### ARTICLES

-     **Antidepressant Dispensing to US Adolescents and Young Adults: 2016–2022** 26
- Antidepressant dispensing to adolescents and young adults was rising before coronavirus disease 2019 (COVID-19) and rose 63.5% faster afterward. This change was driven by increased dispensing to female patients.
- Kao-Ping Chua, Anna Volerman, Jason Zhang, Joanna Hua, Rena M. Conti*
-  **Parental Mental Illness and the Likelihood of Child Out-of-Home Care: A Cohort Study** 29
- A cohort study of out-of-home care placement among 1.2 million Swedish children comparing those with and without a wide range of parental mental illnesses.
- Alicia Nevriana, Kyriaki Kosidou, Holly Hope, Susanne Wicks, Christina Dalman, Matthias Pierce, Kathryn M. Abel*
-  **The Association of Childhood Parental Connection With Adult Flourishing and Depressive Symptoms** 32
- A common measure of childhood emotional neglect, rescored positively to measure parental connection, has a graded association with higher adult flourishing and lower depressive symptoms.
- Robert C. Whitaker, Tracy Dearth-Wesley, Allison N. Herman*
-    **Threats, Violence, and Weapon Use Against Children in Domestic Violence Protection Orders** 33
- Children and youth included in domestic violence protection orders are at substantial risk of experiencing threats and violence with weapon use.
- Alice M. Ellyson, Avanti Adhia, Ayah Mustafa, Vivian H. Lyons, Sandra Shanahan, Ali Rowhani-Rahbar*
- Characteristics of Sudden Unexpected Infant Deaths on Shared and Nonshared Sleep Surfaces** 34
- A description of sudden unexpected infant deaths occurring on shared and non-shared sleep surfaces.
- Alexa B. Erck Lambert, Carrie K. Shapiro-Mendoza, Sharyn E. Parks, Carri Cottengim, Meghan Faulkner, Fern R. Hauck*

### ARTICLES (continued)

-   **Disparities in Racial, Ethnic, and Payer Groups for Pediatric Safety Events in US Hospitals** 35
- This population-based, retrospective cohort study examined disparities in preventable safety events in hospitalized children by race and ethnicity or Medicaid status.
- Kavita Parikh, Matt Hall, Joel S. Tieder, Gabrina Dixon, Maranda C. Ward, Pamela S. Hinds, Monika K. Goyal, Shawn J. Rangel, Glenn Flores, Sunitha V. Kaiser*
- Smoking Susceptibility and Trends Among Nonsmoking Adolescents: An International Study** 38
- Through analysis of Global Youth Tobacco Surveys from 1999 to 2021, this study captured regional and macroeconomic differences in smoking susceptibility and trends among adolescents.
- Huaqing Liu, Qi Qi, Ying Duan, Yan Cui, Yan Chen, Chengchao Zhou*
-   **Prevalence of Adolescents Meeting Criteria for Metabolic and Bariatric Surgery** 39
- This study assessed the epidemiology of adolescents meeting criteria for metabolic and bariatric surgery within a large health maintenance organization throughout Southern California.
- Warren L. Shapiro, Poornima Kunani, Margo A. Sidell, Xia Li, Sabina R. Anderson, Jeffrey M. Slezak, Corinna Koebnick, Jeffrey B. Schwimmer*
-  **Sexual and Reproductive Health Outcomes Among Adolescent Females During the COVID-19 Pandemic** 43
- This is a population-based, repeated cross-sectional study of pregnancy and sexual health care utilization patterns among >630 000 adolescent females in Canada during the coronavirus disease 2019 (COVID-19) pandemic.
- Ashley Vandermorris, Alene Toulany, Britt McKinnon, Michelle W. Tam, Zhiyin Li, Jun Guan, Thérèse Stukel, Longdi Fu, Xuesong Wang, Stephanie Begun, Megan E. Harrison, Jannah Wigle, Hilary K. Brown*
-   **Moving Because of Unaffordable Housing and Disrupted Social Safety Net Access Among Children** 46
- Using survey data from social safety net-eligible families in Baltimore and Philadelphia, the study finds that cost-driven moves were associated with disruptions in the Supplemental Nutrition Assistance Program; the Special Supplemental Nutrition Program for Women, Infants, and Children; and Medicaid.
- Kathryn M. Leifheit, Gabriel L. Schwartz, Craig E. Pollack, Keri N. Althoff, Félice Lè-Scherban, Maureen M. Black, Jacky M. Jennings*
-    **Maternal COVID-19 Vaccination and Prevention of Symptomatic Infection in Infants** 49
- After maternal coronavirus disease 2019 (COVID-19) vaccination, higher severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) antibody titers at birth substantially reduced the risk of symptomatic infection for infants <6 months old.
- Cristina V. Cardemil, Yi Cao, Christine M. Posavad, Martina L. Badell, Katherine Bunge, Mark J. Mulligan, Lalitha Parameswaran, Courtney Olson-Chen, Richard M. Novak, Rebecca C. Brady, Emily DeFranco, Jeffrey S. Gerber, Marcela Pasetti, Mallory Shriver, Rhea Coler, Bryan Berube, Mehul S. Suthar, Alberto Moreno, Fei Gao, Barbra A. Richardson, Richard Beigi, Elizabeth Brown, Kathleen M. Neuzil, Flor M. Munoz, on behalf of the MOMI-Vax Study Group*
-   **Remdesivir for COVID-19 in Hospitalized Children: A Phase 2/3 Study** 50
- This study evaluated remdesivir pharmacokinetics and safety in infants and children 28 days and older who were hospitalized for COVID-19 disease.
- Amina Ahmed, Flor M. Munoz, William J. Muller, Allison Agwu, David W. Kimberlin, Luisa Galli, Jaime G. Deville, Paul K. Sue, Ana Mendez-Echevarria, Rita Humeniuk, Susan Guo, Lauren Rodriguez, Dong Han, Charlotte Hedsdog, Heather Maxwell, Ramesh Palaparthi, Kathryn Kersey, Pablo Rojo, for the CARAVAN Study Investigators*

