PEDIATRICS

Classified Advertisement

Your advertisement in the Classified Section of Pediatrics will reach more than 54,000 child health care professionals each month. This circulation includes more than 85% of all Board certified pediatricians, over 90% of all certified pediatric allergists, cardiologists, and surgeons and 7000 pediatric residents. An average of 12 responses is received for each AD run three times or more, with box service.

RATES

30 words or less—1 time, \$130.00, 3 consecutive times or more, \$110.00 each time. Each word over 30, \$1.50 each time, Bold face or italics, \$25.00 one time charge. Blind box charge, \$30.00 each time. Boxed AD, \$85.00 one time charge. Note: Initials or abbreviations equal 1 word. Telephone numbers with area code equals one word.

TERMS

Payment must accompany order. Make checks payable to American Academy of Pediatrics. (VISA/MASTERCARD accepted). Advertisers may cancel AD without refund.

DEADLINE

1st of each month, two months preceding issue (Jan 1 for March issue). Please submit AD copy typed. No telephone orders will be accepted. Handwritten AD copy is not acceptable.

To place an AD, please send your order with payment to: American Academy of Pediatrics, Pediatrics Classified, PO Box 927, Elk Grove Village, IL 60009-0927.

To reply to an AD use the following address: Pediatrics Classified, Blind Box #, American Academy of Pediatrics, PO Box 927, Elk Grove Village, IL 60009-0927.

OPPORTUNITIES—National

HealthWays ATLANTA

Group practice opportunities to work with patient-focused colleagues and medical staff in new, well-equipped offices in convenient neighborhood locations. HealthWays is dedicated to primary health care, preventive medicine and quality time with patients.

You will find a rewarding career that you can balance with your way of life at HealthWays Family Medical Centers. As an affiliate of a Fortune 50 corporation, we are committed to the practice of quality medicine for Board Certified/Qualified primary care specialists.

You will also find competitive compensation and benefits including time and funding for Continuing Medical Education, and malpractice coverage.

To be considered, please forward your CV and letter of interest with your preferred location(s), to: Physician Relations Representative, Healthways Family Medical Centers, 95 Glastonbury Boulevard, GB99, Glastonbury, CT 06033-4416. Or call 1-800-967-2273. We are an Equal Opportunity/Affirmative Action Employer.

NEONATOLOGISTS PEDIATRIC INTENSIVISTS

Brand New Staffing Program...

- ... Work a full-time guaranteed work schedule.
- ... Travel, meet others, learn!
- ... Receive superior compensation and BENEFITS.

E

Established in 1979, Pediatrix Medical Group has multiple contracts in the United States.

In response to our most recent expansion, Pediatrix Medical Group has introduced the Physician Staffing Services (PSS) Program. The PSS is specifically designed for physicians who wish to be permanently employed, full-time associates of Pediatrix Medical Group, yet prefer to provide temporary coverage in our units.

This program allows you to travel, while enjoying the benefits of meeting new colleagues and learning innovative techniques and procedures. You'll be content in knowing that you're a full-time physician within the Pediatrix Medical Group, fully compensated with **guaranteed** salary and benefits, and have the job security that goes along with this affiliation.

Highlights of the PSS Program include:

- Full-time employment
- Paid travel, temporary housing, car rental, state licenses and hospital privileges
- Superior compensation
- Full malpractice coverage, including tail
- Medical/dental/vision/prescription plans
- 401K savings plan
- Long-term disability and accidental death & dismemberment insurance
- Four weeks of paid vacation
- Generous CME allowance

Put your expertise and dedication to work where you will be well rewarded! Join our rapidly growing, quality-driven organization today! Call Lori Abolafia or Cindy Sowinski in the Physician Relations Department at (800)243-3839 for the details. Or write to:

NEONATOLOGISTS PEDIATRIC INTENSIVISTS

Brand New Staffing Program...

- ... Work a full-time guaranteed work schedule.
- ... Travel, meet others, learn!
- ... Receive superior compensation and BENEFITS.

E

Established in 1979, Pediatrix Medical Group has multiple contracts in the United States.

In response to our most recent expansion, Pediatrix Medical Group has introduced the Physician Staffing Services (PSS) Program. The PSS is specifically designed for physicians who wish to be permanently employed, full-time associates of Pediatrix Medical Group, yet prefer to provide temporary coverage in our units.

