### ARTICLES

-  **Health Care Utilization After Nonfatal Firearm Injuries** 32
- Utilizing propensity score matching, this study describes the increased risk of health care-associated consequences for US youth sustaining a nonfatal firearm injury.
- Kelsey A.B. Gastineau, Elizabeth R. Oddo, Lizmarie G. Maldonado, Annie N. Simpson, Ashley B. Hink, Annie L. Andrews*
- Trends in Severe Obesity Among Children Aged 2 to 4 Years in WIC: 2010 to 2020** 33
- Among 16.6 million Special Supplemental Nutrition Program for Women, Infants, and Children-participating children, severe obesity decreased from 2010 to 2016 but increased from 2016 to 2020. Significant increases occurred in 21 of 56 Special Supplemental Nutrition Program for Women, Infants, and Children agencies.
- Lixia Zhao, David S. Freedman, Heidi M. Blanck, Sohyun Park*
-  **Short Oral Antibiotic Therapy for Pediatric Febrile Urinary Tract Infections: A Randomized Trial** 37
- This investigator-initiated randomized trial demonstrates that a 5-day course is noninferior to a 10-day course of oral antibiotic to treat febrile urinary tract infections in children.
- Giovanni Montini, Antimo Tessitore, Karen Console, Luca Ronfani, Egidio Barbi, Marco Pennesi, on behalf of the STOP Trial Group*
- Treatment Goals of Adolescents and Young Adults for Gender Dysphoria** 41
- Transgender adolescents and young adults generally have well-described treatment goals at their first medical appointments for gender-related health care.
- Rosemary Claire Roden, Marley Billman, Angelea Francesco, Robert Mullin, Christelle Tassi, Boni Wozolek, Brandyn Heppard, Jamal Essayli, Heather Stuckey-Peyrot*
-  **Trends in Mortality and Morbidities for Infants Born 24 to 28 Weeks in the US: 1997–2021** 42
- After early reductions in mortality and morbidities for very premature infants, improvements in mortality and morbidities have slowed, stalled, or reversed in recent years.
- Jeffrey D. Horbar, Lucy T. Greenberg, Jeffrey S. Buzas, Danielle E.Y. Ehret, Roger F. Soll, Erika M. Edwards*

### ARTICLES (continued)

-  **Transition to Adulthood for Extremely Preterm Survivors** 43  
 • This study compares the transition into adulthood of survivors born extremely preterm/extremely low birth weight in the postsurfactant era with normal birth weight and term-born controls.  
*Lauren Pigdon, Rheanna M. Mainzer, Alice C. Burnett, Peter J. Anderson, Gehan Roberts, George C. Patton, Michael Cheung, John D. Wark, Suzanne M. Garland, Reem A. Albesher, Lex W. Doyle, Jeanie L.Y. Cheong, on behalf of the Victorian Infant Collaborative Study Group*
-  **Physical and Pharmacologic Restraint in Hospitalized Children With Autism Spectrum Disorder** 44  
 • Children with autism spectrum disorder are more likely to experience physical and pharmacologic restraint during inpatient pediatric hospitalization.  
*Mary Elizabeth Calabrese, Georgios Sideridis, Carol Weitzman*
-   **Pharmacologic Restraint Use During Mental Health Admissions to Children's Hospitals** 45  
 • This study uses a national database to examine current rates and past trends in pharmacologic restraint use among hospitalized children on the basis of mental health diagnosis.  
*Benjamin Masserano, Matt Hall, Ryan Wolf, Andrew Diedrich, Ankita Gupta, Andrew G. Yu, Katherine Johnson, Vineeta Mittal*
-   **Disparities in Pharmacologic Restraint for Children Hospitalized in Mental Health Crisis** 49  
 • Among children hospitalized for mental health crises, non-Hispanic Black children were at highest odds of pharmacologic restraint compared with other racial/ethnic groups.  
*Ryan M. Wolf, Matt Hall, Derek J. Williams, James W. Antoon, Alison R. Carroll, Kelsey A. B. Gastineau, My-Linh Ngo, Alison Herndon, Sarah Hart, Deanna S. Bell, David P. Johnson*
-  **Racial and Ethnic Disparities for Unmet Needs by Mental Health Condition: 2016 to 2021** 50  
 • Racial and ethnic minority children are disproportionately affected by unmet treatment needs in mental health. Disparities vary by condition and persist after controlling for socioeconomic characteristics.  
*Andrew R. Chang, Natalie Slopen*
- Invasive Pneumococcal Disease After 2 Decades of Pneumococcal Conjugate Vaccine Use** 51  
 • Summary of the evolving epidemiology of invasive pneumococcal disease among children in Massachusetts, United States, over 2 decades with sequential 7-valent/13-valent pneumococcal conjugate vaccine use.  
*Inci Yildirim, Rotem Lapidot, Yazdani Basha Shaik-Dasthagirisahab, Sarah Hinderstein, Hanna Lee, Monina Klevens, Lindsay Grant, Adriano Gerardo Arguedas Mohs, Alejandro Cane, Larry Madoff, Hillary Johnson, Caryn Ivanof, Meagan Burns, Stephen Pelton*
-    **Maternal Pre-Pregnancy BMI, Breastfeeding, and Child BMI** 52  
 • Breastfeeding practices were associated with lower child BMI for age z-scores regardless of maternal pre-pregnancy BMI category in this Environmental Influences on Child Health Outcomes Pediatric Cohort Study.  
*Gayle M. Shipp, Adaye C. Wosu, Emily A. Knapp, Katherine A. Sauder, Dana Dabelea, Wei Perng, Yeyi Zhu, Assiamira Ferrara, Anne L. Dunlop, Sean Deoni, James Gern, Christy Porucznik, Izzuddin M. Aris, Margaret R. Karagas, Sheela Sathyanarayana, Tom G. O'Connor, Kecia N. Carroll, Rosalind J. Wright, Christine W. Hockett, Christine C. Johnson, John D. Meeker, José Cordero, Nigel Paneth, Sarah S. Comstock, Jean M. Kerver, on behalf of program collaborators for Environmental influences on Child Health Outcomes*
- Breastfeeding and Once-Daily Small-Volume Formula Supplementation to Prevent Infant Growth Impairment** 53  
 • Among at-risk breastfeeding newborns in Guinea-Bissau and Uganda, this randomized controlled trial found that once-daily small-volume formula supplementation was well-tolerated but did not alter growth.  
*Valerie J. Flaherman, Joan Murungi, Carlito Bale, Stephanie Dickinson, Xiwei Chen, Flavia Namiro, Jolly Nankunda, Lance M. Pollack, Victoria Laleau, Mi-Ok Kim, David B. Allison, Amy Sarah Ginsburg, Augusto Braima de Sa, Victoria Nankabirwa*