### ARTICLES (continued)

#### **Respiratory Syncytial Virus-Associated Hospitalizations Among Children <5 Years Old: 2016 to 2020**

51

- This summarizes respiratory syncytial virus surveillance during 2016–2020 and provides population-based RSV-associated hospitalization rates among US children <5 years old to inform policy decisions for RSV prevention.

Aaron T. Curns, Brian Rha, Joana Y. Lively, Leila C. Sahni, Janet A. Englund, Geoffrey A. Weinberg, Natasha B. Halasa, Mary A. Staat, Rangaraj Selvarangan, Marian Michaels, Heidi Moline, Yingtao Zhou, Ariana Perez, Chelsea Rohlf, Robert Hickey, Kirsten Lacombe, Rendie McHenry, Brett Whitaker, Jennifer Schuster, Claudia Guevara Pulido, Bonnie Strelitz, Christina Quigley, Gina Weddle DNP, Vasanthi Avadhanula, Christopher J. Harrison, Laura S. Stewart, Elizabeth Schlaudecker, Peter G. Szilagyi, Eileen J. Klein, Julie Boom, John V. Williams, Gayle Langley, Susan I. Gerber, Aron J. Hall, Meredith L. McMorro

#### **Advice to Clinicians From Expectant Parents at Extreme Prematurity: A Multimethod Study**

52

- Through postantenatal counseling interviews and questionnaires, this multimethod study provides empirical, parent-derived advice for clinicians counseling families facing a potentially extremely premature delivery.

Anne Sullivan, Bonnie Arzuaga, Donna Luff, Erin Ward, David N. Williams, Christy Cummings

#### **Pediatric Tuberculosis Infection Care Facilitators and Barriers: A Qualitative Study**

53

- Using qualitative interviews with caregivers and clinicians, we developed a novel model of pediatric tuberculosis (TB) infection care engagement.