This program allows you to travel, while enjoying the benefits of meeting new colleagues and learning innovative techniques and procedures. You'll be content in knowing that you're a full-time physician within the Pediatrix Medical Group, fully compensated with **guaranteed** salary and benefits, and have the job security that goes along with this affiliation.

Highlights of the PSS Program include:

- Full-time employment
- Paid travel, temporary housing, car rental, state licenses and hospital privileges
- Superior compensation
- Full malpractice coverage, including tail
- Medical/dental/vision/prescription plans
- 401K savings plan
- Long-term disability and accidental death & dismemberment insurance
- Four weeks of paid vacation
- Generous CME allowance

Put your expertise and dedication to work where you will be well rewarded! Join our rapidly growing, quality-driven organization today! Call Lori Abolafia or Cindy Sowinski in the Physician Relations Department at (800)243-3839 for the details. Or write to:

Health Plan**

BC/BE NEONATOLOGISTS—Pediatrix Medical Group, the nation's largest private neonatology practice, provides you stable income, career advancement, and research opportunities. These are just some of the good reasons to consider one of our permanent positions available in the New York area. **UTICA:** be a part of our growing private practice at St Luke's Memorial Hospital. A well-established Level II trauma center, St Luke's has a sophisticated 10-bed NICU and offers an excellent environment for professional growth. Plus, Utica is a city of many facets...upscale arts, entertainment, shopping, and dining, all surrounded by beautiful countryside to explore and enjoy. **WATERTOWN:** picturesque, a mecca for year-round sports enthusiasts...summer sailing on beautiful lakes, world class snow skiing, and a myriad of leisure time options in any season! All that, plus excellent housing choices, fine schools, and friendly people await you! Just join our private practice group in one of our two openings in Watertown (70 miles north of Syracuse) at a 319-bed regional referral center, with a six-bed Level II NICU. **ELMIRA:** we have an immediate opportunity available at Arnot Ogden Medical Center, located in the beautiful Finger Lakes region. Bring your talents to this busy 12-bed Level III NICU, part of a hospital that offers a perinatology program and a full range of pediatric subspecialties. For additional information, please contact: Cindy Sowinski, Physician Relations, at 1-800-243-3839, Pediatrix Medical Group, 1455 Northpark Dr, Ft Lauderdale, FL 33326.

Neonatologist

Cooperative program between Women & Infants Hospital in Providence, RI and Charlton Memorial Hospital in Fall River, MA. Position will be Director of Newborn Medicine at Charlton Memorial Hospital, a 324-bed community hospital with 1900 deliveries per year and an 8-bed Level II nursery. Fall River is located in southeastern Massachusetts with easy access to Providence, Boston, Cape Cod and other scenic and recreational attractions of New York and New England. Will be responsible for all administrative activities for newborn medicine at Charlton Memorial, will work with a second neonatologist (already on staff) and with other neonatologists, fellows and pediatricians in the program to consult or provide direct care to nursery patients. In addition, will spend up to 2 months per year as attending in the 60-bed neonatal intensive care unit at Women and Infants Hospital where there are 9500 deliveries per year. For information call (508) 941-7580 or send CV to James Thorp, MD PhD, Level II Nursery, Charlton Memorial Hospital, 363 Highland Ave., Fall River, MA 02720.

CORTLAND, NEW YORK; Practice at its FINEST, in COUNTRY at its FINEST. As a member of our growing multispecialty group practice, you can devote yourself to the highest standards of quality care without compromising quality of life. Here you'll have excellent support from other physicians, diagnostic/pharmacy services, and a top administrative team. They'll liberate you for the true practice of medicine... and to enjoy a choice rural lifestyle in the Cortland, NY area, providing a wealth of recreational and cultural amenities. We offer competitive compensation and a full benefits program which includes malpractice insurance and relocation assistance. For consideration, please contact: Donna M. Singh, Physician Recruitment Specialist, Dept PED05, Health Services Assoc, 8278 Willett Pkwy, Baldwinsville, NY 13027. 1-800-388-3264. An Equal Opportunity Employer.

PEDIATRIC CHIEF/BOSTON SUBURB—Join a thriving 25-physician multispecialty group located just eight miles south of Boston. You will be able to combine the lifestyle advantages of working for a staff model and enjoy seeing a mix of HMO Blue patients and private payers. You will oversee three pediatricians and have 1/4 call. Affiliate hospital has evening staff who admit and cover C-Sections. You can go home and relax. Exceptional salary and benefits. Call Ann Breitner, Clark & Hall: 1-800-331-7004.

