ARTICLES

-   **Trends and Disparities in Firearm Deaths Among Children** 34
- By using the Centers for Disease Control and Prevention database on firearm deaths, we explored disparities and recent trends impacting children and adolescents most at risk for firearm-related death.
- Bailey K. Roberts, Colleen P. Nofi, Emma Cornell, Sandeep Kapoor, Laura Harrison, Chethan Sathya*
-  **Firearm Injuries in Lower Opportunity Neighborhoods During the COVID Pandemic** 35
- Despite the unchanged overall rate of firearm injuries, we identified a distinct group that experienced a disproportionate increase in firearm injuries during the coronavirus disease 2019 pandemic.
- MaKayla L. O'Guinn, Sami Siddiqui, Shadassa Ourshalimian, Pradip P. Chaudhari, Ryan Spurrier*
-  **State-Level Anti-Immigrant Sentiment and Policies and Health Risks in US Latino Children** 36
- Systemic inequities, assessed at the state level, are associated with physical and mental health conditions among Latino children.
- Natalie Slopen, Adriana J. Umaña-Taylor, Jack P. Shonkoff, Adam C. Carle, Mark L. Hatzenbuehler*
-    **Segregation and Childhood Blood Lead Levels in North Carolina** 39
- Children living in segregated neighborhoods exhibit higher blood lead levels. Clinicians and community partners should work collaboratively to expand testing and intervene in housing quality.
- Marie Lynn Miranda, Aaron Lilienfeld, Joshua Tootoo, Mercedes A. Bravo*
-  **Toxic Tetrahydrocannabinol (THC) Dose in Pediatric Cannabis Edible Ingestions** 40
- An ingested dose of tetrahydrocannabinol can be used to predict severe clinical course in pediatric edible cannabis ingestion.
- Lesley C. Pepin, Mark W. Simon, Shireen Banerji, Jan Leonard, Christopher O. Hoyte, George S. Wang*

ARTICLES (continued)

-  **Developmental Trajectories of Autism** 41
 • We describe variation in longitudinal autism characteristics in a large group of autistic persons and assess family and community characteristics associated with these patterns.
Christine Fountain, Alix S. Winter, Keely Cheslack-Postava, Peter S. Bearman
-   **Early Treatment of Multisystem Inflammatory Syndrome in Children** 42
 • This multicenter study identifies an association between early treatment and faster hospital discharge in children with multisystem inflammatory syndrome in children.
Brian Jonat, Andrew S. Geneslaw, Christine A. Capone, Sareen Shah, Lisa Bartucca, Taylor B. Sewell, Karen P. Acker, Elizabeth Mitchell, Eva W. Cheung
-    **Outdoor Cold Air Versus Room Temperature Exposure for Croup Symptoms: A Randomized Controlled Trial** 43
 • This trial demonstrates the benefits of exposure to outdoor cold air in children with mild to moderate croup symptoms, before the onset of steroid action.
Johan N. Siebert, Coralie Salomon, Ilaria Taddeo, Alain Gervaix, Christophe Combescure, Laurence Lacroix
-  **Reducing Abuse and Neglect Recurrence Among Young Foster Children Reunified With Their Families** 44
 • Young children whose birth families received evidence-based parent training and psychiatric support experienced a threefold to fivefold reduction in child maltreatment recidivism over a 10-year follow-up.
John N. Constantino, Gretchen Buchanan, Mini Tandon, Carol Bader, Melissa Jonson-Reid
- Vision Screening Among Children With Private Insurance: 2010–2019** 45
 • Instrument-based vision screening for children <3 years old has greatly increased the number of children receiving vision screenings over the last decade.
Isdin Oke, Sharon M. Lutz, David G. Hunter, Alison A. Galbraith
-   **Compliance With Central Line Maintenance Bundle and Infection Rates** 48
 • Using Children's Hospitals' Solutions for Patient Safety data (>2 million observations, >27 000 line infections, 159 hospitals, 11 years), this article reveals that bundle compliance correlates with lower central line-associated bloodstream infection rates.
Sandeep Tripathi, Jeremy McGarvey, Kejin Lee, Katherine Staubach, Emily Gehring, Patricia Sisson, Marjorie McCaskey, Elizabeth Mack, Jeffrey Hord, Eugenia K. Pallotto, Anne Lyren, Maitreya Coffey
-   **Development of the Pediatric Hospitalization Admission Survey of Experience (PHASE) Measure** 49
 • This study describes the development and validation of a caregiver-reported experience measure for the hospital admissions process.
Corrie E. McDaniel, Sarah J. Lowry, Sonja I. Ziniel, Seneca Freyleue, Stephanie C. Acquilano, JoAnna K. Leyenaar
-   **Early Human Milk Fortification in Infants Born Extremely Preterm: A Randomized Trial** 52
 • This trial found beneficial effects of early human milk fortification on growth outcomes of extremely preterm infants.
Ariel A. Salas, Emily Gunawan, Kelly Nguyen, Audrey Reeves, Victoria Argent, Amber Finck, Waldemar A. Carlo
-  **Quality Indicators to Evaluate Essential Newborn Care in Low- and Middle-Income Countries** 55
 • This article details the development of a panel of quality indicators for evaluating the effectiveness of essential newborn care in birth facilities.
Ellen K. Diego, Danielle E. Y. Ehret, Ashish K. C., Carl L. Bose

ARTICLES (continued)

