ARTICLES

-   **Nirsevimab and Acute Bronchiolitis Episodes in Pediatric Emergency Departments** 27
- Nirsevimab administration to infants younger than age 6 months at the beginning of or during respiratory syncytial virus season significantly reduced the burden of acute bronchiolitis.
- David Andina Martínez, Gemma Claret Teruel, Manuel Gijón Mediavilla, Amaia Cámara Otegui, Laura Baños López, Begoña de Miguel Lavisier, Clara Ferrero García-Loygorri, Victoria Sánchez Tatay, Svetlana Pavlovic Nestic, Nuria Clerigué Arrieta, Verónica Gimeno-Hernández Garza, Jose Lorenzo Guerra Diez, Adrián Ranera Málaga, Silvia Escalada Pellitero, Clara Barrueco Ramos, Jose Antonio Alonso-Cadenas, on behalf of the Impact of universal Respiratory Syncytial Virus prophylaxis in Spain Working Group*
-  **Safety and Pharmacokinetics of Nirsevimab in Immunocompromised Children** 28
- Nirsevimab, a long-acting monoclonal antibody against RSV, was well tolerated and achieved serum concentrations supportive of efficacy in immunocompromised children aged ≤ 24 months.
- Joseph Domachowski, Ulrika Wählby Hamrén, Irfana Banu, Roberta Baronio, Bhanu Basavaraju, Anthonet Koen, Amanda Leach, Vaishali S. Mankad, Pia S. Pannaraj, Pere Soler-Palacin, Therese Takas, Masaaki Mori, Tonya Villafana, for the MUSIC Study Group*
-  **Naloxone Dispensing to Youth Ages 10–19: 2017–2022** 29
- Through an analysis of national retail pharmacy dispensing data, this study describes trends in naloxone dispensing, including demographics, prescribing specialty, and out-of-pocket costs.
- Andrew Terranella, Gery Guy Jr, Christina Mikosz*
-  **Developmental Milestones for Children With Down Syndrome** 32
- Using data from a hospital-based clinic population in Boston, this study identifies age ranges at which children with Down syndrome achieve developmental milestones.
- Nicole Baumer, Rafael DePillis, Katherine Pawlowski, Bo Zhang, Maitreyi Mazumdar*

ARTICLES (continued)

