### ARTICLES

-   **Neurodevelopmental and Mental Health Conditions in Children With Medical Complexity** 27
- Using data from 3 states, in this study, we report the prevalence of neurodevelopmental and mental health conditions in children with medical complexity and associated health care utilization.
- JoAnna K. Leyenaar, Mary Arakelyan, Andrew P. Schaefer, Seneca D. Freyleue, Andrea M. Austin, Tamara D. Simon, Jeanne Van Cleave, Namrata Ahuja, Alyna T. Chien, Erika L. Moen, A. James O'Malley, David C. Goodman*
-   **Caregiver and Care Team Perceptions of Online Collaborative Care Planning for CMC** 30
- This article explores the experiences of parents and health care providers of children with medical complexity who used an online collaborative care plan for 6 months
- Clara Moore, Sherri Adams, Madison Beatty, Blossom Dharmaraj, Arti D. Desai, Leah Bartlett, Erin Culbert, Eyal Cohen, Jennifer N. Stinson, Julia Orkin*
-   **Binge Drinking Disparities by Grade, Race and Ethnicity, Sexual Orientation, and Gender Identity** 31
- Using a statewide sample, we compared recent binge drinking among subgroups of secondary school students defined by grade, race and ethnicity, and sexual orientation/gender identity.
- Meg D. Bishop, Samantha A. Moran, Rodman E. Turpin, Elizabeth M. Aparicio, Ethan H. Mereish, Stephen T. Russell, Jessica N. Fish*
- Trends in HIE and Use of Hypothermia in California: Opportunities for Improvement** 32
- In California, hypoxic-ischemic encephalopathy diagnosis and use of hypothermia are increasing although some infants with moderate–severe hypoxic-ischemic encephalopathy remain untreated, suggesting need for more targeted education.
- Sonia Lomeli Bonifacio, Jessica Liu, Henry C. Lee, Susan R. Hintz, Jochen Profit*

### ARTICLES (continued)

-  **Variability of Care Practices for Extremely Early Deliveries** 35
- This study explores temporal changes, inter-center variability, and birthing person factors related to care practices for extremely early deliveries.
- Danielle LoRe, Catherine M. Groden, Allison R. Schuh, Chondraah Holmes, Lorena Ostilla, Maggie M. Vogel, Peter D. Murray, Kelly Yamasato, Tiffany Tonismae, Uchenna E. Anani, Natalia Henner, Mobolaji Famuyide, Steven R. Leuthner, Naomi Laventhal, Bree Landis Andrews, Brownsyne M. Tucker Edmonds, Kathleen G. Brennan, Dalia M. Feltman, on behalf of the INVESTIGATING NEONATAL DECISIONS FOR EXTREMELY EARLY DELIVERIES (INDEED) STUDY GROUP*
-   **Disparities in Guideline Adherence for Febrile Infants in a National Quality Improvement Project** 39
- After implementing the American Academy of Pediatrics Clinical Practice Guideline for well-appearing febrile infants in a multicenter collaborative, disparities by race and ethnicity emerged in the provision of guideline-concordant care.
- Corrie E. McDaniel, Larissa L. Truschel, Ellen Kerns, Yenimar Ventura Polanco, Danni Liang, Colleen K. Gutman, Shani Cunningham, Sahar N. Rooholamini, Jennifer Thull-Freedman, Brittany Jennings, Sloane Magee, Paul L. Aronson, on behalf of THE AAP REVISE II QI COLLABORATIVE*
-   **Disparities in Access to Timely Waitlisting Among Pediatric Kidney Transplant Candidates** 40
- Using US transplant registry data, this study identifies disparities in timely waitlisting for kidney transplantation among pediatric candidates, leading to delayed access to transplant.
- Lindsey M. MacLay, Miko Yu, Sandra Amaral, Joel T. Adler, P. Rodrigo Sandoval, Lloyd E. Ratner, Jesse D. Schold, Sumit Mohan, Syed Ali Husain*
-   **Social Needs Screening Via Electronic Tablet in Pediatric Primary Care** 41
- Transitioning from paper to electronic tablet screening led to an increase in social needs disclosure (11% to 26%) and an increase in referral to services.
- Michelle C. Gorecki, Melissa D. Klein, Chidiogo U. Anyigbo, Andrew F. Beck, Adrienne W. Henize, Shelley R. Ehrlich, Melinda C. MacDougall, Mary Carol Burkhardt*
- Preventing Adverse Childhood Experiences in a Sample of Largely Indigenous Children** 42
- A culturally grounded, family-based program prevented adverse childhood experiences and other adversities (eg, child depression) and increased resilience (eg, child help-seeking, caregiver cultural connection).
- Katie M. Edwards, Emily A. Waterman, Lorey A. Wheeler, Ramona Herrington, Natira Mullet, Weiman Xu, Skyler Hopfauf, Leon Leader Charge, Precious Trujillo*
-  **Rate of Asthma Prescriptions for Children and Adolescents During the 2018 Floods in Japan** 43
- New asthma inhalers were prescribed significantly more frequently among disaster victims than nonvictims.
- Shu Utsumi, Shuhei Yoshida, Shinichiro Ohshimo, Nobuaki Shime, Masatoshi Matsumoto*
-  **Low-Resource Hospital Days for Children Following New Tracheostomy** 47
- Children with new tracheostomy and invasive mechanical ventilator dependence experience low-resource hospital days that likely resemble care available outside the acute hospital setting.
- Cara A. Cecil, Adam C. Dziorny, Matt Hall, Jason M. Kane, Joseph Kohne, Aleksandra E. Olszewski, Colin M. Rogerson, Katherine N. Slain, Vanessa Toomey, Denise M. Goodman, Julia A. Heneghan*
-   **Comparing Social Disadvantage Indices in Pediatric Populations** 48
- This study compares 3 commonly used, place-based social disadvantage indices, including 1 pediatric-specific index, and their associations with child health outcomes.
- Anna Zolotor, Ro W. Huang, Nrupen A. Bhavsar, Rushina Cholera*

