PEDIATRICS PERSPECTIVES

- The Urgent Need for More Federal Funding for Pediatric Firearm Injury Prevention Research** 1
Lois K. Lee, Alex Butler, Nancy C. Andrews

ADVOCACY CASE STUDY

- Orchestrating a Successful Veto Campaign Against a Detrimental School Immunization Bill** 4
Beth Bloom Emrick, Elizabeth A. Copenhaver, Jennifer Gerlach, Jamie L. Jeffrey, Andrea M. Lauffer, Kathleen Martin, Youmna Mousattat, Lisa M. Costello
- The West Virginia Chapter of the American Academy of Pediatrics helped coordinate a successful veto campaign for a bill that would weaken school immunization policy.

RESEARCH BRIEF

- Procalcitonin and Other Inflammatory Markers in Febrile Infants Aged 60 Days or Younger** 11
Adiel Marom, Alexandra Yannopoulos, Kelley-Anne Dionne, Brett Burstein

ARTICLES

-   **Trends in Mental and Behavioral Health Risks in Adolescents: 1999-2021** 14
Rebekah Levine Coley, Jane Leer, Lindsay Lanteri
-   **COVID-19 and Completion of Select Routine Childhood Vaccinations** 15
Malini B. DeSilva, Jacob Haapala, Gabriela Vazquez-Benitez, Matthew F. Daley, Bruno Lewin, Nicola P. Klein, Elizabeth G. Liles, Lisa A. Jackson, Joshua T.B. Williams, James G. Donahue, W. Katherine Yih, Elyse O. Kharbanda
- Using data from 8 US health systems, factors associated with lower rotavirus, DTaP, and pneumococcal vaccine coverage prior to and during COVID-19 pandemic were evaluated.
-    **COVID-19 Vaccination During Pregnancy and Major Structural Birth Defects** 16
Stacey L. Rowe, Sheena G. Sullivan, Flor M. Muñoz, Matthew M. Coates, Brianna Agnew, Onyebuchi A. Arah, Annette K. Regan
- The prevalence of major structural birth defects is not increased among infants born to people vaccinated against COVID-19 in the first 20 weeks of pregnancy.

ARTICLES (continued)

-   **Geospatial Clustering of 9–1 Responses for Pediatric Firearm Injuries Over Time** 17
Craig D. Newgard, Susan Malveau, Amber Lin, Patrick Carter, Jason Goldstick, Jennifer N.B. Cook, N. Clay Mann, Xubo Song, Sean R. Babcock, Nathan Kuppermann, Apoorva Salvi, Mary E. Fallat, Peter C. Jenkins, Ran Wei
- There was spatial clustering (hotspots) of pediatric firearm injuries across the US, with evidence of geographic spread from 2012 through 2022.
- Urine Dipstick for the Diagnosis of Urinary Tract Infection in Febrile Infants Aged 2 to 6 Months** 18
Kathryn M. Hunt, Rebecca S. Green, Laura F. Sartori, Paul L. Aronson, James M. Chamberlain, Todd A. Florin, Kenneth A. Michelson, Michael C. Monuteaux, Pradip P. Chaudhari, Lise E. Nigrovic
-   **Adapting a Risk Prediction Tool for Neonatal Opioid Withdrawal Syndrome** 19
Thomas J. Reese, Andrew D. Wiese, Ashley A. Leech, Henry J. Domenico, Elizabeth A. McNeer, Sharon E. Davis, Michael E. Matheny, Adam Wright, Stephen W. Patrick
-    **Recommendations for Pneumonia in Hospitalized Children With Neurologic Impairment** 20
Joanna E. Thomson, Abigail Musial, Rebecca Steuart, Dan Benschoter, Scott Callahan, David B. Haslam, Michael Rafferty, Christine M. White, Dianna Bosse, Kristen M. Timmons, Maria T. Britto, Amanda C. Schondelmeyer, Samir S. Shah, on behalf of the SEEARC CNI (Stakeholders Evaluating Evidence to Address Respiratory Care for Hospitalized Children with Neurologic Impairment) team
- This study leveraged existing evidence and an expert panel to make management recommendations for children with neurologic impairment hospitalized with pneumonia.
-  **Long-Term Outcomes of Adolescents and Young Adults Identified by Metabolic Newborn Screening** 21
Ulrike Mütze, Julia Stengel, Florian Gleich, Svenja Keßler, Sarah C. Grünert, Eva Thimm, Julia B. Hennermann, Peter Freisinger, Johannes Krämer, Elena Schnabel-Besson, Katharina Mengler, Alboren Shtylla, Marina Morath, Georg F. Hoffmann, Sven Garbade, Stefan Kölker
- This long-term observational study elucidates the beneficial effects of newborn screening for individuals with inherited metabolic diseases until adolescence and uncovers opportunities and limitations.
-   **Health Care and Victim Services Use After Adolescent Violent Injuries, 1993–2023** 22
Keith L. Hullenaar, Frederick P. Rivara
- This study analyzes United States trends in adolescent healthcare and victim service use after violent injuries from 1994–2023 using the National Crime Victimization Survey.
- Social Deprivation Index and Pediatric Pedestrian-vs-Automobile Collisions in Ohio** 23
Katherine C. Bergus, Josh Bricker, Lindsey Asti, Tyler J. Gorham, Amelia Mansfield, Shruthi Srinivas, Kyle J. Van Arendonk, Rajan K. Thakkar, Dana M. Schwartz, Sara A. Mansfield
-   **Home-Delivered Pediatric Weight Management for Low-Income Families: A Randomized Controlled Trial** 24
Bradley M. Appelhans, Simone A. French, Molly A. Martin, Karen J. Lui, Lauren E. Bradley, Tricia J. Johnson, Heng Wang, Imke Janssen, Sumihiro Suzuki
- This randomized controlled trial tested whether delivering pediatric weight management interventions in the home improves weight loss outcomes in lower-income families.
-  **Remote Assessment of Pediatric Anthropometrics** 25
Emily H. Ho, Berivan Ece, Zutima Tuladhar, Anne Zola, Magdalena Ewa Kupczyk, Linda Adair, Richard Gershon
- Birth Prevalence of Gastroschisis in the United States: 2016–2022** 26
Jennifer M. Schuh, Erwin Cabacungan, Amy J. Wagner
- Gastroschisis rates have been increasing for decades across all races/ethnicities. This study explores a recent decrease in gastroschisis prevalence, substantiated by three large databases.
-  **Conservative Management of Macroglossia in Beckwith-Wiedemann Syndrome** 27
Dominic J. Romeo, Connor S. Wagner, Manisha Banala, Andrew M. George, Benjamin B. Massenburg, Meagan Wu, Jinggang J. Ng, Christopher M. Cielo, Jennifer M. Kalish, Jesse A. Taylor