MARYLAND—BC/BE pediatrician to join two pediatricians in starting a new office in southern Maryland. Sixty minutes from Washington, DC. Salary first two years leading to partnership. Send CV to: Calvert Pediatrics, Box 388, Prince Frederick, MD 20678.

New Hampshire

The Hitchcock Clinic, a progressive multispecialty group practice, is seeking a BC/BE pediatrician for its Concord Division. Our practice offers a full scope of office based services and is affiliated with a contemporary hospital with state-of-the-art technology, Level II nursery and outstanding nursing staff. Our regional After Hours Triage Program staffed with ARNPs or RNs reduces nighttime calls to on-call physicians. Call schedule is 1 in 5 or better. The Clinic is ideally located near the White Mountains, spectacular Lakes Region, the Atlantic Seacoast and all the attractions of Boston.

We are a congenial medical group committed to the concepts of quality care in a group environment while promoting autonomy and diversity of practice styles. We offer a competitive compensation and benefit package.

For more information, please call 603-226-2200 or send curriculum vitae to: Kevin Appleton, The Hitchcock Clinic, 253 Pleasant Street, Concord, NH 03301. Committed to equal employment opportunity.

Dartmouth-Hitchcock Medical Center

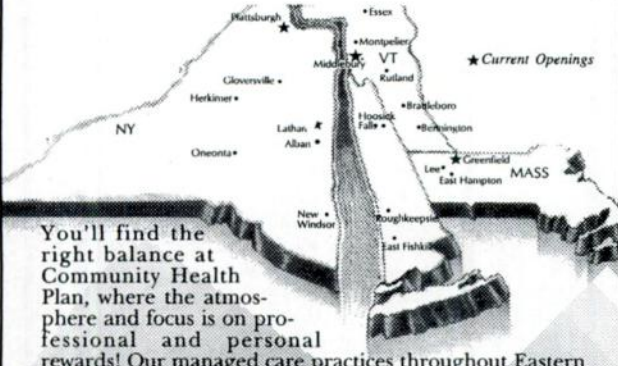

The Hitchcock Clinic

ONE TEAM. ONE COMMITMENT.

INFECTIOUS DISEASES—The Department of Pediatrics of the University of Pittsburgh School of Medicine, Children's Hospital of Pittsburgh, is recruiting a pediatric infectious diseases specialist at the Assistant or Associate Professor level in the tenure track. Salary is commensurate with experience. Applicants must have successfully completed a fellowship with strong laboratory training. The Division has active clinical and research programs. The position entails teaching responsibilities and clinical care. Adequate protected time will be available to encourage and permit the creation of a successful research program. The position is available immediately and applications will be accepted until September 30, 1994 or until the position is filled. Interested individuals should send CV to: Ellen R. Wald, MD, Chief, Division of Pediatric Infectious Diseases, Children's Hospital of Pittsburgh, 3705 Fifth Ave, Pittsburgh, PA 15213-2583. (412) 692-5930. Fax: (412) 692-7255. The University of Pittsburgh is an Equal Opportunity/Affirmative Action Employer.

Pediatrician

You'll find the right balance at Community Health Plan, where the atmosphere and focus is on professional and personal rewards! Our managed care practices throughout Eastern New York, Western Massachusetts and Vermont offer a range of quality options which will free you from mundane and time consuming business issues.

We're seeking a board certified Pediatrician to join our dynamic group practice in either Plattsburgh, NY, Middlebury, VT or Greenfield, MA. This involves a full-time commitment with a reasonable on-call schedule.

At CHP you'll enjoy a competitive salary, and full range of benefits which include malpractice, health, life and disability insurance, as well as retirement and vacation time. Please contact or send your resume to: **Lisa Reese or Mary Brand, Physician Recruiter, Community Health Plan, Dept. K, 1202 Troy-Schenectady Road, Latham, New York, 12110; 1-800-638-0668, or 518-783-1864.**

An Equal Opportunity Employer.

