla E. Hanson, Yuwei Zhu, Jessica E. Deyoe, Jennifer K. Meece, Natasha B. Halasa, James D. Chappell, Alexandra M. Mellis, Carrie Reed, Edward A. Belongia, H. Keipp Talbot, Melissa A. Rolfes*
-  **Ten-Year Survival of Children With Congenital Anomalies: A European Cohort Study** 13
- Through linkage of population-based European congenital anomaly registries and mortality databases, this study estimates 10-year survival of children born with 32 different structural congenital anomalies.
- Svetlana V. Glinianaia, Judith Rankin, Anna Pierini, Alessio Coi, Michele Santoro, Joachim Tan, Abigail Reid, Ester Garne, Maria Loane, Joanne Given, Clara Cervero-Carbonell, Hermien E.K. de Walle, Miriam Gatt, Mika Gissler, Anna Heino, Babak Khoshnood, Kari Klungsoyr, Nathalie Lelong, Amanda J. Neville, Daniel S Thayer, David Tucker, Stine K. Urhøj, Diana Wellesley, Oscar Zurriaga, Joan K. Morris*
-  **Delays Related to Prior Authorization in Inflammatory Bowel Disease** 17
- Via a granular data set and propensity score adjustment, this study demonstrates an association between prior authorization-related biological initiation delays and health care use in pediatric IBD.
- Brad D. Constant, Edwin F. de Zoeten, Marisa G. Stahl, Ravy K. Vajravelu, James D. Lewis, Blair Fennimore, Mark E. Gerich, Frank I. Scott*
-  **Early Sexual Debut and Neighborhood Social Environment in Latinx Youth** 20
- This study examines relationships between neighborhood social environment and early adolescent sexual health among Latinx youth in a California agricultural county.
- Alexandra M. Minnis, Erica N. Browne, Marisol Chavez, Linda McGlone, Marissa Raymond-Flesch, Colette Auerswald*

### ARTICLES (continued)

-  **Family Psychosocial Assets, Child Behavioral Regulation, and Obesity** 21  
• We investigated whether early exposure to familial psychosocial assets and child behavioral regulation confer protection against obesity and severe obesity in childhood to adolescence.  
*Brandi Y. Rollins, Lori A. Francis, Nathaniel R. Riggs*
- Sixth-Hour Transcutaneous Bilirubin and Need for Phototherapy in DAT Positive Newborns** 22  
• Among 772 ABO incompatible DAT positive newborns, this study assessed the predictive ability of the sixth-hour TcB for development of early jaundice requiring phototherapy  
*Maj Michael F. Papacostas, Capt Dwight M. Robertson, Capt Matthew D. McLean, Capt Keisha D. Wolfe, Hui Liu, Timothy R. Shope*
-   **Influence of Genetic Information on Neonatologists' Decisions: A Psychological Experiment** 23  
• On the basis of responses to our split sample psychological experiment, neonatologists applied uncertain genetic findings or those heralding neurodevelopmental impairment in problematic ways.  
*Katharine Press Callahan, John Flibotte, Cara Skraban, Katherine Taylor Wild, Steven Joffe, David Munson, Chris Feudtner*
-  **The Continued Rise of Venous Thromboembolism Across US Children's Hospitals** 24  
• The rate of pediatric VTE in children's hospitals continues to rise. Infants and adolescents are at highest risk. Studies to reduce pediatric VTE are urgently needed.  
*Sarah H. O'Brien, Joseph R. Stanek, Char M. Witmer, Leslie Raffini*
-  **High-Powered Magnet Exposures in Children: A Multi-Center Cohort Study** 25  
• In this multi-center study of high-powered magnet exposure, almost 1 in 10 children had morbidity, none died, nearly half required procedures, and most required hospitalization.  
*Leah K. Middelberg, Julie C. Leonard, Junxin Shi, Arturo Aranda, Julie C. Brown, Christina L. Cochran, Kasi Eastep, Raquel Gonzalez, Maya Haasz, Scott Herskovitz, Jennifer A. Hoffmann, Alexander Koral, Abdulraouf Lamoshi, Steven Levitte, Yu Hsiang J. Lo, Taylor Montminy, Inna Novak, Kenneth Ng, Nathan M. Novotny, Raphael H. Parrado, Wenly Ruan, Joseph Shapiro, Elizabeth M. Sinclair, Amanda M. Stewart, Saurabh Talathi, Melissa M. Tavarez, Peter Townsend, Julia Zaytsev, Bryan Rudolph*
-   **Trajectories of Insomnia Symptoms From Childhood Through Young Adulthood** 26  
• Childhood insomnia symptoms are highly persistent through young adulthood, and their risk of worsening into adult insomnia is greatest among short-sleeping adolescents.  
*Julio Fernandez-Mendoza, Kristina P. Lenker, Susan L. Calhoun, Myra Qureshi, Anna Ricci, Elizaveta Bourchtein, Fan He, Alexandros N. Vgontzas, Jiangang Liao, Duanping Liao, Edward O. Bixler*

### STATE-OF-THE-ART REVIEW ARTICLE

#### **Focused Ultrasound for Pediatric Diseases** 32

- Focused ultrasound is a noninvasive therapeutic technology that targets tissues deep in the body and can treat pediatric musculoskeletal, oncologic, neurologic, and vascular diseases.

*Rohan Janwadkar, Suzanne Leblang, Pejman Ghanouni, Jacqueline Brenner, John Ragheb, Charles H. Hennekens, AeRang Kim, Karun Sharma*

### SPECIAL ARTICLES

#### **Evidence-Informed Milestones for Developmental Surveillance Tools** 33

- Review and revision of CDC's developmental surveillance milestones and tools by subject matter experts using newly defined criteria and empirically informed evidence.