### REVIEW ARTICLE

#### **Predicting Recovery After Concussion in Pediatric Patients: A Meta-Analysis**

49

- In this systematic review and meta-analysis, we critically examined clinical prognostic prediction models that estimate individual risk of prolonged symptoms following concussion in pediatric patients.

*Jordan M. Wyrwa, Adam S. Hoffberg, Kelly A. Stearns-Yoder, Ann C. Lantagne, Adam R. Kinney, Daniel J. Reis, Lisa A. Brenner*

### STATE-OF-THE-ART REVIEW

#### **Large Language Models in Pediatric Education: Current Uses and Future Potential**

50

- Generative artificial intelligence can notably and positively alter the education milieu for pediatricians. We will illustrate its value in our everyday professional lives.

*Srinivasan Suresh, Sanghamitra M. Misra*

### QUALITY REPORTS

#### **Reducing Failed Extubations in Preterm Infants Via Standardization and Real-Time Decision Support**

51

- Through standardizing extubation guidelines and integrating clinical decision support tools into the electronic medical record, failed extubations were reduced in the NICU.

*Igor Khodak, Michael Kahovec, Vince Romano, Alyssa Nielsen, Colby L. Day, Andrew M. Dylag*

#### **Prevention of NICU Admission Hypothermia in Moderate- and Late-Preterm Infants**

52

- The use of a thermal mattress during moderate- to late-preterm infant delivery room resuscitation significantly decreased the incidence of hypothermia, with a small increase in mild hyperthermia.

*Amanda E. Winkler, Joseph H. Chou, Elizabeth West, Carolyn Bleiler, Janet Bell, Jeanne Gilbert, Christina M. Duzyj, Sergei Roumiantsev, Paul H. Lerou, Megan Aurora*

### DIAGNOSTIC DILEMMAS

#### **Failure to Thrive, Metabolic Acidosis, and Diarrhea in a 7-Week-Old Infant**

53

- This article presents a case of failure to thrive, metabolic acidosis, and diarrhea in a 7-week-old infant leading to an unusual diagnosis.

*Nikki R. Lawson, Joseph Angelo, Eric Chiou, Kevin Glington, Andrea Dean*

### CASE REPORTS—Online only at [www.pediatrics.org](http://www.pediatrics.org)

#### **A Reversible Etiology of Progressive Motor Decline in a Previously Healthy Child**

- We describe a case of progressive proximal muscle weakness and learning disability in a previously healthy boy without signs that might suggest a genetic etiology.

*Tal Eliav, Deandra Kuruppu, Pedro A. Sanchez-Lara, Katheryn Grand, Bahareh Schweiger, Michelle Allen-Sharp*

#### **Clues for Early Diagnosis of MEN2B Syndrome Before Medullary Thyroid Carcinoma**

- Multiple Endocrine Neoplasia type 2B syndrome remains a challenging clinical diagnosis even if nonendocrine features are present at birth. We advocate that genomic newborn screening programs should evaluate for specific pathogenic variants of the *RET* gene.