□

NEONATOLOGIST/MANCHESTER, NEW HAMPSHIRE—Where you choose to practice neonatal medicine is the most significant decision you'll ever make. If you are committed to working in an advanced 296-bed community hospital, your qualifications may fit with a position in our newly constructed state-of-the-art NICU. Your vision and creativity can help shape our institution's role in the delivery of state-wide neonatal services. Presently our nursery is staffed by one neonatologist and three NNP's who provide care to approximately 230 neonates per annum. There are no gestational limits in our NICU and we have a large complement of pediatric subspecialists on our hospital staff. If you aspire to a lifestyle uniquely New England, then you will like our location. We are just one hour from Boston, the historic seacoast, and the panoramic White Mountains. If where you practice makes a difference, send your CV to: David Totsch, Physician Recruiter, Elliot Health System, 2 Elliot Way, Manchester, NH 03103. 1-800-633-6299. EOE.

□

PENNSYLVANIA, seeking TWO BC/BE PEDIATRICIANS to join four-person general pediatric practice. Our group has a good mix of experienced physicians, all Board certified and well trained. Practice has shown continuous growth and is well managed. Office pace reasonable; salary and benefits competitive; partnership potential after one year. We admit patients to 760-bed Lehigh Valley Hospital. Excellent subspecialty support in town. Contact: Don Levick, MD, % Lehigh Valley Hospital, 1243 S Cedar Crest Blvd, Ste 3333, Allentown, PA 18103. (215) 402-3090. EOE.

HOSPITAL BASED PEDIATRICIANS BC/BE to join a well-established medical group in Southern New Jersey to provide hospital coverage to the general pediatric floor and nursery of two well reputed community hospitals. Responsibilities include sharing an inpatient service and consultations to community practitioners and ER physicians. Two opportunities available to join an experienced hospital based pediatrician in covering a 20-bed unit and supervising and teaching family practice residents. Other opportunities involve covering a special care nursery and general pediatric floor. Both hospitals are located in desirable suburban communities, 15 minutes from Center City Philadelphia, and 50 minutes from the Jersey shore. The area has excellent schools and a hospital sponsored day care facility is available. Benefits include a competitive salary, retirement plan, paid time off for CME and vacation, education stipend, and a full array of employee benefits. Anticipated start date is summer 1994. Call Ms Martin, Director of Human Resources, at (609) 489-0150 or send resume to: Physician Recruitment, Promenade North, Ste 4015, Main St, Voorhees, NJ 08043.

□

DIVISION OF ADOLESCENT MEDICINE/ASSOCIATE IN ADOLESCENT MEDICINE—The Rhode Island Hospital is seeking an additional adolescent medicine faculty member. The successful candidate must qualify for a full-time medical faculty position at the rank of Assistant or Associate Professor in the Department of Pediatrics at the Brown University Program in Medicine. The position requires an MD degree, residency training in pediatrics or medicine (with Board certification or eligibility) and eligibility for The Adolescent Medicine Subspecialty Board Examination. The position is one of high visibility in terms of resident and medical student education and patient care. A background in research and demonstrated success and experience in scholarly activity related to adolescent medicine is also required. Applications are expected by June 1, 1994. Screening will begin on that date and continue until a successful candidate has been identified when the search is closed. Every effort will be made for the position to be filled starting September 1, 1994. Interested individuals should send application and CV to: Suzanne Riggs, MD, (Chairperson of the Search Committee), Director, Division of Adolescent Medicine, Rhode Island Hospital, APC 585, Providence, RI 02903. The Rhode Island Hospital is an Equal Opportunity/Affirmative Action Employer and actively solicits applications from minority and protected groups.

ATLANTA, GEORGIA—Neonatologist/pediatric intensivist. Suburban neonatology/pediatric intensive care practice is searching for the right individual who desires a challenging, rewarding practice that will provide personal growth and fulfillment. Our five-person group is based in a private, not-for-profit medical complex that includes a medical-surgical hospital with over 8,000 deliveries/year. We direct the NICU, a 42-bed unit scheduled to expand to a 65-bed unit. An active perinatology service provides a large number of patients with complicated pregnancies and congenital disorders. Our group directs the PICU at The Scottish Rite Childrens Medical Center, a 43-bed unit that is one of four PICUs in the state. The requirements for the position are Board certification or eligibility in neonatology or pediatric intensive care. The practice will arrange for cross-training, if required, at full salary. There is opportunity and support for clinical research; pursuit of clinical projects leading to personal growth and education is encouraged. Salary and benefits are liberal and will reflect the training and experience of the candidate. Contact: Saul Adler, MD, 5555 Peachtree-Dunwoody Rd, #349, Atlanta, GA 30342.