-  **Childhood Opportunity Index and Low-Value Care in Children's Hospitals** 35
- In this study, we investigated the association between the Childhood Opportunity Index 2.0 and low-value care delivery across children's hospitals.
- Irma T. Ugalde, Alan R. Schroeder, Jennifer R. Marin, Matt Hall, Elisha McCoy, Monika K. Goyal, Matthew J. Molloy, John R. Stephens, Michael J. Steiner, Michael J. Tchou, Jessica L. Markham, Jillian M. Cotter, Clemens Noelke, Rustin Morse, Samantha A. House*
- Rotavirus Vaccine Effectiveness Against Severe Acute Gastroenteritis: 2009-2022** 39
- This study demonstrates that rotavirus vaccines remain highly effective in preventing severe illness among US children <5 years old across time, common genotypes, and ages.
- Alpha Oumar Diallo, Mary E. Wikswa, Iddrisu Sulemana, Leila C. Sahni, Julie A. Boom, Sasirekha Ramani, Rangaraj Selvarangan, Mary E. Moffatt, Christopher J. Harrison, Natasha Halasa, James Chappell, Laura Stewart, Mary Allen Staat, Elizabeth Schlaudecker, Christina Quigley, Eileen J. Klein, Janet A. Englund, Danielle M. Zerr, Geoffrey A. Weinberg, Peter G. Szilagyi, Christina Albertin, Samantha H. Johnston, John V. Williams, Marian G. Michaels, Robert W. Hickey, Aaron T. Curns, Michelle Honeywood, Slavica Mijatovic-Rustempasic, Mathew D. Esona, Michael D. Bowen, Umesh D. Parashar, Rashi Gautam, Sara A. Mirza, Jacqueline E. Tate*
-  **Haemophilus influenzae Type b Vaccine Immunogenicity in American Indian/Alaska Native Infants** 40
- Immunogenicity to the *Haemophilus influenzae* type b after the first dose of a hexavalent vaccine, Vaxelis, was noninferior to PedvaxHIB in American Indian/Alaska Native children.
- Bianca D. Jackson, Karen Miernyk, Jonathan Steinberg, Jeanette Beaudry, Loretta Christensen, Uzo Chukwuma, Demetria Clichee, Shawnell Damon, Brooke Amara Farrenkopf, Chloe Hurley, Juan Luna, Brenna Simons, Rosalyn Singleton, Mary Thomas, Dan VanDeRiet, Robert Weatherholtz, Scott Zeger, Sarah Zylstra, James Keck, Laura L. Hammitt*
-  **Vaccine Completion and Timeliness Among Children in the Military Health System: 2010-2019** 41
- Using the Military Health System immunization registry and administrative medical claims data, this study evaluates vaccination coverage among military dependents through age 24 months.
- Celeste J. Romano, Monica Burrell, Anna T. Bukowski, Clinton Hall, Gia R. Gumbs, Ava Marie S. Conlin, Nanda Ramchandar*
-  **Perceived Effects of COVID-19 on Vaccine Hesitancy and Clinician Discussion: A Qualitative Study** 44
- After the coronavirus disease 2019 pandemic, primary care clinicians interviewed saw changes to their patient's vaccine hesitancy, resulting in effects on their discussions with parents around vaccination.
- Dennis Gurfinkel, Caroline Tietbohl, Emma Clark, Alison Saville, Christina Albertin, Sean T. O'Leary, Peter G. Szilagyi, Allison Kempe*
-  **Maternal Disability and Early Child Preventive Care** 45
- Children of women with intellectual or developmental disabilities are less likely than children of women without disabilities to receive recommended well-child visits and immunizations by 2 years of age.
- Hilary K. Brown, Clare Taylor, Andi Camden, Yona Lunskey, Simone Vigod, Maria Santiago, Kinwah Fung, Eyal Cohen, Astrid Guttmann, Deanna Telner, Joel Ray, Jennifer Zwicker, Natasha Saunders*
- Medical Home Care for Children With Deafness and Hearing Problems** 48
- Children with deafness or hearing problems experience less engagement with the medical home model of pediatric care compared with other children.
- Inderpreet Kaur Khalsa, Dylan K. Chan*
-  **Survival of Infants Born at 22 to 25 Weeks' Gestation Receiving Care in the NICU: 2020-2022** 49
- Survival ranged from 35.4% at 22 weeks to 81.2% at 25 weeks with prolonged lengths of stay and frequent technology dependence at all gestational ages.
- Erika M. Edwards, Danielle E. Y. Ehret, Roger F. Soll, Jeffrey D. Horbar*

ARTICLES (continued)

