Ask a Friend

In just one year, more than 8,000 pediatricians have enrolled in PREP, the American Academy of Pediatrics' comprehensive, coordinated program of continuing education. What do these child health professionals know that you don't?

They know that PREP offers a structured, yet flexible program of continuing education geared to the physician in practice. They know that each year they will be given the program's educational objectives in advance, and offered an opportunity to tailor their programs to meet their individual goals. They also know that evaluation items, self-assessments and examinations are directly linked to educational objectives.

When you enroll in PREP, you will receive:

- *Pediatrics in Review,* a 10-times-per-year journal of continuing education in pediatrics, which offers review articles, abstracts, references to current literature.
- *Two self-assessment packages* featuring exercises, answers, explanation of answers and references.

The program's greatest strength is that it is developed by both practitioners and academicians, identifying topics and recent advances which are important in the practice of pediatric medicine. In addition, PREP is coordinated with the American Board of Pediatrics' voluntary program of recertification in a cooperative endeavor to relate evaluation to the educational process.

Still have some questions? Ask a friend. Or write for more information and registration materials to: PREP, American Academy of Pediatrics, P. O. Box 1034, Evanston, Illinois 60204.

The Department of Pediatrics and the Division of Child and Adolescent Psychiatry of the University of Maryland School of Medicine will offer a fellowship in Behavioral Pediatrics beginning July 1981. The program is designed for two years and is primarily for those wishing to remain in academic medicine. The core experience is the active consultation service to the pediatric inpatient and ambulatory areas and deals with the entire spectrum of psychosomatic disorders, behavior and management problems and issues of chronic disease, death and dying. Active involvement in community programs such as school consultation is stressed. Weekly didactic seminars are given in child development, research methodology, school health, liaison and child psychiatry. Individual research projects and elective time is offered in the second year. For further information, please contact: Richard M. Sarles, MD, Stanford B. Friedman, MD, Division of Child and Adolescent Psychiatry, University of Maryland School of Medicine, Baltimore, MD 21201.

□

PEDIATRIC RESIDENCY—FIRST YEAR—Unexpected PL-1 vacancy at Overlook Hospital, a major teaching affiliate of Columbia University College of P & S, 35 minutes from New York City. Recipient of HEW grant to teach pediatric primary care in model practice setting. Emphasis on behavioral sciences, with strong subspecialty backup by Columbia faculty. Call or write G. Schrager, MD, Director of Pediatrics, Overlook Hospital, Summit, NJ 07901, (201)522-2085.

□

Congressional Science Fellowships in Child Development, supervised by the Society for Research in Child Development and the American Association for the Advancement of Science, are being offered to postdoctoral scientists or professionals from the social, behavioral, and health related sciences, to spend one year, beginning September 1, 1981, on a Congressional staff. Mid-career applicants are especially encouraged to apply. For application information immediately contact: Dr Karen Fischer, Society for Research in Child Development, 2025 Eye St NW, #905, Washington, DC 20006.

□

GENERAL PEDIATRICS ACADEMIC FELLOWSHIPS are being offered beginning at the PL4 year to pediatricians interested in pursuing academic careers in this field. The two-year fellowships, funded under a program of The Robert Wood Johnson Foundation, offer physicians an opportunity to develop research, education, and clinical skills in areas that deal with the everyday health problems of children. The fellowships are offered at Duke University; Johns Hopkins University; Children's Hospital of Philadelphia; The University of Rochester; Stanford University; and Yale University. For further information contact: General Pediatrics Academic Development Program, Dr Robert Haggerty, Dept of Pediatrics, Cornell Medical College, 525 E 68th St, New York, NY 10021.

Recommend Flintstones® ...and be sure.

Help be sure children get their RDAs.

Since children are often picky about the food they eat, mothers may ask *you* to recommend a multivitamin supplement.

Flintstones Children's Chewable Vitamins are available with or without iron and are formulated to provide slightly more than 100% of the U.S. Recommended Daily Allowance for children 4 years old or younger.

One Flintstones tablet daily provides:

Vitamin A	2,500 IU
Vitamin D	400 IU
Vitamin E	15 IU
Vitamin C	60 mg
Folic acid	0.3 mg
Thiamine	1.05 mg
Riboflavin	1.20 mg
Niacin	13.50 mg
Vitamin B_6	1.05 mg
Vitamin B_{12}	4.50 mcg

Be sure they're affordable.

Flintstones are widely distributed in a variety of retail outlets and are priced 75¢ to $1 *less* than the leading ethical brand sold in pharmacies.

Be sure they're safe.

Flintstones Chewable Vitamins are bottled with a child-resistant cap. And each package is complete with an expiration date that ensures product freshness.

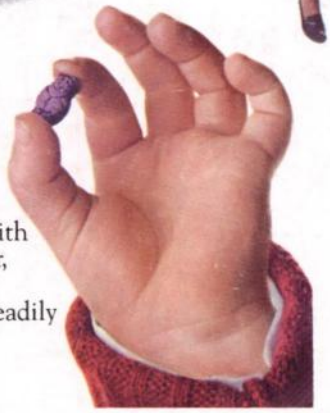
Be sure with Miles Laboratories ... makers of One-A-Day® brand vitamins.

Miles is dedicated to good nutrition—providing consistent product potency and unsurpassed manufacturing quality. That's why we've become one of the world's largest suppliers of vitamins. And because Miles is a name you can trust, you can always be sure of Flintstones.

FLINTSTONES®
Children's Chewable Vitamins

Be sure of "little patient" compliance.

Children recognize the character shapes of Flintstones. Flavored with an all-natural sweetener, Flintstones taste good. This means they'll be readily accepted by even the pickiest eaters.



Be sure to get your free sample kit.

Just mail the attached coupon to Miles Laboratories, Inc., P.O. Box 249, Elkhart, IN 46515.

CUT ALONG DOTTED LINE P/6-80

Please be sure to send me a free sample kit of 20 foil-wrapped packages of four Flintstones® Children's Chewable Vitamins each.