□

ALABAMA—An energetic, BC/BE pediatrician is needed to join two busy, BC pediatricians with a growing practice in an attractive, family oriented, northeastern Alabama community within easy reach of Birmingham, Atlanta, and popular local lake and mountain recreational areas. Highly competitive financial package. Please contact us at Box #039407.

PEDIATRIC INFECTIOUS DISEASES—The Departments of Pediatrics and Infectious Diseases at The Cleveland Clinic Foundation, affiliated with Ohio State University School of Medicine, seek a second pediatric infectious disease specialist to join a growing academic program. Responsibilities include: direct patient care; teaching house staff, medical students, and fellows; research. Reply with CV to: Johanna Goldfarb, MD, Pediatric Infectious Disease, The Cleveland Clinic Foundation, One Clinic Center, 9500 Euclid Ave, Desk A120, Cleveland, OH 44195.

CENTRAL INDIANA—Become the newest addition to an existing three-member pediatric call group in a north central Indiana community of 34,000 with a service area population of 120,000. The three other pediatricians are well-established and busy. As the fourth pediatrician, you will see 25-30 patients per day with a hospital practice of 1 to 3 patients per day. One in four call will allow a balanced professional and personal lifestyle. The community hospital is a full service, 236-bed facility with a total active staff of 80 physicians. A competitive financial package is being offered. This scenic, recreationally rich area is only 60 miles north of Indianapolis and 50 miles south of Fort Wayne. For additional information regarding this outstanding pediatric practice opportunity, please contact: Andrew Johns, Physician Services of America, Ste 250, 2000 Warrington Way, Louisville, KY 40222. 1-800-626-1857, ext 237, or send CV. Fax: (502) 423-1214.

DETROIT, MICHIGAN—Seeking full and part-time pediatricians to staff the in-house pediatric services at Detroit Mercy Hospital. These positions consist of primarily day shifts. Qualified physicians will receive competitive compensation, paid malpractice insurance, and flexible scheduling. Please contact: Mary Kostolansky or the Physician Resources Dept at: 1-800-466-3764.

WANTED—BC/BE pediatrician to join Community Health Center in St Louis, Missouri. Eligible for NHSC repayment, competitive salary, benefit package. Contact: Stephen Staten, MD, Medical Director, 6313 Michigan, St Louis, MO 63111. (314) 353-5190.

CINCINNATI! Get in on this ground floor pediatrics opportunity to join a new primary care medical group! Practice in one of six medical centers servicing suburban Cincinnati while associating with a progressive, 765-bed hospital system and avoid the administrative constraints of private practice. A competitive salary/bonus structure as well as full benefits and paid relocation expenses are being offered to reward your contribution to the "team"! For details, call Jim Hobby at 1-800-654-2854 or fax your CV to: (404) 417-2170.

SOUTHERN ILLINOIS—Regional 276-bed hospital, a short 55 minutes from downtown St Louis, is seeking a fourth pediatrician. Community offers just about everything you can imagine...national sailboat regattas, hot air balloon races, the Shawnee National Forest, water sports galore, and a quality of life that is hard to beat. A very lucrative and flexible financial support package is available, and guaranteed shared call. If you're looking for a safe place to weather the proposed health care reforms, this is it, and, to top it off, it's a great opportunity too! Call Tom Kubiak, Colonel, USAF (Retired) at: 1-800-753-3374. Fax: (618) 632-3637 or mail CV to: PO Box 351, O'Fallon, IL 62269-1208.

ARLINGTON HEIGHTS, ILLINOIS—Full and/or part-time BC/BE pediatrician to join group of three BC pediatricians, located in the NW suburbs of Chicago. Adjacent to 400-bed university affiliated hospital. Level II Nursery with full-time neonatology coverage. Busy inpatient pediatric service with 24 in-house pediatric consultation. Two-office location, friendly office atmosphere with reasonable hours. Flexible, competitive salary/compensation arrangements. Reply to Box #059401.

PERSONAL INSIGHTS

"Mercy allowed me to maintain my independence while becoming part of the team here. They did everything. They moved me, put ads in the newspaper, and printed up cards, stationery and announcements. They introduced me to the physicians in the area, and because they were actively recruiting someone in my position, I felt needed and wanted from the word 'go.'"