*Jennifer M. Zubler, Lisa D. Wiggins, Michelle M. Macias, Toni M. Whitaker, Judith S. Shaw, Jane K. Squires, Julie A. Pajek, Rebecca B. Wolf, Karnesha S. Slaughter, Amber S. Broughton, Krysta L. Gerndt, Bethany J. Mlodoch, Paul H. Lipkin*

#### **Pediatric Firearm Injury Mortality Epidemiology** 36

- Using CDC injury mortality data, this study describes updates in pediatric firearm mortality data, with a focus on intent, age group differences and racial/ethnic inequities.

*Annie L. Andrews, Xzavier Killings, Elizabeth R. Oddo, Kelsey A. B. Gastineau, Ashley B. Hink*

#### **Priorities for Safer In-Person School for Children With Medical Complexity During COVID-19** 37

- Statewide stakeholders developed priorities to facilitate safer school attendance for children with medical complexity during the COVID-19 pandemic using an adapted priority-setting method.

*Michelle M. Kelly, Gregory P. DeMuri, Hanna J. Barton, Carrie L. Nacht, Sabrina M. Butteris, Barbara Katz, Rebecca Burns, Shawn Koval, Mary L. Ehlenbach, Julia Stanley, Ellen R. Wald, Gemma Warner, Louise F. Wilson, Gary E. Myrah, Daniel E. Parker, Ryan J. Collier*

### ETHICS ROUNDS

#### **Should Tactile Defensiveness Exclude a Life-Sustaining Intervention in an Adolescent With Autism?** 38

- This Ethics Rounds considers the benefits and burdens of a potentially temporary tracheostomy in an adolescent with autism and severe tactile defensiveness.

*Ian D. Wolfe, Don Brunnequell, Rena Sorensen, Armand H. Matheny Antommara*

### QUALITY REPORTS

#### **Pediatric Septic Shock Collaborative Improves Emergency Department Sepsis Care in Children** 42

- A 19-ED collaborative showed improvement in key processes for early sepsis management and demonstrated that a bundled QI-focused approach can be effective in improving care.

*Holly Depinet, Charles G. Macias, Fran Balamuth, Roni D. Lane, Joseph Luria, Elliot Melendez, Sage R. Myers, Binita Patel, Troy Richardson, Isabella Zaniletti, Raina Paul, for the American Academy of Pediatrics Pediatric Septic Shock Collaborative (PSSC) Investigators*

#### **Reduction of Severe Intraventricular Hemorrhage in Preterm Infants: A Quality Improvement Project** 43

- A QI initiative including implementation of neuroprotective potentially better practices was associated with a reduction in sIVH among extremely premature infants.

*Katelin P. Kramer, Kacy Minot, Colleen Butler, Kathryn Haynes, Amber Mason, Lan Nguyen, Samantha Wynn, Melissa Liebowitz, Elizabeth E. Rogers*

### QUALITY REPORTS (continued)

#### **Improving Time to Independent Oral Feeding to Expedite Hospital Discharge in Preterm Infants** 44

- Timely oral feeding and standardized feeding strategies in preterm infants were implemented by using quality improvement methodology to reduce time to independent oral feeding and discharge.

*Samuel J. Gentle, Claire Meads, Shae Ganus, Elizabeth Barnette, Kathryn Munkus, Waldemar A. Carlo, Ariel A. Salas*

## contents

### **Increasing Cefazolin Use for Perioperative Antibiotic Prophylaxis in Penicillin-Allergic Children** 45

• Through QI methodology, in this study, we increased the percentage of surgical encounters in which cefazolin was used for perioperative antibiotic prophylaxis in children with penicillin-class allergies.

*Rebecca S. Isserman, Jazreel Cheung, Domonique Varallo, Joseph Cafone, Juhee Lee, Kathleen Chiotos, Wallis T. Muhly, Talene A. Metjian, Sanjeev Swami, Keith Baldwin, Jonathan M. Tan*

### **DIAGNOSTIC DILEMMAS**

### **Seventeen-Year-Old Female With History of Depression Presented With Mania and Enuresis** 46

• It is important to carefully consider organic causes and to use an interdisciplinary approach when evaluating and treating patients with mental health complaints and behavioral changes.

*Emine M. Tunc, Catherine E. Otten, Ian M. Kodish, Soo-Jeong Kim, Angad Kochar, Edward Novotny, Hiromi Yoshida*

### **CASE REPORTS—Online only at [www.pediatrics.org](http://www.pediatrics.org)**

### **Hemiparesis With Hypoglycemia in a Child With Hypopituitarism Involving *LHX4* Gene Deletion**

• Hemiparesis can be a presentation of hypoglycemia due to hypopituitarism. Prompt endocrine evaluation and treatment can elucidate the etiology and prevent permanent neurologic damage.

*Leah Akinseye, Jewel Ward, Amit Lahoti*

### **Bronchiolitis Obliterans With Anti-Epiplakin Antibodies in a Boy With Paraneoplastic Pemphigus**

*Marian Rivas-Calderon, Marco A. Yamazaki-Nakashimada, Luz Orozco-Covarrubias, Carola Durán-McKinster, Deyanira Pacheco-Tovar, Esperanza Ávalos-Díaz, Marimar Sáez-de-Ocariz*

### ***EPHB4* Mutation Suppresses *PROX1* Expression and Disrupts Lymphatic Development in Neonatal Hydrops**

• This case report highlights the importance of screening for mutations in *EPHB4* and other genes that regulate lymphatic development in infants with the nonimmune hydrops fetalis.

*Gangaram Akangire, Heather Menden, Sheng Xia, Isabelle Thiffault, Atif Ahmed, Venkatesh Sampath*
