

CONTENTS

THE DEVELOPMENT OF ENZYME SYSTEMS DURING EARLY INFANCY	785
The Early Embryo	786
The Central Nervous System	789
The Blood-brain Barrier	797
The Liver	801
Glucuronide Conjugation in Hepatic Tissues	801
Glucose Metabolism	806
Galactose Metabolism	806
Tyrosine and Phenylalanine Metabolism	807
Other Enzyme Systems of the Liver	808
Interrelationships between Hepatic and Cerebral Functions	809
The Gastrointestinal Tract	811
The Lung	813
The Kidney	814
The Blood	817
Erythrocytes	817
Other Formed Elements	821
Enzymes in the Plasma	821
Plasma Proteins	823
Other Enzyme Systems	826
Concluding Comment	827
Bibliography	827