-  **Percutaneous Closure of the Patent Ductus Arteriosus in Infants ≤ 2 kg: IMPACT Registry insights** 56
- Through analysis of the IMPACT Registry, this study describes the technical success and major adverse events of percutaneous patent ductus arteriosus closure in infants ≤ 2 kg.
- Adrianne Rahde Bischoff, Kevin F. Kennedy, Carl H. Backes, Shyam Sathanandam, Patrick J. McNamara*
- Neonatal Admission Temperature in Middle- and High-Income Countries** 57
- In a large data set, neonatal hypothermia remains common across middle- and high-income countries and is strongly associated with morbidity and mortality.
- Alejandro Frade Garcia, Erika M. Edwards, José Maria de Andrade Lopes, Lloyd Tooke, Evelyne Assenga, Danielle E. Y. Ehret, Anne Hansen*
-  **Physical Activity Among Adolescent Cancer Survivors: The PACCS Study** 58
- Worrisome levels of device-measured physical activity and sedentary time in adolescent childhood cancer survivors call for targeted interventions in follow-up care after childhood cancer.
- May Grydeland, Mari Bratteteig, Corina S. Rueegg, Hanne C. Lie, Lene Thorsen, Elna H. Larsen, Sabine Brüggmann-Pieper, Ingrid K. Torsvik, Miriam Götte, Päivi M. Lähteenmäki, Susi Kriemler, Martin K. Fridh, Sigmund A. Anderssen, Ellen Ruud*
-  **Effectiveness of a School Drinking Water Promotion and Access Program for Overweight Prevention** 59
- The Water First drinking water promotion and access program in low-income, ethnically diverse schools prevented increases in overweight prevalence in children after 15 months.
- Anisha I. Patel, Laura A. Schmidt, Charles E. McCulloch, Lauren S. Blacker, Michael D. Cabana, Claire D. Brindis, Lorrene D. Ritchie*
-  **Diversity of Parent Emotions and Physician Responses During End-of-Life Conversations** 60
- This study explores which emotions parents express in crucial conversations about their child's life-sustaining treatment, how physicians respond to these emotions, and parents' emotional reactions.
- Sanne Prins, Annetiek J. Linn, Anton H.L.C. van Kaam, Moniek van de Loo, Job B.M. van Woensel, Marc van Heerde, Peter H. Dijk, Martin C.J. Kneyber, Matthijs de Hoog, Sinno H.P. Simons, Aranka A. Akkermans, Ellen M.A. Smets, Mirjam A. de Vos*
- Factors Associated With Attendance for Cardiac Neurodevelopmental Evaluation** 61
- This study estimates the rate of attendance for a toddler cardiac neurodevelopmental evaluation and considers patient and program specific predictors to identify potentially modifiable barriers.
- Cynthia M. Ortinou, David Wypij, Dawn Ilardi, Valerie Rofeberg, Thomas A. Miller, Janet Donohue, Garrett Reichle, Mike Seed, Justin Elhoff, Nneka Alexander, Kiona Allen, Corinne Anton, Laurel Bear, Gina Boucher, Jennifer Bragg, Jennifer Butcher, Victoria Chen, Kristi Glotzbach, Lyla Hampton, Caroline K. Lee, Linh G. Ly, Bradley S. Marino, Yadira Martinez-Fernandez, Sonia Monteiro, Christina Ortega, Shabnam Peyvandi, Heather Raiees-Dana, Caitlin K. Rollins, Anjali Sadhwani, Renee Sananes, Jacqueline H. Sanz, Amy H. Schultz, Erica Sood, Alexander Tan, Elizabeth Willen, Kelly R. Wolfe, Caren S. Goldberg*
-  **Characteristics and Results of Pediatric Medical Device Studies: 2017–2022** 62
- To increase knowledge on research activities for pediatric medical devices, we evaluated pediatric device studies registered in ClinicalTrials.gov and assessed study characteristics and reporting practices.
- Sabrina Quazi, Claire Narang, Juan C. Espinoza, Florence T. Bourgeois*

ARTICLES (continued)

-  **Strengthening Reporting of Neonatal Trials** 63
- Flawed and inconsistent reporting of primary outcomes in neonatal trials hinders the usability of research findings; examples of optimal reporting are presented.
- James Webbe, Ami Baba, Nancy J. Butcher, Craig Rodrigues, Emma Stallwood, Katherine Goren, Andrea Monsour, Alvin S. M. Chang, Amit Trivedi, Brett J. Manley, Emma McCall, Fiona Bogossian, Fumihiko Namba, Georg M. Schmölzer, Himanshu Popat, Kim An Nguyen, Lex W. Doyle, Luke Jardine, Matthew A. Rysavy, Menelaos Konstantinidis, Muhd Alwi Muhd Helmi, Nai Ming Lai, Susanne Hay, Wes Onland, Yao Mun Choo, Chris Gale, Roger F. Soll, Martin Offringa, on behalf of the Core Outcome Reporting in Neonatal Trials Study Group*
-  **Heterogeneity and Gaps in Reporting Primary Outcomes From Neonatal Trials** 64
- Inadequate reporting of primary outcomes was observed in recent neonatal trials; clear gaps and areas of improvement for key reporting items were identified.
- Ami Baba, James Webbe, Nancy J. Butcher, Craig Rodrigues, Emma Stallwood, Katherine Goren, Andrea Monsour, Alvin S.M. Chang, Amit Trivedi, Brett J. Manley, Emma McCall, Fiona Bogossian, Fumihiko Namba, Georg M. Schmölzer, Jane Harding, Kim An Nguyen, Lex W. Doyle, Luke Jardine, Matthew A. Rysavy, Menelaos Konstantinidis, Michael Meyer, Muhd Alwi Muhd Helmi, Nai Ming Lai, Susanne Hay, Wes Onland, Yao Mun Choo, Chris Gale, Roger F. Soll, Martin Offringa, on behalf of the Core Outcome Reporting in Neonatal Trials Study Group*