Dr. Paul Bizzigotti

Mercy Health Services North is actively recruiting physicians in Internal Medicine, Family Practice, Pediatrics and OB/GYN. We helped Dr. Bizzigotti find professional satisfaction and we'd like to do the same for you. For further information, call or send C.V. to: Physician Recruitment, Mercy Health Services North, Dept. NEPHROLOGIST—The Department of Pediatrics, University of Utah School of Medicine, is seeking two full-time, BC/BE pediatric nephrologists at the Assistant/Associate Professor level. One appointee, on the full-time clinical track, will play a major role in the division's clinical and teaching activities, with a focus on dialysis and/or transplantation. Generous protected time will be provided for clinical research and other forms of scholarship. The other appointment will be on the tenure track and is designed for individuals primarily interested in laboratory research. Participation and competency in patient care and teaching will also be expected. Salary and benefits are competitive, and the region is rich in cultural and recreational opportunities. Direct inquiries to: Richard L. Siegler, MD, Chief, Division of Nephrology and Hypertension, 50 N Medical Dr, Salt Lake City, UT 84132. The University of Utah is an EOE/AA Employer and encourages applications from women and minorities.

UTAH—Department of Pediatrics, University of Utah, is recruiting a BC/BE pediatric hematology/oncology physician-scientist for a tenure track position as Assistant Professor. Limited clinical responsibilities. Research experience with transgenic animal model for study of pathogenesis of lymphoproliferative disorders desirable. Position available July 1994. Application deadline May 1, 1994. Applications submitted after deadline may be considered if no qualified applicant identified. Send curriculum vitae to: Richard O'Brien, MD, 100 N Medical Dr, Salt Lake City, UT 84113. An Equal Opportunity/Affirmative Action Employer. The University of Utah encourages women and minorities to apply.

□

CALIFORNIA—Expanding, public hospital located in desert community one hour north of Los Angeles seeks full-time, BC/BE pediatrician for both hospital and clinic patients. Salary DOQ. Send CV by May 1994 to: Dr Alena Baquet-Simpson, Acting Medical Director, High Desert Hospital, 44900 N 60th St West, Lancaster, CA 93536. (805) 945-8303. EOE/AAP, women, minorities, and persons with disabilities are encouraged to apply.

□

Helping you protect
the children you care for™

Children's Advil® (ibuprofen) Suspension 100mg/5mL

BRIEF SUMMARY OF PRESCRIBING INFORMATION SEE PACKAGE INSERT FOR FULL PRESCRIBING INFORMATION.

INDICATIONS: For reduction of fever in patients aged 6 months and older, and relief of mild-to-moderate pain in patients 12 years and older; for relief of the signs/symptoms of juvenile arthritis, rheumatoid arthritis and osteoarthritis; for relief of primary dysmenorrhea.

CONTRAINDICATIONS: Hypersensitivity to ibuprofen. Do not give to patients with all or part of the syndrome of nasal polyps, angioedema, and bronchospastic reactivity to aspirin or other nonsteroidal anti-inflammatory drugs (NSAIDs). Anaphylactoid reactions have occurred in such patients.

WARNINGS: Risks of GI Ulcerations, Bleeding, and Perforation with NSAID Therapy: Remain alert for ulceration and bleeding in patients treated chronically with NSAIDs even in the absence of previous GI tract symptoms. In clinical trials occurrence of serious GI toxicity is about 1% after 3-6 months of therapy, 2%-4% after one year.

Except for a prior history of serious GI events and other risk factors known to be associated with peptic ulcer disease, no factors have been associated with increased risk. Elderly or debilitated patients tolerate ulceration or bleeding less well and have more fatal GI events.

PRECAUTIONS: General: Serious GI tract ulceration and bleeding can occur without warning symptoms; follow chronically treated patients for signs/symptoms of ulceration and bleeding.

Blurred and/or diminished vision, scotomata, and/or changes in color vision have been reported. If a patient develops such complaints discontinue the drug and have an ophthalmologic examination performed.

Fluid retention and edema have been reported; therefore, use with caution in patients with history of cardiac decompensation or hypertension.

Ibuprofen can inhibit platelet aggregation, although less than aspirin does, and prolong bleeding time (but within the normal range). Use with caution in persons with intrinsic coagulation defects and those on anticoagulant therapy.

To avoid exacerbation of disease or adrenal insufficiency, patients on prolonged corticosteroid therapy should have their therapy tapered slowly when ibuprofen is added to the treatment program.