-   **Update to the Neonatal Early-Onset Sepsis Calculator Utilizing a Contemporary Cohort** 52
- The updated Neonatal Early-Onset Sepsis (EOS) Calculator provides equivalent sensitivity in identifying EOS cases compared with the original with a small increase in empiric antibiotic recommendations.
- Michael W. Kuzniewicz, Gabriel J. Escobar, Heather Forquer, Sherian Li, Di Shu, Patricia Kipnis, Allen Fischer, Karen M. Puopolo*
-    **Parental Preferences and Shared Decision-Making for the Management of Febrile Young Infants** 53
- A mixed-methods study evaluating parental experiences and preferences for decision-making for the management of their febrile young infant.
- Philippe Sylvestre, Paul L. Aronson, Alexandra Yannopoulos, Cassandra Poirier, Nathalie Gaucher, Brett Burstein*
-  **Hospital Diversity, Equity, and Inclusion Efforts: Perspectives of Patient and Family Advisors** 54
- Patient and family advisors from underrepresented communities provide insights into how hospitals can recruit diverse patient and family advisors, promote inclusive environments, and advance hospital diversity, equity, and inclusion initiatives.
- Carlos A. Casillas, Andrew F. Beck, Laura Rangel Rodriguez, Ushma Patel, LaToshia Rouse, Valerie L. Ward, Darcel Jackson, Pam Dardess, Ndidi Unaka*
-  **A Coproduced Family Reporting Intervention to Improve Safety Surveillance and Reduce Disparities** 55
- This article describes changes in safety reporting after implementing a health literacy informed, reminder-based, mobile family-safety-reporting intervention coproduced by families, nurses, physicians, and hospital leaders.
- Alisa Khan, Jennifer Baird, Sangeeta Mauskar, Helen W. Haskell, Alexandra N. Habibi, Tiffany Ngo, Alexandra Aldarondo, Jay G. Berry, Katherine L. Copp, Jessica P. Liu, Brynn Elder, Kathryn P. Gray, Karen Hennessy, Kate E. Humphrey, Donna Luff, Nandini Mallick, Susan Matherson, Amanda G. McGeachey, Patrice Melvin, Amy L. Pinkham, Bianca Quiñones-Pérez, Jayne Rogers, Sara J. Singer, Patricia A. Stoeck, Sara L. Toomey, K. Viswanath, Jayme L. Wilder, Mark A. Schuster, Christopher P. Landrigan*
-   **Cognitive and Social-Emotional Development in Girls With Fragile X Syndrome** 56
- Interventions for girls with fragile X syndrome should target verbal and nonverbal skills, executive function, and social behavior/anxiety, and be implemented early to reduce trajectories of decline.
- Kristi L. Bartholomay, Amy A. Lightbody, Qianheng Ma, Booil Jo, Tracy L. Jordan, Allan L. Reiss*
-   **Effectiveness of Direct Admission Compared to Admission Through the Emergency Department: A Stepped-Wedge Cluster-Randomized Trial** 57
- This study describes the comparative effectiveness of direct admission to hospital relative to admission through the emergency department for almost 2600 children admitted to 3 hospitals.
- JoAnna K. Leyenaar, Stephanie C. Acquilano, Seneca D. Freyleue, Andrew P. Schaefer, Corrie E. McDaniel, Ryan S. Bode, Guliz Erdem, Stephanie Lauden, Christine Schmerge, Sylvia S. Choi, Kristyn Felman, Allison Fleischer, Amy J. Houtrow, Martha L. Bruce, A. James O'Malley*
-    **Reducing Iatrogenic Blood Losses in Premature Infants** 58
- Combining qualitative and quantitative methods, an implementation science approach resulted in decreased laboratory testing and blood drawn in premature infants during the initial postnatal weeks.
- Megha Sharma, Emily Bowman, Feng Zheng, Horace J. Spencer, Shaymaa-Al Shukri, Kim Gates, Misty Williams, Sara Peeples, Richard W. Hall, Mario Schootman, Sara J. Landes, Geoffrey M. Curran*
- Trends in Enterobacterales Bloodstream Infections in Children** 59
- In this 20-year cohort study, we analyzed temporal trends in the population-based incidence and clinical outcomes of Enterobacterales bloodstream infection in infants and children <17 years of age.
- Anna A. M. Gibbs, Kevin B. Laupland, Felicity Edwards, Weiping Ling, Samuel Channon-Wells, David Harley, Kathleen Falster, David L. Paterson, Patrick N. A. Harris, Adam D. Irwin*

QUALITY REPORTS

Improving Screening for Social Determinants of Health in an Outpatient Complex Care Clinic

• Successful implementation of a Social Determinant of Health screen in an outpatient complex care clinic using quality improvement methodology identified numerous social concerns and prompted development of intervention strategies.

Arielle Randolph, Breann Butts, Cynthia White, Amelia Auberger, Meredith Bohache, Carrie Goddard-Roaden, Andrew F. Beck, William B. Brinkman, Joanna Thomson

70

Improving Timely Administration of Essential Outpatient Medications in a Pediatric ED

• A quality improvement initiative focused on improving the outpatient medication ordering process for patients in a pediatric emergency department led to increased ordering of essential outpatient medications.

Jessica K. Creedon, Michelle Marini, Kim Erdner, Megan Trexler, Megan Gerling, John J. Porter, Caitlin Kent, Andrew Capraro, Diana Volpe, Dhara Shah, Niloufar Paydar-Darian, Catherine Perron, Anne Stack, Joel D. Hudgins

CASE REPORTS—Online only at www.pediatrics.org

Posterior Reversible Encephalopathy Syndrome Due to Vitamin D Toxicity

• This case report details a patient with encephalopathy, hypertension, and hypercalcemia found to have posterior reversible encephalopathy syndrome secondary to unintentional Vitamin D toxicity.

Mackenzie O'Brien, Gabrielle Russo Barsh, Melissa S. Zhou, Daniela Aguilar Abisad, Nathan Chang

Chronic Recurrent Multifocal Osteomyelitis Involving the Spine, Sternum, and Lower Extremities: A Case Report

• This case report underscores the diagnostic complexities, successful management with multimodal therapy, and the importance of early recognition of chronic recurrent osteomyelitis in pediatric practice.

Khanh Huynh, Lane McLendon, Leandra Woolnough, Melissa E. Elder

Evolution of Treatment Modalities for Disseminated HAdV Infection in Neonates

• A 13-day-old neonate with disseminated human adenovirus-D was cured after intravenous immunoglobulin was combined with methylprednisolone and anticoagulant treatment.

Wenjing Zhang, Fang Liu, Enlin Liang, Li Zhang