### ARTICLES (continued)

-  **Trends in Low-Value Care Among Children's Hospitals** 54  
 • Leveraging an existing Pediatric Health Information System Low-Value Care Calculator, this study measures 7-year performance trends for 29 low-value services within children's hospitals.  
*Samantha A. House, Jennifer R. Marin, Eric R. Coon, Shawn L. Ralston, Matthew Hall, Heidi Gruhler De Souza, Timmy Ho, Mario Reyes, Alan R. Schroeder*
-  **Zonulin as a Biomarker for the Development of Celiac Disease** 55  
 • We analyzed a longitudinal birth cohort of children at-risk of celiac disease to determine if increased intestinal permeability precedes celiac disease autoimmunity onset.  
*Tracey M. DaFonte, Francesco Valitutti, Victoria Kenyon, Joseph J. Locascio, Monica Montuori, Ruggiero Francavilla, Tiziana Passaro, Marco Crocco, Lorenzo Norsa, Pasqua Piemontese, Mariella Baldassarre, Alessio Fasano, Maureen M. Leonard, on behalf of the CD-GEMM Study Group*
-  **Accuracy of a Single Financial Security Question to Screen for Social Needs** 56  
 • A single-question screener about overall financial stress does not function well as a prescreen for food insecurity, housing instability, or transportation needs.  
*Janel Hanmer, Kristin N. Ray, Kelsey Schweiberger, Seth A. Berkowitz, Deepak Palakshappa*
-  **Trampoline Park Injury Trends** 57  
 • This study calculates exposure-adjusted injury rates in 18 standard-compliant trampoline parks over 3 years. We show trampoline park injuries are uncommon, and significant injuries rare.  
*Warwick J. Teague, Joanna F. Dipnall, Cameron S. Palmer, Ben Beck*

### CASE REPORTS—Online only at [www.pediatrics.org](http://www.pediatrics.org)

#### **A Case of Neonatal Monkeypox Treated With Oral Tecovirimat**

- We present the case of a 10-day-old formally term female with disseminated mucocutaneous Monkeypox who was treated early with oral tecovirimat and had a favorable outcome.

*Sandra Castejon-Ramirez, John Pennington, Hayley Beene, Nicholas Hysmith, Shelley Ost*

#### **Bilateral Vocal Cord Paralysis Requiring Long-term Tracheostomy After SARS-CoV-2 Infection**

- We present a case of bilateral vocal cord paralysis associated with SARS-CoV-2 infection in an adolescent patient. Management required long-term tracheostomy for airway protection.

*Danielle Reny Larrow, Christopher Hartnick*

#### **Angiotensin-II Use for Refractory Hypotension in an Infant With Bilateral Renal Agenesis**

- Angiotensin-II is a potent vasopressor in adults. This case report demonstrates its use in an infant with bilateral renal agenesis to treat refractory hypotension.