Yamini Adusumelli, Mary Tabatneck, Susan Sherman, Gabriella Lamb, Vishakha Sabharwal, Don Goldmann, Alexandra Epee-Bounya, Jessica E. Haber, Thomas J. Sandora, Jeffrey I. Campbell

#### **A Qualitative Study of Resident Advocacy Work**

54

- This qualitative study explores pediatric residents' advocacy work over 8 years, builds on an evidence-informed framework of advocacy types, and provides practical suggestions for educators.

Hannah L. Anderson, Noreena Lewis, Beth Rezet

#### **Pediatricians' Career Satisfaction and Wellbeing by Sex Before and During the COVID-19 Pandemic**

55

- This study utilizes longitudinal data to examine pediatrician career satisfaction and wellbeing by sex during the coronavirus disease 2019 (COVID-19) pandemic (2020–2021) compared with prepandemic years (2012–2019).

Mary Pat Frintner, Laurel K. Leslie, Elizabeth A. Gottschlich, Amy J. Starmer, Bobbi J. Byrne, Gary L. Freed

### QUALITY REPORTS

#### **A Multimodal Intervention to Reduce *C. difficile* Infections and Stool Testing**

63

- This multimodal quality improvement study evaluated the effectiveness of diagnostic stewardship approaches to reducing *Clostridioides difficile* infection and overall stool test utilization.

*Jillian M. Cotter, Claire L. Stokes, Suhong Tong, Meghan Birkholz, Jason Child, Carrye Cost, Rebecca Coughlin, Stephanie Cox, Susan A. Dolan, Kathleen Dorris, Keith Z. Hazleton, Virginia Lugo, Mikayla Norcross, Kelly Pearce, Samuel R. Dominguez*

#### **Reducing Physical Restraint Use in the Medical Behavioral Unit**

64

- A quality improvement initiative reduced the frequency and duration of physical restraint events in a children's hospital medical unit by implementing daily multidisciplinary deescalation huddles.

*Evan M. Dalton, Kathleen Raymond, Brian Kovacs, Kristin Vespe, Virginia Kaufmann, Matthew Lasoski, Claire Gunnison, Julie Beauchamps, Emily Kane, Gabriela Andrade*

### DIAGNOSTIC DILEMMAS

#### **A 6-Year-Old Girl With Fever, Weakness, and Ataxia**

65

- A healthy 6-year-old female was evaluated for fever and right-sided weakness. With the assistance of a multidisciplinary team, we uncovered a very surprising diagnosis.

*Jennifer Barbadora, Angela Chun, Jonathan M. Yarimi, Nikita Shukla, YoungNa Lee-Kim, Stephen Kralik, Kim Little-Wienert*

### CASE REPORTS—Online only at [www.pediatrics.org](http://www.pediatrics.org)

#### **Coronary Bypass in an Adolescent With Systemic Lupus Erythematosus and Acute Coronary Syndrome**

- This is the first case reported of an adolescent girl with acute coronary syndrome as a complication of juvenile systemic lupus erythematosus that was treated by surgery.

*Ana Rubio-Granda, Sara Murias Loza, Bárbara Covadonga Fernández Barrio, Sergio Menéndez Cuervo, Jacobo Silva Guisasola, Andrés Concha-Torre*

#### **Successful Treatment of Rapidly Progressive Interstitial Lung Disease in Juvenile Dermatomyositis**

- We present a patient with rapidly progressive interstitial lung disease for whom prompt recognition of anti-melanoma differentiation associated gene 5 juvenile dermatomyositis and treatment with aggressive combination immunotherapy led to a successful outcome.

*Kristina Ciaglia, Maria Ghawji, Michelle Caraballo, Elizabeth Sloan*

#### **Survival of Infants With Severe Congenital Kidney Disease After ECMO and Kidney Support Therapy**

- Neonates with severe congenital kidney disease are difficult to manage because of complicated comorbidities. Extracorporeal membrane oxygenation and kidney support therapy may support growth and maturation.

*Kara Short, Martha McBride, Scott Anderson, Rachel Miller, Daryl Ingram, Carl Coghill, Brian Sims, David Askenazi*