ARTICLES (continued)

-   **Assessing Infant Gross Motor Performance With an At-Home Wearable** 28
Manu Airaksinen, Anastasia Gallen, Elisa Taylor, Sofie de Sena, Taru Palsa, Leena Haataja, Sampsa Vanhatalo
- Many Pediatric Subspecialty Fellows Are Not Ready to Graduate From Fellowship in 2 Years** 29
Sarah Pitts, Alan Schwartz, Melissa L. Langhan, Pamela High, Scott H. James, Ruchika Karnik, Tandy Aye, Donald L. Boyer, Diane E.J. Stafford, Jennifer A. Rama, Bradley W. Robinson, Deborah Hsu, Mary E. Moffatt, Cary Sauer, Jay J. Mehta, Mark P. Atlas, Kathleen A. McGann, Patricia R. Chess, Megan L. Curran, Pnina Weiss, John D. Mahan, Vanessa McFadden, Daniel S. Kamin, Jennifer Kesselheim, Angela S. Czaja, Christiane E.L. Dammann, Jill Fussell, Roshan P. George, Bruce E. Herman, Michelle A. Lopez, Orquidia Torres, David A. Turner, Richard Mink
-   **Quality of Evidence and Strength of Recommendations in American Academy of Pediatrics' Guidelines** 30
Armand H. Matheny Antommara, Matthew Kelleher, Rachel J. Peterson

REVIEW ARTICLES

-   **The Child Opportunity Index and Children's Health: A Meta-Analysis** 31
Jordan Tyris, Diane L. Putnick, Susan Keller, Kavita Parikh, Edwina H. Yeung
- This COI-focused systematic review and meta-analysis of 85 and 27 studies, respectively, synthesized associations between place and indicators of children's health and mortality.
- Standardized Management of the First Hour of Premature Infants: A Meta-Analysis** 32
Sophie Tribolet, Sarah Dénes, Vincent Rigo
- This meta-analysis compares standardized management with standard care during the first hour of life of preterm and highlights trends towards improved short and long-term outcomes.
-  **Family Navigation Programs for Children With Autism Spectrum Disorder: A Scoping Review** 33
Fei Li, Qinling Li, Qiao Shen, Xin Zhang, Hongyao Leng, Yue Liu, Xianlan Zheng

STATE OF THE ART REVIEW

- GLP-1 Receptor Agonists in Pediatric and Adolescent Obesity** 34
Margaret A. Stefater-Richards, Grace Jhe, Yanjia Jason Zhang
- GLP-1 receptor agonists are an important tool in pediatric obesity management. This article reviews the key considerations for using GLP-1 receptor agonists in pediatric practice.

