### ARTICLES

-    **Ten-Year Follow-up of 9-Valent Human Papillomavirus Vaccine: Immunogenicity, Effectiveness, and Safety** 25
- Sustained immunogenicity and effectiveness of the 9-valent human papillomavirus vaccine were demonstrated through 10 years postvaccination in girls and boys aged 9 to 15 years.
- Jaime Restrepo, Teobaldo Herrera, Rudiwilai Samakoses, Julio C. Reina, Punnee Pitisuttithum, Angels Ulied, Linda-Gail Bekker, Edson D. Moreira, Sven-Eric Olsson, Stan L. Block, Luciano S. Hammes, Fabio Laginha, Alex Ferenczy, Robert Kurman, Brigitte M. Ronnett, Mark Stoler, Oliver Bautista, Nancy E. Gallagher, Gino Salituro, Min Ye, Alain Luxembourg*
-    **Support for the Use of a New Cutoff to Define a Positive Urine Culture in Young Children** 26
- Evidence supports the use of a cutoff of 10 000 colony forming units per milliliter to define a positive urine culture.
- Nader Shaikh, Sojin Lee, Janina A. Krumbeck, Marcia Kurs-Lasky*
-  **Invasive Bacterial Infections in Children With Sickle Cell Disease: 2014–2019** 30
- In a post-13-valent pneumococcal vaccine era, *Salmonella* was the leading bacteria responsible for invasive bacterial infections in children with sickle cell disease in Europe.
- Jean Gaschignard, Bérengère Koehl, David C. Rees, Elena Rincón-López, Anna Vanderfaeillie, Alice Pascault, Slimane Allali, Elena Cela, Marie-Hélène Odièvre, Isabelle Hau, Marisa Oliveira, Cécile Guillaumat, Valentine Brousse, Mariane de Montalembert, Maria Luisa Navarro Gómez, Naima Beldjoudi, Eduardo Jesus Bardon-Cancho, Cristina Epalza, on behalf of the BACT-SPRING study group*
-  **Epidemiology of Nontyphoidal *Salmonella* Bloodstream Infections in Children** 31
- Non-typhoidal *Salmonella* bloodstream infection rates are not decreasing. *S. heidelberg* is the most common cause of non-typhoidal *Salmonella* bloodstream infections in children.
- Tara L. Greenhow, Amy Alabaster*

### ARTICLES (continued)

- Adolescent and Caregiver Perspectives on Receiving Gender-Affirming Care in Primary Care** 32  
 • This is a qualitative study with 14- to 17-year-old transgender and gender-diverse adolescents and their caregivers to understand their perspectives regarding receiving gender-affirming care in pediatric primary care.  
*Gina M. Sequeria, Jessy Guler, Valentino Reyes, Peter G. Asante, Nicole Kahn, Yomna Anan, Kevin Bocek, Kacie Kidd, Dimitri Christakis, Wanda Pratt, Laura P. Richardson*
- Pediatric ADHD Medication Errors Reported to United States Poison Centers, 2000 to 2021** 33  
 • This study investigates the characteristics and trends of out-of-hospital attention-deficit/hyperactivity disorder medication-related therapeutic errors among <20-year-olds reported to US poison centers from 2000 to 2021.  
*Mikaela M. DeCoster, Henry A. Spiller, Jaahnavi Badeti, Marcel J. Casavant, Natalie I. Rine, Nichole L. Michaels, Motao Zhu, Gary A. Smith*
-  **Early Glycemic State and Outcomes of Neonates With Hypoxic-Ischemic Encephalopathy** 34  
 • Glycemic profile differs between neonates with moderate and severe hypoxic-ischemic encephalopathy, and initial glycemic state is associated with death or neurodevelopmental impairment at 22 to 36 months of age.  
*Ulrike Mietzsch, Thomas R. Wood, Tai-Wei Wu, Niranjana Natarajan, Hannah C. Glass, Fernando F. Gonzalez, Dennis E. Mayock, Bryan A. Comstock, Patrick J. Heagerty, Sunny E. Juul, Yvonne W. Wu, on behalf of the HEAL Study Group*
-  **Effects of a Parenting and Nutrition Intervention on Siblings: A Cluster-RCT** 38  
 • A father-inclusive, bundled parenting and nutrition intervention can improve parenting practices with nontargeted sibling children and sibling child development and nutrition outcomes.  
*Joshua Jeong, Valentina Domonko, Thecla Mendile, Aisha K. Yousafzai*
- Screening for Critical Congenital Heart Defects in Sweden** 39  
 • This study analyzed the contributions of prenatal ultrasound, pulse oximetry, and physical examination to early diagnosis of critical congenital heart defects in a national cohort.  
*Katarina Lannering, Kalliopi Kazamia, Gunnar Bergman, Ingegerd Östman-Smith, Petru Liuba, Jenny Alenius Dahlqvist, Anders Elfvin, Mats Mellander*
-  **Cardiopulmonary Morbidity in Adults Born With Congenital Diaphragmatic Hernia** 40  
 • Because of persistent cardiopulmonary morbidity, adults born with congenital diaphragmatic hernia should receive designated long-term follow-up.  
*Ulrike S. Kraemer, Lieke S. Kamphuis, Pierluigi Ciet, Lidewij Visser, Dick Tibboel, Beatrijs Bartelds, Suzan C.M. Cochijs-den Otter, Ivo de Blaauw, Joost van Rosmalen, Saskia J. Gischler, J. Marco Schnater, Hanneke IJsselstijn*
-  **Representation of Women in Published Articles at 3 Academic Pediatric Journals: 2001 to 2022** 41  
 • This study is a 2-decade retrospective review of the representation of women as authors of published articles and editors in 3 academic medicine pediatric journals.  
*Wadsworth A. Williams II, Manu S. Sundaresan, Lainie Friedman Ross*
- ### COMMENTARIES
- Determining the Best Definition for a Positive Urine Culture in Young Children** 27  
*Ellen R. Wald, Jens C. Eickhoff*
-  **Worse Outcomes From HIE Treatment Associated With Extreme Glycemic States** 35  
*Raul Chavez-Valdez, Khyzer Aziz, Vera Joanna Burton, Frances J. Northington*

