ARTICLES

-   **Predictors in Youth of Adult Cardiovascular Events** 33
- With this study, we examine whether the prediction of future cardiovascular events in youth could be alternatively performed without laboratory tests using longitudinal data from 7 cohorts.
- Joel Nuotio, Tomi T. Laitinen, Costan G. Magnussen, Alan R. Sinaiko, Lydia A. Bazzano, Stephen R. Daniels, David R. Jacobs, Jr, Noora Kartiosuo, Juha Koskinen, David P. Burgner, Mika Kähönen, Olli T. Raitakari, Julia Steinberger, Elaine M. Urbina, Alison J. Venn, Jorma S. A. Viikari, Jessica G. Woo, Terence Dwyer, Markus Juonala*
-   **RSV Neutralizing Antibodies Following Nirsevimab and Palivizumab Dosing** 36
- This exploratory analysis from the phase 2/3 MEDLEY trial describes respiratory syncytial virus (RSV) neutralizing antibody (nAb) levels associated with nirsevimab relative to palivizumab, the previous standard of care.
- Deidre Wilkins, Ulrika Wählby Hamrén, Yue Chang, Lindsay E. Clegg, Joseph Domachowske, Janet A. Englund, William J. Muller, Amanda Leach, Elizabeth J. Kelly, Tonya Villafana*
-  **Safety of a 4-Dose 20-Valent Pneumococcal Conjugate Vaccine Series in Infants: A Randomized Trial** 37
- In this phase 3, randomized, double-blind trial, a 4-dose series of 20-valent pneumococcal conjugate vaccine (PCV20) in healthy infants had a tolerability and safety profile similar to that of 13-valent pneumococcal conjugate vaccine (PCV13).
- Gabriella Hajdu, Teena Hughes, G. Laïssa Ouedraogo, Laurence Flint, Mariano Young, Vrunda Parikh, Dung-Yang Lee, Yahong Peng, William C. Gruber, Daniel A. Scott, Wendy Watson*
-    **Clonidine as Monotherapy for Neonatal Opioid Withdrawal Syndrome: A Randomized Trial** 38
- Clonidine, a non-opiate, is not significantly different from morphine in the treatment of opioid withdrawal regarding length of treatment and neurobehavioral performance outcomes.
- Henrietta S. Bada, Philip M. Westgate, Thitinart Sithisarn, Kimberly Yolton, Richard Charnigo, Massroor Pourcyrus, Fei Tang, Julia Gibson, Jennifer Shearer-Miller, Peter Giannone, Markos Leggas*
-  **International Trends in Zinc Treatment for Diarrhea** 42
- The World Health Organization has recommended using zinc for diarrhea, a leading cause of child death, since 2004. We studied recent trends in zinc use for diarrhea.
- Omar Karlsson, Rockli Kim, S. V. Subramanian*

ARTICLES (continued)

-   **Age, Adverse Childhood Experiences, and Health Care Utilization** 45
- This retrospective cohort study examines the relationship between age and adverse childhood experiences with health care utilization.
- Charles V. Golden, Raymen R. Assaf, Ricardo Aguilar, Tatiana Moreno, Heather Huszti, Michelle Fortier, Theodore Heyming, Uma Rao, Louis Ehwerhemuepha, Michael Weiss*
- Prevalence of Adverse Childhood Experiences Among Adolescents** 46
- In this study, we present the self-reported prevalence of adverse childhood experiences (ACEs), including abuse, among a large, population-based sample of US high school students.
- Elizabeth A. Swedo, Phyllis Holditch Niolon, Kayla N. Anderson, Jingjing Li, Nancy Brener, Jonetta Mpofu, Maria V. Aslam, J. Michael Underwood*
-   **Neighborhood Disadvantage and Birth Outcomes Among Refugees** 47
- In this register-based quasi-experimental study, we found that greater neighborhood socioeconomic disadvantage was associated with adverse birth outcomes among refugee women in Denmark.
- Else Foverskov, Justin S. White, Trine Frøslev, Lars Pedersen, Henrik T. Sørensen, Rita Hamad*
-    **Caregiver Perspectives on Improving Government Nutrition Benefit Programs** 50
- Through qualitative interviews with Special Supplemental Nutrition Program for Women, Infants, and Children, and Supplemental Nutrition Assistance Program beneficiaries, this study identifies modifiable strategies for improving enrollment in and use of these important nutrition benefit programs.
- DanaRose Negro, Mishaal Yazdani, Lindsay Benitez, Chén C. Kenyon, Alexander G. Fiks, Aditi Vasan*
-  **Challenges and Opportunities in Transitioning Autistic Individuals Into Adulthood** 51
- We conducted focus groups with autistic young adults, care partners, and professionals to inform an updated research agenda concerning transitions into adulthood among autistic youth.
- Anne M. Roux, Kyle Chvasta, Kiley J. McLean, Meghan Carey, Georgina Perez Liz, Liza Tomczuk, Kristina Lopez, Evva Assing-Murray, Paul T. Shattuck, Lindsay L. Shea*
-   **ECMO Survivors' Reflections on Their ICU Experience and Recovery** 52
- Qualitative, structured interviews with PICU survivors reveal overlooked aspects of their cognitive, physical, and socioemotional experiences while sedated, ventilated, and recovering.
- Elizabeth Hendrickson, Karan K. Mirpuri, Amanda Kolmar*
-  **Using ChatGPT to Provide Patient-Specific Answers to Parental Questions in the PICU** 53
- This study reveals ChatGPT's ability to incorporate patient details from medical documentation to provide accurate, empathetic, and understandable responses to parental questions in the PICU.
- R. Brandon Hunter, Satid Thammasitboon, Sreya S. Rahman, Nina Fainberg, Andrew Renuart, Shelley Kumar, Parag N. Jain, Brian Rissmiller, Moushumi Sur, Sanjiv Mehta*
- Legal Involvement in Pediatric Cancer Treatment Refusal: A Qualitative Study** 54
- This study analyzes the perspectives of pediatric oncologists on legal involvement in cases involving treatment refusal, nonadherence, and abandonment.
- Amy E. Caruso Brown, Laura M. Beskow, Daniel J. Benedetti*
-   **"Death Is Not a Dirty Word:" A Qualitative Study of Emergency Clinician End-of-Life Communication** 55
- Qualitative interview insights from pediatric emergency physicians and nurses around communication when caring for the vulnerable population of patients with life-limiting diagnoses.
- Hannah Kotler, Pamela S. Hinds, Amy Hope Jones Wolfe*
-   **Leaving Against Medical Advice From Children's Hospitals** 56
- Using a national pediatric inpatient database, we found that leaving against medical advice is more likely among racially/ethnically or socioeconomically marginalized children.
- Jeffrey I. Campbell, Destiny G. Tolliver, Yuan He, Rita Y. Wang, Joseph Shapiro, Kristen Shanahan, Anthony Mell, Marcella Luercio, Snehal N. Shah, Matt Hall, Anuj K. Goel, Patrice Melvin, Valerie L. Ward, Jay Berry*