SPECIAL ARTICLES

- October 2024 ACIP Meeting Update: Influenza, COVID-19, RSV, and Other Vaccines** 35
Claudia Gaviria-Agudelo, Alexandra B. Yonts, David W. Kimberlin, Sean T. O'Leary, Grant C. Paulsen
- This article summarizes the topics most relevant to pediatricians covered in the October 2024 meeting of the Advisory Committee on Immunization Practices (ACIP).
- Global Occurrence of Infant Botulism: 2007–2021** 36
Haydee A. Dabritz, Connie H. Chung, Jennifer S. Read, Jessica M. Khouri
- This manuscript tallies infant botulism case counts globally from 2007–2021 with descriptive epidemiological data. Incidence was calculated for countries with ≥ 10 cases.
-  **Evidence and Recommendation for Infantile Krabbe Disease Newborn Screening** 37
Margie A. Ream, Wendy K. K. Lam, Scott D. Grosse, Jelili Ojodu, Elizabeth Jones, Lisa A. Prosser, Angela M. Rose, Anne Marie Comeau, Susan Tanksley, Katie P. DiCostanzo, Alex R. Kemper
- This article describes the evidence leading to the addition of infantile Krabbe disease to the United States Recommended Uniform Screening Panel.
- Improving the Infrastructure for Pediatric Medical Device Trials at Children's Hospitals** 38
Juan C. Espinoza, Grzegorz Zapotoczny, Kolaleh Eskandarian, Joshua Dienstman, R. Brandon Hunter, Robert Levy, Michael Harrison, Hanmin Lee, Chester J. Koh, on Behalf of the Pediatric Device Consortia Research Collaborative

ETHICS ROUNDS

Oophorectomy in a Child to Reduce Cancer Risk: Oncogenetic, Ethical, and Legal Considerations 39
Jennifer Brewer, Georgia L. Wiesner, Ellen W. Clayton, Daniel J. Benedetti

• This case highlights oncologic, genetic, ethical and legal considerations regarding surgery to prevent rather than treat hereditary ovarian cancer, affecting a young child's future fertility.

COMMENTARIES

Trends in Adolescent Mental and Behavioral Health: Opportunities to Optimize Care 46
Jennifer K. Poon, Teal W. Benevides, Beth Bloom Emrick

We Need Historic Investment in Fellowship Redesign to Achieve Workforce Goals 49
Daniel J. Schumacher, Benjamin Kinneer

Rating Recommendations in AAP Clinical Practice Guidelines: More Important Than You Might Think 52
Stephen M. Downs

Now What? Making the Most of the Child Opportunity Index 54
Michael D. Warren, Morgan F. McDonald

QUALITY REPORTS

Improving Human Papillomavirus Vaccine Administration Using Medical-Dental Integration 57
Jessica L. Jack, Amy B. Stein, Laura J. Podewils, Kristin Breslin, Scott Hamilton, Joshua T. B. Williams

• This project evaluates the implementation of a medical dental integration program to administer human papillomavirus vaccines to children ages 9–17 years old during dental visits.

Improving Preteen Lipid Screening Rates at Well-Child Visits Through Quality Improvement Methods 58
Ruth E. Gardner, Katherine E. Shedlock, Benjamin N. Fogel

• Pediatric universal lipid screening has low current screening rates. Point-of-care (POC) testing is a novel way to increase screening rates and identification of abnormal lipids.

Tribute to 2024 *Pediatrics* Reviewers

CASE REPORTS—Online only at www.pediatrics.org

Smartphone-Detected Physiologic Photoleukocoria With Visible Optic Nerve Details

Elizabeth Ransone, Carolyn May, Evan Silverstein

• In two separate cases, the parents of a young child noticed a white reflex on smartphone photography. Optic nerve details were visible. Dilated fundus examination revealed no ocular pathology.

Germline Genetic Variant Classification Requires More Equitable Reference Database Representation

Shana Burstein, Eva Spier, Janki Patel, William Jerome, Miranda Di Biase, Thelma Alessandra Sugañes, Hailey Reisert David M. Loeb, Daniel A. Weiser

Monoclonal antibody targeting IFN β for the treatment of NXP2-positive ulcerative juvenile dermatomyositis

Justina Guirguis, Vignesh Ramachandran, Ruth Ann Vleugels, Steven A. Greenberg, Hanna Kim, Philip J. Kahn, Vikash Oza