#### Technical Report

- Recommendations for Prevention and Control of Influenza in Children, 2023–2024**  
*COMMITTEE ON INFECTIOUS DISEASES*

### PEDIATRICS PERSPECTIVES

-  **Considering Pediatric Obesity as a US Public Health Emergency** 1  
• In context of relentless growth in pediatric obesity, we review arguments favoring and opposing the declaration of a US public health emergency for pediatric obesity.  
*Eric M. Bomberg, Theodore Kyle, Fatima C. Stanford*

### FEATURES

- Federal Funding for Children's Hospitals: Challenges and Critical Shortages for Pediatric Care** 7  
*Catherine G. Coughlin, Kenneth A. Michelson, Amy J. DeLong, Amanda M. Stewart*

- Moving From Adverse Childhood Experiences to Celebrating Supportive Nurturing Relationships** 10  
*Kasey Chelemedos*

### EQUITY, DIVERSITY, INCLUSION, AND JUSTICE

- Rethinking Gender Diversity Terminology: A Call to Include Native Two-Spirit and LGBTQ+ Youth** 13  
*Alessandra C. Angelino, Shaquita Bell*

### ADVOCACY CASE STUDY

-  **Establishing a Permanent Food Pantry in a Pediatric Emergency Department** 17  
• A permanent food pantry in a children's hospital emergency department was feasible and had high rates of acceptance by fast-track patients.  
*Brit Anderson, Elizabeth Lehto, Frances Hardin-Fanning, Joelle Hirst, Joy Storm, Elizabeth Montgomery, Amber Hussain, Kerry Caperell*

### RESEARCH BRIEF

-  **Three-Year Outcomes From a Middle School Dating Violence Prevention Program** 22  
*Elizabeth Baumler, Leila Wood, Jeff R. Temple*

## contents

### STATE-OF-THE-ART REVIEW

-  **Delivering a New Future for People With Cystic Fibrosis** 42
- Cystic fibrosis transmembrane regulator modulators are small molecules that correct the protein defect in certain cystic fibrosis transmembrane regulator variants leading to improved outcomes for select individuals.
- Elizabeth B. Burgener, David N. Cornfield*

### SPECIAL ARTICLES

-  **Newborn Screening for Neurodevelopmental Disorders May Exacerbate Health Disparities** 43
- Expanding newborn screening by employing exome or genome sequencing to target neurodevelopmental disorders may exacerbate existing disparities due to shortages in diagnosticians and therapists.
- Sarah A. Sobotka, Lainie Friedman Ross*

- The Need for a Standard Outcome for Clinical Deterioration in Children's Hospitals** 44
- Unrecognized clinical deterioration is a common and significant form of preventable harm, yet no standard outcome exists to evaluate systems aimed to reduce this harm.
- Meghan M. Galligan, Tina Sosa, Maya Dewan*

-   **2023 Update on Pediatric Medical Overuse** 45
- This update on pediatric medical overuse identifies and provides concise summaries of 10 important articles related to pediatric medical overuse from the years 2021 to 2022.
- Nathan M. Money, Elizabeth R. Wolf, Jennifer R. Marin, Danni Liang, Elizabeth T. Thomas, Timmy Ho*

### ETHICS ROUNDS

- When the Unknown Is Unknowable: Confronting Diagnostic Uncertainty** 46
- The presentation of this complex case highlights the importance of communication amid diagnostic uncertainty and how physicians may best navigate through the decision-making process.
- Giulia Faison, Fu-Sheng Chou, Chris Feudtner, Annie Janvier*

### QUALITY REPORTS

- Increasing COVID-19 Vaccination Rates for Children With Sickle Cell Disease** 51
- Using quality improvement methodology, we successfully increased the COVID-19 vaccination rate for children with sickle cell disease from 41% to 64% over a 5-month period.
- Adam P. Yan, Natasha M. Archer, Dianne Arnold, Eileen Hansbury, Matthew M. Heeney, David Johnson, Erica Lichtman, Heather McMullan, Lisa Morrissey, Maya Ilowite*

-  **Ensuring No Death Is Ignored: Development of a Hospital Mortality Review and Notification System** 52
- For inpatient pediatric mortalities, a reliable system of detection, local clinician reviews, and notifications was developed, resulting in improved awareness among clinicians.
- Katherine E. Bates, Bethany Freeland, Kathryn L. Levy, Rebecca M. Lombel, Anisha Mazloom, Meera S. Meerkov, Kimberly K. Monroe, Benjamin W. Pritz, Stacey Sears, Courtney Strohacker, Lindsay Studt, Kathryn A. Thompson, Danielle Wilson, Rebecca J. Vartanian*