The antipyretic and anti-inflammatory activity of ibuprofen may reduce fever and inflammation, thus diminishing their utility as diagnostic signs in detecting complications of presumed noninfectious, noninflammatory painful conditions.

Liver Effects: Meaningful (3 times the upper limit of normal) elevations of SGPT or SGOT (AST) occurred in controlled clinical trials in less than 1% of patients. Evaluate patients with symptoms and/or signs suggesting liver dysfunction, or in whom an abnormal liver test has occurred, for evidence of more severe hepatic reactions while on ibuprofen therapy. If abnormal liver tests persist or worsen, if clinical signs and symptoms consistent with liver disease develop, or if systemic manifestations occur, discontinue ibuprofen.

Hemoglobin Levels: Small decreases (usually not exceeding one gram) in hemoglobin and hematocrit with an apparent dose response relationship have been observed following chronic administration. If there are no signs of bleeding it is probably not clinically important.

In two ibuprofen postmarketing studies a decrease in hemoglobin of 1 gm or more was observed.

Aseptic Meningitis: While rare, aseptic meningitis with fever and coma has occurred in patients on ibuprofen. Although more likely to occur in patients with systemic lupus erythematosus and related connective tissue diseases, it has been reported in adults without an underlying chronic disease. If signs or symptoms of meningitis develop in a patient on ibuprofen, consider the possibility of its being related to ibuprofen.

Renal Effects: Like other NSAIDs, long-term administration of ibuprofen to animals has resulted in renal papillary necrosis and other abnormal renal pathology. In humans, acute interstitial nephritis with hematuria, proteinuria, and occasionally nephrotic syndrome have been reported. A second form of renal toxicity is seen in patients with prerenal conditions leading to reduction in renal blood flow or blood volume. In these patients, NSAIDs may cause a dose-dependent reduction in prostaglandin formation and precipitate overt renal failure; patients with impaired renal function, heart failure, liver dysfunction, those taking diuretics, and the elderly are at greatest risk. Monitor renal function in patients at high risk who take ibuprofen chronically if they have signs or symptoms of azotemia. Discontinuation of NSAIDs is typically followed by recovery. Since ibuprofen is eliminated primarily by the kidneys, closely monitor patients with significant renal impairment and anticipate a dosage reduction to avoid drug accumulation.

Information for Patients: Physicians may wish to discuss potential risks (see **WARNINGS, PRECAUTIONS, ADVERSE REACTIONS**) and likely benefits with patients.

Drug Interactions: Coumarin-type Anticoagulants: Short-term studies did not show a significant effect of ibuprofen on a variety of clotting factors when given with coumarin-type anticoagulants. However, bleeding has been reported when ibuprofen or other NSAIDs were administered to patients on these medications; use caution when administering ibuprofen to such patients.

Aspirin: In animal studies, concomitant aspirin/NSAID therapy yielded a net decrease in anti-inflammatory activity with lowered NSAID blood levels. Single dose bioavailability studies in normal volunteers failed to show an effect of aspirin on ibuprofen levels.

Methotrexate: In vitro studies indicate that ibuprofen could enhance the toxicity of methotrexate. Use caution if ibuprofen is administered concomitantly.

H₂ Antagonists: In human volunteers, coadministration of cimetidine or ranitidine with ibuprofen had no substantive effect on ibuprofen serum concentrations.

Furosemide: Ibuprofen can reduce the natriuretic effect of furosemide and thiazides in some patients. During concomitant ibuprofen therapy, observe the patient closely for signs of renal failure and to assure diuretic efficacy.

Lithium: Ibuprofen elevated plasma lithium levels (15%) and reduced renal lithium clearance (19%) in normal volunteers. Observe patients carefully for lithium toxicity. Read lithium package insert before its use.

Diabetes: Each 5 mL of CHILDREN'S ADVIL® SUSPENSION contains 2.5 g of sucrose; consider this when treating patients with impaired glucose tolerance. It also contains sorbitol, 350 mg/5 mL. Although in clinical trials CHILDREN'S ADVIL® SUSPENSION was not associated with more diarrhea than controls, if diarrhea develops, the physician may wish to review other sources of sorbitol in the patient's diet.

Pregnancy/Nursing Mothers: Administration of ibuprofen is not recommended during pregnancy or for use by nursing mothers.

Infants: Safety and efficacy in children < 6 months old have not been established. **ADVERSE REACTIONS:** The most frequent type of adverse reaction is gastrointestinal (GI). In adult clinical trials involving chronic ibuprofen administration, 4%-16% of patients reported one or more GI complaints.

Incidence Greater Than 1% (but < 3%) During Controlled Clinical Trials in Adults:

Probable Causal Relationship: Nausea,* epigastric pain,* heartburn,* diarrhea, abdominal distress, nausea and vomiting, indigestion, constipation, abdominal cramps or pain, fullness of the GI tract (bloating and flatulence), dizziness,* headache, nervousness; rash* (including maculopapular type), pruritus, tinnitus, decreased appetite, edema, fluid retention (generally responds promptly to drug discontinuation, see **PRECAUTIONS**).

Precise Incidence Unknown (but < 1%), Probable Causal Relationship (see **PRECAUTIONS):**

Gastric or duodenal ulcer with bleeding and/or perforation, GI hemorrhage, melena, gastritis, hepatitis, jaundice, abnormal liver function tests, pancreatitis, depression, insomnia, confusion, emotional lability, somnolence, aseptic meningitis with fever and coma, vesiculobullous eruptions, urticaria, erythema multiforme, Stevens-Johnson syndrome, alopecia; hearing loss, amblyopia (blurred and/or diminished vision, scotomata and/or changes in color vision); neutropenia, agranulocytosis, aplastic anemia, hemolytic anemia (sometimes Coombs positive), thrombocytopenia with or without purpura, eosinophilia, decreases in hemoglobin and hematocrit; congestive heart failure in patients with marginal cardiac function, elevated blood pressure, palpitations, syndrome of abdominal pain, fever, chills, nausea and vomiting, anaphylaxis, bronchospasm (see **CONTRAINDICATIONS**); acute renal failure, decreased creatinine clearance, polyuria, azotemia, cystitis, hematuria; dry eyes and mouth, gingival ulcers, rhinitis.

Precise Incidence Unknown (but < 1%), Causal Relationship Unknown: Paresthesias, hallucinations, dream abnormalities, pseudotumor cerebri, toxic epidermal necrolysis, photoallergic skin reactions, conjunctivitis, diplopia, optic neuritis, cataracts; bleeding episodes (eg., epistaxis, menorrhagia); gynecostasia, hypoglycemic reactions, acidosis, arrhythmias (sinus tachycardia, sinus bradycardia); serum sickness, lupus erythematosus syndrome, Henoch-Schönlein vasculitis, angioedema; renal papillary necrosis.

*Reactions occurring in 3%-9% of adult patients treated with ibuprofen.

Reactions occurring in < 3% are unmarked.

OVERDOSAGE: Induce emesis or perform gastric lavage. Oral activated charcoal may be useful in addition to supportive therapy. Because the drug is acidic and excreted in the urine, administration of alkali and induction of diuresis may be beneficial.

DOSEAGE AND ADMINISTRATION: Do not exceed 3200 mg total daily dose. Fever: Children 6 months to 12 years of age—5 mg/kg if baseline temperature is 102.5°F or below, or 10 mg/kg if baseline temperature is greater than 102.5°F, every 6-8 hours. Adults—400 mg every 4-6 hours. Mild to moderate pain in adults, 400 mg every 4 to 6 hours prn. Juvenile Arthritis: 30-40 mg/kg/day in 3 or 4 divided doses. RA and OA: 1200-3200 mg daily in 3 or 4 divided doses (adults). Dysmenorrhea: 400 mg every 4 hours prn.

In childhood fever,
because safety is your first concern

Children's Advil® (ibuprofen) Suspension has a demonstrated safety profile.* In acute fever studies using ibuprofen suspension vs. acetaminophen in children, there was a comparable incidence of side effects, including GI.^{1,2}

Children's Advil Suspension provides long-lasting relief with a low incidence of breakthrough fever. In an 8-hour study by Kelley and co-workers, children taking ibuprofen (6 mg/kg) had less than half the rate of breakthrough fever than those given acetaminophen (10–15 mg/kg)—18% vs 42%.³

Children's Advil Suspension (q6h–8h) provides effective fever control with less frequent dosing than acetaminophen (as labeled, q4h).^{4,5}

*Children's Advil® Suspension is contraindicated in those patients with known hypersensitivity to ibuprofen, aspirin, and other NSAIDs. The most frequent type of adverse reaction occurring with ibuprofen is gastrointestinal.

Please see adjacent page for brief summary of prescribing information.
